### **MASTER'S REPORT**

The above-captioned claims appeared in the Interlocutory Decree for the Little Bighorn River (Basin 43O) with Montana Department of Natural Resources and Conservation issue remarks. The United States of America Bureau of Indian Affairs ("United States") objected to each claim. Sunlight Ranch Co. ("Sunlight") objected to claim 43O 30145706. The claims did not receive any counterobjections or notices of intent to appear. Erin Graham, Todd Graham, Gary Graham Living Trust, Delphine Graham, and the Allen & Susan Graham Living Trust (collectively "Graham Family") own the claims. The claims are located in or around the Crow Indian Reservation. The claims were consolidated and reconsolidated into Water Court Case 43O-0019-I-2024 to resolve the issue remarks and objections.

### **FINDINGS OF FACT**

1. On January 22, 2025, the Graham Family, the United States, and Sunlight filed a Stipulation to resolve the United States and Sunlight's objections and the substantive issue remarks placed on the claims. (Doc.<sup>1</sup> 6.00). The findings below outline their agreement.

2. The United States objected to the priority date and type of historical right for claims 43O 30145620, 43O 30145624, 43O 30145625, 43O 30145627, 43O 30145630, 43O 30145635, 43O 30145637, 43O 30145640, 43O 30145667, 43O 30145669, 43O 30145672, 43O 30145675, 43O 30145677, 43O 30145679, 43O 30145681, 43O 30145684, 43O 30145686, 43O 30145688, 43O 30145690, 43O 30145697, 43O 30145699, 43O 30145704, 43O 30145708, 43O 30145713. Each claim has a claimed priority date of December 31, 1927, and type of historical right as "use."

---

<sup>1</sup> Doc." Numerical references correlate to case file docket numbers in the Water Court's Full Court case management system.

The Graham Family and the United States agree that the claims are *Walton* rights, as the lands comprising the place of use for these claims were formerly lands allotted to individual members of the Crow Tribe and left trust status at various times after 1927.

3. The United States objected to the ownership of claims 43O 30145667 and 43O 30145688, asserting that the claimed place of use is land held in trust by the Bureau of Indian Affairs and not owned by the Graham Family.

a. The United States withdraws its objection to claim 43O 30145667 as further review shows none of the claimed place of use or point of diversion is held in trust.

b. The Graham Family agrees to withdraw place of use ID No. 2 from claim 43O 30145688, as it is entirely on land held in trust by the United States and part of the Crow Tribe's water right under the Crow Tribe-Montana-United States Compact, § 85-20-901, MCA.

4. Claim 43O 30145706 received objections from the United States and Sunlight because no type of historical right or priority date were claimed. The claim received the following issue remarks reporting the same issue:

AN AMENDMENT WAS SUBMITTED ON 03/01/2023 REQUESTING TO AMEND THE PLACE OF USE. THE AMENDMENT WAS NOT PROCESSED. THE AMENDMENT WILL BE REVIEWED BY THE COURT AFTER THE ISSUANCE OF THE INTERLOCUTORY DECREE.

NO PRIORITY DATE WAS CLAIMED. NO TYPE OF HISTORICAL RIGHT WAS CLAIMED. DOCUMENTATION TO SUPPORT THE TYPE OF HISTORICAL RIGHT WAS NOT SUBMITTED WITH THIS CLAIM.

The Graham Family, the United States, and Sunlight agree the claim is a *Walton* right, as the lands comprising the place of use were lands formerly allotted to individual members of the Crow Tribe and left trust status at various times after 1927.

5. Claim 43O 30145679 received the following issue remark:

A PORTION OF THE CLAIMED POINT OF DIVERSION AND PLACE OF USE DOES NOT MEET THE DEFINITION OF AN EXEMPT RIGHT UNDER 85-2-222, MCA, AND INVOLVES AN ON-STREAM RESERVOIR.

The parties agree that the reservoir mentioned in the issue remark is entirely excluded from the claimed point of diversion and place of use. They report the reservoir is located in the SENWSW of Section 36, T8S, R33E, which is not part of the claimed point of diversion or place of use of the right. The parties agree that the issue remark should be considered resolved.

6. The United States also objected to the Place of Use/Maximum Acres for claim 43O 3014566. The United States reports it inadvertently objected on this basis and withdraws this basis of its objection.

7. Based on the findings above, the parties agree in the Stipulation that each claim in this case is a *Walton* right and should be modified as follows:

<b>Priority Date:</b>	MAY 7, 1868
<b>Type of Historical Right:</b>	RESERVED
	THIS WATER RIGHT IS A WALTON RIGHT.
	THIS WATER RIGHT IS NOT PART OF THE TRIBAL WATER RIGHT AS DEFINED IN THE CROW COMPACT.

8. The parties state that upon approval of the Stipulation by the Water Court, the United States and Sunlight Ranch Co.'s objections are resolved.

