MASTER'S REPORT

Statement of the case

Reed Montana Holdings LLC filed a notice of intent to appear for claim 41F 138553-00. **Reed Montana Holdings LLC may object to this Master's Report if it does not agree with the recommended resolution of the issue remarks.**

The captioned claims appeared in the Preliminary Decree with issue remarks. Issue remarks result from Department of Natural Resources and Conservation ("DNRC") claims examination. If claims examination cannot confirm some aspect of a claim, an issue remark is added to the claim. Issue remarks may also provide notice to water users concerning a claim.

All Captioned Claims Except 41F 30071373 and 41F 30071439

L. GIBBS FILED A LATE OBJECTION AND MULTIPLE PARTIES FILED A STIPULATION WHICH HAS BEEN DOCKETED AS A LATE OBJECTION TO THE POINT OF DIVERSION OF THIS CLAIM. THESE LATE OBJECTIONS WILL BE HEARD AFTER PROPER NOTICE IN THE NEXT OBJECTION LIST.

DITCH NAME WAS MODIFIED AS A RESULT OF DNRC REVIEW UNDER MONTANA WATER COURT REEXAMINATION ORDERS. IF NO OBJECTIONS ARE FILED TO THIS CLAIM, THESE

ELEMENTS WILL REMAIN AS THEY APPEAR ON THIS ABSTRACT AND THE REMARK WILL BE REMOVED FROM THE CLAIM.

Claims 41F 30071373 and 41F 30071439

L. GIBBS FILED A LATE OBJECTION AND MULTIPLE PARTIES FILED A STIPULATION WHICH HAS BEEN DOCKETED AS A LATE OBJECTION TO THE POINT OF DIVERSION OF THIS CLAIM. THESE LATE OBJECTIONS WILL BE HEARD AFTER PROPER NOTICE IN THE NEXT OBJECTION LIST.

Montana law requires the Water Court to resolve notices of intent to appear and issue remarks.

Issue

Are the issue remarks resolved?

Findings of fact

1. The historically accurate point of diversion for each captioned claim should be modified to include the NWNENW of Section 13, Township 4 South, Range 2 West, Madison County.
2. No one objected to the ditch names for each claim.

Principles of law

1. A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content. Section 85-2-227, MCA. Prima facie proof may be overcome by other evidence that proves, by a preponderance of the evidence, that an element of the prima facie claim is incorrect. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R. A preponderance of the evidence is a “modest standard” and is evidence that demonstrates the fact to be proved is “more probable than not.” *Hohenlohe v. State*, 2010 MT 203, ¶ 33, 357 Mont. 348, 240 P.3d 628.

2. The Montana Water Court is permitted to use information submitted by the Department of Natural Resources and Conservation, the statement of claim, information from approved compacts, and any other data obtained by the Court to evaluate water right claims. Section 85-2-231(2), MCA.

3. When resolving issue remarks, the Montana Water Court must weigh the information resulting in the issue remark and the issue remark against the claimed water right. Section 85-2-247(2), MCA.

4. The Montana Water Court has the authority to resolve issue remarks when the claim file and information available to the Court provide a sufficient basis to do so. Section 85-2-248(3), MCA.

Analysis

Issue 1 - Issue remark resolution

The claims in this case were split from irrigation claims 41F 138553-00, 41F 138554-00, 41F 138555-00, and 41F 138556-00. A predecessor in interest to the captioned claimants stipulated to the same modified point of diversion for these four irrigation claims utilized by water users in Shining Mountains West Subdivision. The stipulation slightly modified the legal land description for the two points of diversion identified by the Temporary Preliminary Decree abstracts and added a third point of diversion and information remarks concerning the third point of diversion.

During Temporary Preliminary Decree proceedings, the Water Court adopted the stipulated point of diversion modifications in their entirety for claim 41F 138554-00. Later, during proceedings for a case certified from the district court to the Water Court, the Water Court partially adopted the stipulated point of diversion modifications for irrigation claims 41F 138553-00, 41F 138555-00, and 41F 138556-00, slightly modifying the two points of diversion already identified by claims 41F 138553-00, 41F 138555-00, and 41F 138556-00 and the split claims created from these claims and adding the stipulated third point of diversion and information remarks concerning the third point of diversion to the split claims created from claim 41F 138554-00, but did not add the stipulated third point of diversion or stipulated information remarks concerning the third point of diversion to irrigation claims 41F 138553-00, 41F 138555-00, and 41F 138556-00 or to the split claims created from claims 41F 138553-00, 41F 138555-00, and 41F 138556-00 during the certification case. (*See Shining Mountains West, et al v. Lawrence*

Gibbs, Case 41F-68 at p. 2-3, (MT Water Court Master's Report Apr. 19, 1999); *See 178 Bald Eagle..., et al Shining Mountains West Subdivision*, Case WC-2007-02 at p. 4-6, (MT Water Court Order Creating Split Claims and Final Response to District Court Certification Jan. 9, 2015.)) The Water Court added a notice issue remark concerning the stipulated third point of diversion, deeming it a late objection to irrigation claims 41F 138553-00, 41F 138555-00, and 41F 138556-00. The split claims created for each lot owner from claims 41F 138553-00, 41F 138555-00, and 41F 138556-00 also received the notice issue remark concerning the stipulated third point of diversion, including the split claims created from claims 41F 138553-00, 41F 138555-00, and 41F 138556-00 in this case.

The point of diversion for the captioned claims should be modified to implement the stipulated agreement of the claimants' predecessor in interest and to reflect the same stipulated modified point of diversion already adopted as historically accurate by the court for parent claim 41F 138554-00 and the split claims created from parent claim 41F 138554-00 for Shining Mountains West Subdivision.

The ditch name issue remark on each captioned claim, except claims 41F 30071373 ad 41F 30071439, instructed claimants and other water users that if no objections were filed to the modification, the ditch names would remain as they appear on the Preliminary Decree abstracts. No one objected to the ditch names for the claims.

Conclusions of law

The court previously adjudicated the stipulated point of diversion finding the stipulated point of diversion to be historically accurate. The point of diversion for the captioned claims should reflect the point of diversion stipulated to by claimants' predecessor in interest.

The late objection to point of diversion issue remark and ditch name issue remark served their notice purpose.

Recommendations
