12 WHEREAS, the State of Montana has recently authorized  
 13 the construction, through its Board of Natural Resources, of  
 14 Colstrip Electric Generating Units 3 and 4 which will  
 15 provide power to electric utilities operating in the Pacific  
 16 Northwest, including the State of Washington.

17

18 NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND HOUSE OF  
 19 REPRESENTATIVES OF THE STATE OF MONTANA:

20 (1) That the Legislature and Executive Department of  
 21 the State of Washington use their good offices to encourage,  
 22 facilitate, and permit the construction of appropriate port  
 23 facilities for unloading crude oil for shipment by pipeline  
 24 to the Northern states, including the State of Montana.

25 (2) That the Governor of the State of Montana consult

1 with the Governor of the State of Washington as to the  
 2 manner and methods whereby this encouragement and  
 3 construction may be accomplished.

4 (3) That the Secretary of State be authorized and  
 5 directed to transmit copies of this resolution to Honorable  
 6 John Cherberg, President of the Senate of the State of  
 7 Washington; to the members of the Senate of the State of  
 8 Washington; to Honorable John Bagnariol, Speaker of the  
 9 House of Representatives of the State of Washington; to the  
 10 members of the House of Representatives of the State of  
 11 Washington; to the Honorable Dixie Lee Ray, Governor of the  
 12 State of Washington; and to each member of the Montana  
 13 Congressional delegation.

A JOINT RESOLUTION OF THE SENATE AND HOUSE OF  
REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE  
LEGISLATURE AND EXECUTIVE DEPARTMENT OF THE STATE OF  
WASHINGTON TO ENCOURAGE AND PERMIT THE CONSTRUCTION OF  
APPROPRIATE PORT FACILITIES FOR UNLOADING CRUDE OIL FOR  
SHIPMENT BY PIPELINE TO THE NORTHERN STATES, INCLUDING THE  
STATE OF MONTANA.

WHEREAS, the State of Montana has for many years  
provided petroleum products to the State of Washington  
through its Billings and Laurel refineries, which products  
are transported through pipelines to Washington; and

WHEREAS, the majority of the crude oil used by  
petroleum refineries in Billings and Laurel, Montana, has  
originated in the Dominion of Canada, but the government of  
Canada has recently announced sharp curtailment in the  
supply of crude oil to the United States and in particular  
the Northern states, including the State of Montana; and

WHEREAS, the government of Canada has recently  
announced eventual, complete denial of international  
transportation of Canadian natural gas from Canada to the  
United States, including the State of Montana, and then has

1 allowed importation of such fuel only at greatly increased  
2 cost to distributors and consumers in the United States; and

3 WHEREAS, agriculture, labor, industry, and the entire  
4 economy of the Northern states are thereby imperiled, and  
5 this peril is demonstrated by the following facts:

6 (1) that the United States has become dependent for  
7 almost 50% of its petroleum requirements upon imports of  
8 foreign crude oil;

9 (2) that the lack of energy supplies during the winter  
10 of 1976-1977 has caused the closing of schools and  
11 industries with resulting unemployment in the northern  
12 portions of the United States;

13 (3) that the Northwestern states are faced with a  
14 serious drought condition which will result in a shortage of  
15 hydroelectric power and a further worsening of the general  
16 energy shortage;

17 (4) that the Governor of Montana has taken steps  
18 within his administration to develop contingency plans for  
19 this expected calamity; and

20 WHEREAS, port and pipeline facilities from the West  
21 Coast will provide a crude oil supply system for the  
22 Northern states that is completely within the boundaries of  
23 the United States and therefore not subject to interruption,  
24 burdens, or regulation by foreign governments; and

25 WHEREAS, crude oil from Alaska will become available to

1 the Northern states beginning in the fall of 1977, and this  
 2 crude oil or products produced therefrom could be utilized  
 3 in the States of Washington, Idaho, Montana, North Dakota,
