

The Bureau of Indian Affairs and the Field Solicitor's Office would like the Committee to consider recognition and possible integration of the water administration plans set out in each Indian Compact. The respective tribe will administer tribal fee and all trust property and the DNRC will administer all other fee property, even of the reservation. Also, several of the compacts authorize compact boards to settle disputes with the two groups.

I am not sure how to move forward from here and I do apologize for not participating in the Wednesday call.

John C Chaffin  
Office of the Solicitor
