**SECOND MASTER'S REPORT**

Claim 41K 160263-00 appeared in the Preliminary Decree for the Sun River (Basin 41K) and Seth Woodhouse filed an objection to the claim stating that the reservoir record appeared to be incorrect. The objection did not state what the reservoir record should be modified to. Ultimately, a Master's Report was issued on May 6, 2024, Mr. Woodhouse objected to the Report, and the case was remanded back to this Master.

A filing deadline was set for Mr. Woodhouse to file documentation regarding the volume and capacity of the reservoir in order to resolve his objection.

The claim was additionally decreed with the following issue remarks:

THE CLAIMANT DID NOT IDENTIFY THE PERIOD OF DIVERSION FOR THIS RIGHT. A PERIOD OF DIVERSION HAS BEEN ADDED TO MATCH THE PERIOD OF USE. IF NO OBJECTIONS ARE RECEIVED TO THE PERIOD OF DIVERSION OR PERIOD OF USE, THOSE ELEMENTS WILL BE DECREED AS SHOWN ON THIS ABSTRACT AND THIS ISSUE REMARK WILL BE REMOVED FROM THIS CLAIM.

CLAIMED VOLUME EXCEEDS CAPACITY OF RESERVOIR PLUS EVAPORATIVE LOSSES. THE CLAIMED VOLUME CAN BE CONTESTED BY PROPER OBJECTION. IF NO OBJECTIONS ARE FILED TO THIS CLAIM THE VOLUME WILL BE DECREED AS CLAIMED, AND THIS REMARK WILL BE REMOVED FROM THE CLAIM.

### **FINDINGS OF FACT**

1. Seth Woodhouse filed documentation stating that he had worked with the Havre DNRC to calculate the reservoir capacity for his claim. The filing states that the reservoir record should be described as follows:

**Dam Height: 28 ft**

**Depth: 25 ft**

**Surface area: 5.7 acres**

**Capacity: 57 acre-feet**

2. No objections were received to period of diversion, period of use, or volume. The issue remarks on the claim do not require additional proceedings to resolve and should be removed from the claim pursuant to the language of the remarks.

### **PRINCIPLES OF LAW**

1. The Montana Water Court has the authority to determine the extent of all water rights in the state as they existed prior to July 1, 1973. *Fellows v. Saylor*, 2016 MT 45, ¶¶ 25, 382 Mont. 298, 367 P.3d 732; §§ 85-2-233, -102(13), MCA.

2. A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content. § 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R. A preponderance of the evidence is evidence that shows a fact is “more probable than not.” *Hohenlohe v. State*, 2010 MT 203, ¶¶ 33, 357 Mont. 438, 240 P.3d 628.

3. The party seeking to overcome the prima facie status of a Statement of Claim bears the burden of proof; this burden also applies to a claimant's objection to his own claim. *Nelson v. Brooks*, 2014 MT 120, ¶¶ 34, 37, 375 Mont. 86, 329 P.3d 558.

### **CONCLUSIONS OF LAW**

1. The prima facie status of the reservoir record has been overcome by documentation supplied by the claimant.
2. The notice type issue remarks on the claim have served their purpose and should be removed from the claim.

### **RECOMMENDATIONS**

1. The reservoir record should be modified as described in Finding of Fact #1.
2. The objection should be dismissed pursuant to the modification of the reservoir record.
3. The issue remarks should be removed from the claim.

A Post Decree Abstract of Water Right Claim is attached to this Master's Report for review.