9. The Water Court reviewed the Stipulation and found that it was insufficient as it failed to establish when the underlying lands were transferred to trust to fee "were put to beneficial use with reasonable diligence following the time the titles to the associated properties were transferred from trust to fee." In the Stipulation, the parties generalized that each claim left trust status sometime after 1927. The Water Court set a deadline to file additional evidence to establish when the claims left trust status and are indeed *Walton* rights. (Doc. 7.00).

10. On April 29, 2025, Delphine Graham and the Gary J. Graham Living Trust ("Trust") filed additional historical evidence to support that the claims are *Walton* rights. The Court presumes that Ms. Graham and the Trust filed this evidence on behalf of the entire Graham Family. (Doc. 10.00).

For each claim, the Graham Family provided the date the underlying lands of each water right were allotted to members of the Crow Tribe, and the date the lands were transferred out of trust status to a non-Indian purchaser if the fee patent was discoverable. The Graham Family also provided maps identifying the place of use of the water rights claims from the DNRC's Water Right Query System. The Graham Family could not provide the date of the fee patent transferring the claims from trust to fee for a handful of the claims.

11. The United States and Sunlight did not respond to the Graham Family's additional evidence. The Court assumes they do not oppose the evidence provided.

12. Finally, each claim received the following notice-type issue remark that has served its purpose of providing notice on the objection list:

THIS CLAIM NUMBER WAS NOT INCLUDED IN THE BASIN 430 DECEE  
ISSUED 03/25/2010.

#### CONCLUSIONS OF LAW

1. The Montana Water Court has the authority to determine the extent of all water rights in the state as they existed prior to July 1, 1973. *Fellows v. Saylor*, 2016 MT 45, ¶ 25, 382 Mont. 298.

2. A properly filed claim of an existing right or an amended claim of existing right is prima facie proof of its content. § 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R.

3. The degree or weight of evidence needed to contradict or overcome the prima facie proof statute is a preponderance of the evidence. *Burkhartsmeier et al. v. Burkhardtmeier et al.*, Case 40G-2, (MT Water Court Memorandum Opinion and Order Adopting Master's Report, Mar. 11, 1997). The Montana Supreme Court has defined preponderance as "a relatively modest standard that the statutory criteria are 'more probable than not' to have been met." *Hohenlohe v. State*, 2010 MT 203 ¶ 33, 357 Mont. 438, 240 P.3d 628.

4. The Montana Water Court is permitted to use information submitted by the Department of Natural Resources and Conservation, the statement of claim, information from approved compacts, and any other data obtained by the Court to evaluate water right claims. Section 85-2-231(2), MCA.

5. The Water Court is not bound by settlement agreements. Settlement agreements are subject to review and approval of the Water Court. Rule 17, W.R.Adj.R.

Where a settlement seeks to enlarge or expand an element of a claim, the documentation supporting the settlement must include sufficient evidence to meet the burden of proof. Rule 17(b), W.R.Adj.R.

6. A *Walton* right is a reserved water right of a Tribal allottee that has been transferred to a non-Indian purchaser. *Colville Confederated Tribes v. Walton*, 647 F.2d 42 (9th Cir. 1981) (“*Walton I*”); *Colville Confederated Tribes v. Walton*, 752 F.2d 397 (9th Cir. 1985) (“*Walton II*”).

7. Because the Graham Family provided the allotment date for all of the underlying lands associated with each water right claim – and in many instances provided the fee patent transferring the land from trust status - and the members of the Graham Family are non-Indian owners, the reasonable conclusion is that all the claims have left trust status and were put to beneficial use with reasonable diligence following the transfer from trust to fee.

8. The Stipulation should be approved. The evidence provided with the Stipulation, when considered with the evidence provided in the Graham Family’s response, proves the claims are *Walton* rights and should receive the appropriate modifications to represent the claims’ *Walton* status. The remaining modifications to the claims agreed upon by the parties are reductions that require no further presentation of evidence.

9. The Stipulation resolves objections in this case.

10. The notice-type issue remarks have served their purpose and should be removed from the claims.

### RECOMMENDATIONS

Based upon the Findings of Fact and Conclusions of Law, this Master recommends the Court make the following modifications in this case:

1. Modify each claim as follows to reflect *Walton* status:

Priority Date: MAY 7, 1868

Type of Historical Right: RESERVED

THIS WATER RIGHT IS A WALTON RIGHT.

THIS WATER RIGHT IS NOT PART OF THE TRIBAL WATER RIGHT AS DEFINED IN THE CROW COMPACT.

2. Remove place of use ID No. 2 from claim 43O 30145688.
3. Remove the issue remarks on the claims.

Post Decree Abstracts of Water Right Claim are served with this Master's Report to confirm the recommendations have been made in the DNRC's water right database.
