

I don't see a need for another call, but will certainly respect the consensus of the group. I would suggest adding an item b. to Issue 16 (about non-compliance with the change process as a result of it being perceived as cumbersome), which would read "enforce existing change statutes." (This is identical language to what was added to Issue 13 – it just seems to me that it belongs in Issue 16 as well.)

Sincerely,

Jay Weiner
Assistant Attorney General
