**MASTER'S REPORT**

Water right claims 41H 110313-00, 41H 30007159, and 41H 30007160 appeared in the appeared in the Preliminary Decree for Basin 41H with Montana Department of

Natural Resources and Conservation (DNRC) issue remarks. The claims received objections from Claimant Sharon Lodge and a Notice of Intent to Appear from Blackwood Dry Creek LP. To address the issue remarks and the objections, the Water Court consolidated the claim into Water Court Case 41H-0126-R-2024.

### FINDINGS OF FACT

1. On March 24, 2025, Claimant submitted a Proposed Resolution of Objections.<sup>1</sup> On March 27, 2025, NOIA stated that it agrees with the proposal apart from a typographical error.

2. Claim 41H 110313-00 received a DNRC issue remark stating that it appears to duplicate Groundwater Certificate 41H 40857-00. Claimant agrees and states 41H 110313-00 should be dismissed.

2. Claimant states the point of diversion for claim 41H 30007159 is more accurately described as SESWNW Sec. 19, Twp. 1S, Rge. 5E. Claimant confirms that South Dry Creek is the accurate source and is diverted into the Spain Ferris ditch at this point of diversion.

3. Claim 41H 30007160 has an issue remark stating the flow rate exceeds the DNRC standard of 17 gpm. This claim is a decreed right and therefore DNRC standards do not overcome the prima facie status.

4. Claimant requests no changes be made to claim 41H 30007160.

5. NOIA Blackwood states that its appearance to 41H 30007159 is resolved with these changes.

6. The information provided resolves all issue remarks in this case.

### CONCLUSIONS OF LAW

1. A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content. Section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that an element of the prima facie claim is incorrect. This is the burden of proof for every assertion that a claim is incorrect. Rule 19, W.R.Adj.R.

---

<sup>1</sup> The Proposed Resolution and all other case documents are viewable in the Water Court's FullCourt Enterprise case management system.

2. The degree or weight of evidence needed to contradict or overcome the prima facie proof statute is a preponderance of the evidence. *Burkhartsmeier et al. v. Burkhardtmeier et al.*, Case 40G-2, (MT Water Court Memorandum Opinion and Order Adopting Master’s Report, Mar. 11, 1997). The Montana Supreme Court has defined preponderance as “a relatively modest standard that the statutory criteria are ‘more probable than not’ to have been met.” *Hohenlohe v. State*, 2010 MT 203 ¶ 33, 357 Mont. 438, 240 P.3d 628.

3. The evidence entered into the record is sufficient to resolve the issue remarks on this claim and support making the corrections outlined above.

### RECOMMENDATIONS

Based upon the above Findings of Fact and Conclusions of Law, this Master recommends the Court make the changes specified above to correct the Preliminary Decree for this Basin.

Post Decree Abstracts of Water Right Claim are served with this Report to confirm the recommended corrections have been made in the state’s centralized record system.
