MASTER'S REPORT

The United States of America (USDA Forest Service) objected to Rebecca Johnson and Wendy Thomas claim 43B 194610-00. This claim appeared in the Preliminary Decree with the following remark:

STARTING IN 2008, PERIOD OF DIVERSION WAS ADDED TO MOST CLAIM ABSTRACTS, INCLUDING THIS ONE.

On November 16, 2021 the parties filed a Stipulation To Resolve Objections. The Stipulation is viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDINGS OF FACT

1. The following clarification remark should be added to the point of diversion: THE POINT OF DIVERSION IS LOCATED ENTIRELY ON PRIVATE LAND.
2. The following clarification remark should be added to the place of use: THE PLACE OF USE IS LOCATED ENTIRELY ON PRIVATE LAND.
3. The period of diversion remark provides notice of this change made prior to issuance of the Preliminary Decree and does not raise an unresolved issue which needs to be addressed. The remark should be removed as having served its notice purpose.

CONCLUSION OF LAW

The settlement filed by the parties is sufficient to contradict and overcome the prima facie claim.

RECOMMENDATIONS

Based upon the above Findings of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Findings of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
