MASTER'S REPORT

The above-captioned claims appeared in the Preliminary Decree for Box Elder Creek (Basin 39E) and received objections from the United States Bureau of Land Management (BLM). The claims were previously included in Water Court Case 40O-228 and subject to a Stipulation between the BLM and the State of Montana filed in the same case. The claims were reconsolidated into Water Court Case 39E-0240-R-2023 on July 12, 2023 and the State of Montana was joined as a necessary party. On September 12, 2023, the BLM filed a Notice of Filing of Norris Declaration to Resolve Objections and a Declaration of Melissa Norris. The Declaration detailed a correction necessary to resolve the objections and to reflect the volume decreed for claim 39E 61277-00 in Case 40O-228A. On September 18, 2023, the State of Montana filed a Notice to the Court stating that the State did not object to the correction discussed in the Declaration.

FINDINGS OF FACT

1. The volume for claim 39E 61277-00 should be corrected to 446 acre-feet to reflect the volume previously decreed in Case 40O-228A.
2. The Declaration states that BLM's self-objections to the remaining claims are resolved and no changes are necessary.
3. The remaining remarks are notice type remarks that state that if no objections were filed, the elements implicated by the remarks remain as they appear. No objections were filed to those elements of the claim and the remarks should be removed accordingly.

PRINCIPLES OF LAW

1. The Montana Water Court has the authority to determine the extent of all water rights in the state as they existed prior to July 1, 1973. *Fellows v. Saylor*, 2016 MT 45, ¶ 25, 382 Mont. 298, 367 P.3d 732; §§ 85-2-233, -102(13), MCA.
2. A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content. § 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R.

CONCLUSION OF LAW

1. Claim 39E 61277-00 should be modified as discussed above. Modification of the claim resolves the Objection to the claim. The issue remarks appearing on the claims should be removed.

RECOMMENDATIONS

1. Upon review the record in this case, the volume for claim 39E 61277-00 should be corrected to 446 acre-feet. The remaining objections have been resolved and the State does not oppose correcting the volume for claim 39E 61277-00.

2. The issue remarks appearing on the claims should be removed.

Post Decree Abstracts of Water Right Claims are attached to this Master's Report for review.
