4 A BILL FOR AN ACT ENTITLED: "AN ACT APPROPRIATING OIL  
 5 OVERCHARGE MONEY FOR PROGRAMS ADMINISTERED BY THE STATE OF  
 6 MONTANA; FUNDING A WIND FARM TRANSMISSION STUDY; AND  
 7 PROVIDING AN EFFECTIVE DATE."

8  
 9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

10 NEW SECTION. Section 1. Policy. As a result of  
 11 overcharges on sales of domestic crude oil, the federal  
 12 courts have ordered or approved settlements requiring the  
 13 repayment of the total amount of overcharges, plus interest,  
 14 into escrow accounts to be distributed by the U.S. treasury  
 15 to the states, territories, and possessions of the United  
 16 States. It is the policy of this state to use the oil  
 17 overcharge money distributed to the state to supplement  
 18 state and federal programs that the state administers and to  
 19 use the money in a manner consistent with federal court  
 20 orders establishing or approving the payment of the funds to  
 21 the state of Montana.

22 NEW SECTION. Section 2. Definitions. As used in  
 23 [sections 1 through 7], "stripper well payments" means the  
 24 oil overcharge payments made to the U.S. treasury for  
 25 distribution to the state of Montana as the result of the

1 final settlement agreement in the U.S. district court for  
 2 the district of Kansas, Cause No. M.D.L. 378, and any  
 3 interest accrued on the payments. The term does not include  
 4 stripper well payments that have been expended or legally  
 5 obligated or that have been incorporated into any of the  
 6 existing federal energy programs as the result of prior  
 7 appropriations by the legislature.

8 NEW SECTION. Section 3. Deposit of oil overcharge  
 9 revenue. All funds from stripper well payments must be  
 10 deposited by the state treasurer in the federal special  
 11 revenue fund. All interest earned on these funds or payments  
 12 must also be deposited in the federal special revenue fund.

13 NEW SECTION. Section 4. Wind farm transmission study  
 14 -- appropriation. There is appropriated \$70,000 from the  
 15 stripper well payments contained in the federal special  
 16 revenue fund to the department of natural resources and  
 17 conservation for a study to assess the ability of the  
 18 present electrical transmission system, as well as possible  
 19 future expansions, in Montana and the Pacific Northwest to  
 20 accommodate the development of utility-scale wind farms in  
 21 Montana, with the goals of reducing future costs to electric  
 22 ratepayers and encouraging the orderly development of a  
 23 Montana natural resource. The stripper well payments  
 24 appropriated in this section must be matched at least \$2 to  
 25 \$1 with private or federal revenue. The design and conduct

1 of this study must recognize efforts within the Pacific  
2 Northwest to develop wind as a resource and must be  
3 coordinated closely with the relevant transmission  
4 utilities.

5 NEW SECTION. Section 5. Conditions applied to  
6 appropriations. One-half of the total amount appropriated in  
7 [section 4] is appropriated in fiscal year 1992, and  
8 one-half is appropriated in fiscal year 1993. As a biennial  
9 appropriation, the unexpended funds appropriated in fiscal  
10 year 1992 may be carried forward to the second year of the  
11 1993 biennium.

12 NEW SECTION. Section 6. Appropriations prioritized.  
13 The appropriation in [section 4] carries the highest  
14 priority of any programs that may be funded from stripper  
15 well payments. In order to provide continuity for the  
16 programs when establishing the appropriations for each  
17 fiscal year of the 1993 biennium, anticipated stripper well  
18 payments that will be received under terms of the agreements  
19 during the biennium may be considered as available to fund  
20 the appropriations. If House Bill No. 10 or \_\_ Bill No. \_\_  
21 [LC 904] is passed and approved, the stripper well payments  
22 appropriated in House Bill No. 10 and \_\_ Bill No. \_\_ [LC  
23 904] have lower priority than the appropriation of stripper  
24 well payments in [section 4]. The expenditures authorized by  
25 [section 4] may not exceed the amount of the stripper well

1 payments available in the biennium.

2 NEW SECTION. Section 7. Effective date. [This act] is  
3 effective July 1, 1991.
