## MASTER'S REPORT

Sunlight Ranch Co. and United States, DOI Bureau of Indian Affairs [“BIA”] objected to each of these claims. Claims 43O 30145513, 43O 30135515, 43O 30145517, and 43O 30145544 have remarks which need to be addressed. Holding Properties LLC filed a notice of intent to appear on claims 43O 30145513, 43O 30145515, and 43O 30145544.

On December 20, 2024, the parties filed their Stipulation [FCE Doc. 6]. On January 17, 2025, the parties filed their second Stipulation [FCE Doc. 9]. On January 21, 2025, an Order Setting Filing Deadline was issued setting a deadline for filing documentation supporting the requested determination that most of the claims should be changed to *Walton* reserved rights. On March 12, 2026, the parties filed their Joint Response To Court Order [FCE Doc. 22]. These documents are viewable in the Court’s FullCourt Enterprise case management system.

### APPLICABLE LAW

The Montana Water Court has jurisdiction over all matters relating to the determination of existing water rights. Section 3-7-224, MCA.

The relationship between Indian reserved rights and the water rights of allottees was addressed in a case originating on the Crow Reservation. In *United States v. Powers*, 305 U.S. 527, 59 S. Ct. 344, 83 L. Ed. 330 (1939), the Court stated that “when allotments of land were duly made for exclusive use and thereafter conveyed in fee, the right to use some portion of tribal waters essential for cultivation passed to the owners.” *Powers*, 305 U.S. at 532. In *United States v. Ahtanum Irrigation District*, the Court held that non-Indian purchasers of allotment lands can “participate rateably [sic]” with Indian allottees in the use of reserved water. *Ahtanum*, 236 F.2d 341, 342 (9th Cir. 1956). Under *Powers*, it “is settled that Indian allottees have a right to use reserved water.” *Colville Confederated Tribes v. Walton*, 647 F.2d 42, 50 (1981) (*Walton II*). Such non-Indian right to use a portion of a tribal reserved water right is commonly called a *Walton* Right.

The non-Indian successor acquires a right to water being appropriated by the Indian allottee at the time title passes. The non-Indian also acquires a right, with a date-of-reservation priority date, to water that he or she appropriates with reasonable diligence after the passage of title. If the full measure of the Indian's reserved water right is not acquired by this means and maintained by continued use, it is lost to the non-Indian successor.

*Walton II*, 647 F.2d at 51.

“All issue remarks to claims that are not resolved through the filing of an objection as provided in 85-2-233 must be resolved as provided in this section.” Section 85-2-248(2), MCA.

The Montana Water Court has jurisdiction to review a motion to amend pursuant to section 85-2-233(6), MCA.

Rule 15 M.R.Civ.P. restricts the scope of the amendments to the conduct, transaction, or occurrence set forth in the original pleading or, in other words, the “same set of operative facts as contained in the original pleading.” *Sooy v. Petrolane Steel Gas, Inc.*, 218 Mont. 418, 422-423 (1985). The requested amendment “merely makes more specific that which has already been alleged.” *Prentice Lumber Company v. Hukill*, 161 Mont. 8, 15 (1972).

“‘Implied Claim’ means a claim authorized by the water court to be separated and individually identified when a statement of claim includes multiple rights.” Rule 2(a)(33), W.R.C.E.R.

From 41P-108 “Circle S Ranch, Inc.” Order On Motion To Modify Claims 5-16-19, at 2019 Mont. Water LEXIS 8, page 5:

The Water Court recognizes implied claims in certain circumstances *In re Musselshell River below Roundup*, Case 40C-47, 1994 Mont. Water LEXIS 18, \*78 (July 14, 1994). However, before the Court will recognize an implied claim, the claimant must prove that several factors exist. These include: (1) proof of two or more water rights in the original claim form or the material submitted with the claim form; (2) proof of historic use corroborating the implied claim; and (3) proof that recognizing the implied claim(s) will avoid causing a change to historic water use or increase the historic burden to other water users. *In re Foss*, Case 76HF-580, 2013 Mont. Water LEXIS 17, \*32 (Jan. 31, 2013); *In re Martinell*, Case 41A-148, 2018 Mont. Water LEXIS 3, \*6 (June 14, 2018). These standards assure that implied claims are not used to revive a claim that was forfeited as a matter of law by missing the filing deadline. Mont. Code Ann. § 85-2-226 (establishing conclusive presumption of abandonment of for claims not timely filed); *In re Climbing Arrow Ranch*, Case 41F-A19, 2019 Mont. Water LEXIS 1 (Mar. 6, 2019). The implied claim process also cannot be used to expand the elements of a statement of claim. *In re Eliasson Ranch Company*, Order Amending and Adopting Master’s Report, Case 40A-115, 2004 Mont. Water LEXIS 2, \*6 (Jun. 28, 2004) (“*Eliasson*”).

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-222, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the

elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect, including for claimants objecting to or amending their own claims. Rule 19, W.R.Adj.R.

#### CONCLUSIONS OF LAW

1. For all the claims in this Case asserted to be *Walton* Rights, the documentary evidence filed by the parties – including the Declaration of Kevin Bradley (Exhibit B, March 12, 2026 Joint Response To Court Order) - meets the requirements for such determination articulated in *Colville Confederated Tribes v. Walton*, 647 F.2d 42, 51 (1981).

2. For the implied claims, the Statements of Claim plus the information provided by the parties is sufficient to generate the requested implied claims.

3. The requested amendments do not adversely affect other water rights as they are modifications or corrections to the abstracts which do not make any changes to the actual historical use of the claimed rights on the ground. Notice by publication of these amendments is not required. Section 85-2-233(6), MCA.

4. Each requested amendment “merely makes more specific that which has already been alleged.” *Prentice Lumber Company v. Hukill*, 161 Mont. 8, 15 (1972).

5. The Information filed by the parties is sufficient to grant the motions to amend, sufficient to contradict and overcome the prima facie claims, and sufficient to resolve the issue remarks without evidentiary hearing. Sections 85-2-248(3) and (11), MCA.

#### RECOMMENDATIONS

Based upon the above Findings of Fact and Conclusions of Law, this Master recommends that the Court generate the implied claims, grant the motions to amend, and make the changes specified in the Findings of Fact to correct the Interlocutory Decree for this Basin. A Post Decree Abstract of Water Right Claim for each claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
