STATE OF MONTANA - FISCAL NOTE Form BD-15

In compliance with a written request, there is hereby submitted a Fiscal Note for HB0753, as introduced.

DESCRIPTION OF PROPOSED LEGISLATION:

An act to eliminate restrictions on granting property tax exemptions for business incubator property; and providing an immediate effective date and a retroactive applicability date.

FISCAL IMPACT:

Under current law a business incubator owned and operated by a local economic development organization is eligible for an exemption from certain local property taxes. The governing body of the affected county, consolidated government, incorporated city or town, or school district must approve the tax exemption which applies only to the number of mills levied and assessed by the governing body approving the exemption.

Under the proposal, the tax exemption is no longer subject to the approval of the local school district or to the approval of the county if the property is located within the limits of a consolidated government or an incorporated city or town. In addition the exemption is extended to include all property taxes that may be levied against the property rather than just local taxes.

The loss due to this extended exemption is not expected to be great. Currently, there are only one or two such organizations which qualify for the exemption. It is not possible to predict how many more qualifying organizations will be developed over the course of the biennium or the extent of the loss in property taxes.
