APPLICABLE LAW

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect, including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDING OF FACT

The Second Preliminary Decree states that the place of use legal description is section 31, T1S, R17E, SWEET GRASS. The legal description should be SENESE section 31, T1S, 17E, SWEET GRASS.

CONCLUSION OF LAW

The settlement filed by the parties is sufficient to contradict and overcome the prima facie claim.

RECOMMENDATIONS

Based upon the above Finding of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Finding of Fact to correct the Second Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
