**ORDER AMENDING CLAIMS**

In 1969, the Montana Legislature authorized the Montana Fish and Game Commission (“Commission”) to acquire unappropriated water on twelve enumerated streams to provide instream flows to preserve fish and wildlife habitat. Ch. 345, L. 1969.<sup>1</sup> Rights designated under this legislation are commonly known as “Murphy rights,” named for Rep. James E. Murphy, the legislation’s sponsor. Among the twelve streams is the segment of Rock Creek from its confluence with the Clark Fork River in Missoula County upstream to the confluence of its east and west forks in Granite County.

---

<sup>1</sup> The Murphy right statute amended § 89-801, R.C.M. (1947), and expressly recognized the Commission’s authority to appropriate instream flows for fish and wildlife protection. Although the Murphy rights statute was repealed in 1973 with the passage of the Water Use Act, by that time the Commission had filed the notices of appropriation.

The Commission was the predecessor agency to the Montana Department of Fish, Wildlife and Parks (“FWP”). In December 1970, the Commission filed notices of appropriation in Granite County and Missoula County to secure the Rock Creek rights. The filings divided Rock Creek into two segments – one upstream and one downstream from Ranch Creek’s confluence with Rock Creek. Within each stream segment FWP then filed separate claims for different time blocks, with different flow rates depending on the time of year.<sup>2</sup>

After the Legislature passed the Water Use Act, FWP filed statements of claim for the previously filed rights. As part of the statement of claim process, FWP refined the flows by reducing them for certain time blocks “to more accurately define the flows that are needed to maintain the high quality trout fishery” in Rock Creek. (41E 133209 claim file, p. 18). The flow rates are not uniform for the entire year, but instead either step up or step down on dates identified in the statements of claim.

Rock Creek and its tributaries drain the hydrologic basin referred to in Water Court parlance as Basin 76E. In 1984, the Water Court issued a Temporary Preliminary Decree (“TPD”) for Basin 76E. For reasons that are not entirely clear, the Department of Natural Resources and Conservation (“DNRC”) adjusted the start and end dates for the various period of diversion and period of use segments in the TPD abstracts. Additional adjustments to the periods were made in the Basin 76E Preliminary Decree, which the Water Court issued on May 10, 2018.

The Preliminary Decree abstracts did not receive any issue remarks, nor did they receive objections. However, at some point FWP evidently discovered discrepancies between the decreed periods of diversion and use and what FWP included in the statements of claim. On October 22, 2024, FWP filed a verified motion to amend the claims. The motion seeks to restore the periods of diversion and use to what FWP identified during the claim filing period. The following table shows the discrepancies and FWP’s request:

76E 133210-00	July 1 to July 15	June 30 to July 15	July 1 to July 15
76E 133218-00	July 1 to July 15	June 30 to July 15	July 1 to July 15
76E 133209-00	July 16 to April 30	July 15 to April 30	July 16 to April 30
76E 133219-00	July 16 to April 30	July 15 to April 30	July 16 to April 30

Motions to amend are governed by Section 85-2-233(6), MCA, and Rule 10, W.R.Adj.R. Rule 10, W.R.Adj.R., requires that the motion to amend specify the requested amendment and the grounds for the amendment. FWP’s motion meets these requirements. The amendments restore the periods of use and diversion to what FWP originally claimed. The amendments do not adversely affect other water rights because they do no more than provide a proper sequencing of flows that match the supporting information FWP originally filed. Moreover, the amendments avoid the situation under the decree version where the start or end dates of certain claims overlap with others. The corrections are essentially clerical in nature. Notice by publication of this amendment is not required. Section 85-2-233(6), MCA.

In approving these amendments, the Court makes a clarification to claims 76E 133209-00 and 76E 133219-00. FWP’s motion asks that the periods of use and diversion span the period from July 16 to April 30. This creates some confusion because the proposed periods span portions of more than one calendar year, contrary to the definitions of these terms used by the Water Court. *See* Rule 2(a)(50) & (51), W.R.C.E.R. incorporated by Rule 2(b), W.R.Adj.R. (defining terms). To achieve the same result

---

<sup>3</sup> For each set of claims, the first claim is for the segment below the Ranch Creek confluence and the second claim is the segment above Ranch Creek.

within the context of the definitions, the abstracts for these claims identify the periods of use and diversion as January 1 to April 30, and July 16 to December 31 for each calendar year.

Although general notice is not required, FWP's motion did not indicate service on the Confederated Salish and Kootenai Tribes ("CSKT"), which co-owns the claims. The Court required that FWP provide evidence of CSKT consent, which it now has done.

**ORDER**

Therefore, it is ORDERED that FWP's motion to amend is GRANTED. The claims are modified to reflect the period of diversion and use dates contained in the motion and set forth in this Order.

Post decree abstracts of the claims are included with this Order to confirm the modifications have been made to the State's centralized water rights record system.
