MASTER'S REPORT

Barbara J. Berry stockwater claim 43QJ 45781-00 appeared in the Second Preliminary Decree with the following issue remark:

THE FLOW RATE IS MISSING.

The Montana Department of Natural Resources and Conservation ["DNRC"] reviews water right claims to confirm the historical use of a claim. If the review cannot confirm some aspect of a claim, an issue remark is added to the claim. The issue remark was not addressed through the objection process. The Water Court is required to resolve the issues raised by each issue remark. Section 85-2-248, MCA.

Under Section 85-2-248(3), MCA, information in the claim file or other information obtained by the Court can be reviewed to determine if it provides a sufficient basis to resolve the issue raised by a remark. In this instance, the Statement of Claim provides the needed information. The scanned copy of the Statement of Claim is viewable on the DNRC Water Right Query System at <http://wrqs.dnrc.mt.gov>.

APPLICABLE LAW

"All issue remarks to claims that are not resolved through the filing of an objection as provided in 85-2-233 must be resolved as provided in this section." Section 85-2-248(2), MCA.

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDING OF FACT

The Second Preliminary Decree does not include a flow rate. The flow rate should be 30.00 GPM as specified on the Statement of Claim. The issue remark should be removed as addressed and resolved.

CONCLUSION OF LAW

The information provided on the Statement of Claim is sufficient to resolve the issue remark without evidentiary hearing. Sections 85-2-248(3) and (11), MCA.

RECOMMENDATIONS

Based upon the above Finding of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Finding of Fact to correct the Second Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
