CLOSING ORDER AND ORDER RECONSOLIDATING CLAIMS

The Water Court decreed the claims in this case in the Preliminary Decree for the Missouri River Above Holter Dam (Basin 41I) issued on June 24, 2022. Catlin Ranch LP ("Catlin") owns these claims. Each claim describes a livestock direct from source use or other stock water use. The water sources for the claims are various springs and other tributaries of Sixteen Mile Creek in Meagher County.

The preliminary decree abstracts for each of the claims contain issue remarks. The claims did not receive objections. The Water Use Act requires the Water Court to resolve these potential issues prior to including the claim in a final decree for this basin.

On February 27, 2026, the Court consolidated the above-captioned claims to resolve the remarks. The Court's consolidation order quotes each of the issue remarks and requested a response from Catlin. On July 8, 2026, the Court conducted a consolidated status conference as a result of the expiration of filing deadlines. (Doc. 6.00). The Court ordered Catlin to show cause why each claim in the above-captioned case, along with the other consolidated cases, should not be resolved consistent with the issues identified in the Court's consolidation orders and information in the claim files.

Catlin filed a response on August 10, 2026. (Doc. 7.00). Catlin's response includes the following:

1. **Duplicate claim remarks.** Each of the claims received some form of a duplicate claim or redundant claim remark. Catlin's response agrees that the issue remarks properly identify claims that should be dismissed by the Court. Based on the response, the Court dismisses the following claims: 41I 30136438, 41I 30136444, 41I 30136458, 41I 30136462, 41I 30136464, 41I 30136468, 41I 30136470, 41I 30136614, 41I 30136707, 41I 30136709, 41I 30136711, 41I 30136742, 41I 30136744, and 41I 30136748.

Dismissal of these claims resolves the duplicate claim remarks on claims 41I 30136317, 41I 30136323, 41I 30136435, 41I 30136440, 41I 30136450, 41I 30136456, 41I 30136466, 41I 30136469, 41I 30136708, 41I 30136743, and 41I 30136745.

2. **Flow Rate.** Claim 41I 30136435 was decreed as a stock water right. The claim received a remark stating:

> NO QUANTIFIED FLOW RATE WAS CLAIMED. THE FLOW RATE GUIDELINE FOR THIS PURPOSE IS 35 GPM.

Catlin did not respond to the flow rate remark on this claim, so the claim should be modified to reflect the flow rate guideline.

3. **Prior decree remarks.** Most of the claims received a remark stating the claim was not included in the Basin 41I decree issued on March 8, 1995. These claims were filed under the claim filing extension the Legislature provided for certain water rights previously exempt from filing. The filing post-dated the date of the Basin 41I

Temporary Preliminary Decree. The remark provided basin-wide notice, and no one objected, so the remark may be removed.

4. **Type of right.** Most of the claims received the following type of right remark:

> THE TYPE OF HISTORICAL RIGHT MAY BE QUESTIONABLE. DOCUMENTATION SUBMITTED WITH THE CLAIM INDICATES A USE AND A DECREED RIGHT.

Type of right is an evidentiary issue used to establish the evidentiary basis for the claim. Section 85-2-224(2), MCA. Catlin's response notes that stock water rights rarely were specifically mentioned in old district court decrees. Catlin requests that the type of right be recognized as a use right. Given the lack of any objection, Catlin's response resolves the remark and a use right type is added to each claim that is not dismissed.

5. **Priority date remarks**. Most of the claims received a remark stating the priority date is questionable whether it should be 1881 or 1882. The claim was decreed with a December 31, 1882 priority date, which Catlin accepts so the remark is resolved.

6. **Source.** Most of the claims received a remark questioning the claimed source as inconsistent with what was decreed by the district court in Meagher County case 3731. With the modification to a use right, this remark is moot. The springs and tributaries claimed are prima facie evidence of the source and the remark is resolved.

7. **Reservoir remarks.** Claims 41I 30136450 and 41I 30136456 received the following remark:

> A PORTION OF THE CLAIMED POINT OF DIVERSION AND PLACE OF USE DOES NOT MEET THE DEFINITION OF AN EXEMPT RIGHT UNDER 85-2-222, MCA, AND INVOLVES AN ON-STREAM RESERVOIR.

Catlin's response does not contain information necessary to resolve this remark. The Court reconsolidates these claims into a new case with other claims from other cases to address this remark.

8. **Additional remarks.** Claims 41I 30136450, 41I 30136456, 41I 30136743 and 41I 30136745 received several substantive issue remarks. Catlin's response does not

contain information necessary to resolve the substantive remarks on these claims. The Court reconsolidates these claims into a new case with other claims from other cases to address this remark.

ORDER

Therefore, it is ORDERED that:

1. Claims 41I 30136438, 41I 30136444, 41I 30136458, 41I 30136462, 41I 30136464, 41I 30136468, 41I 30136470, 41I 30136614, 41I 30136707, 41I 30136709, 41I 30136711, 41I 30136742, 41I 30136744, and 41I 30136748 are DISMISSED;

3. Claims 41I 30136450, 41I 30136456, 41I 30136743, and 41I 30136745 are removed from the caption and RECONSOLIDATED into case 41I-0765-R-2026 and will be addressed in separate orders in that case.

4. Claims 41I 30136317, 41I 30136323, 41I 30136435, 41I 30136438, 41I 30136440, 41I 30136444, 41I 30136458, 41I 30136462, 41I 30136464, 41I 30136466, 41I 30136468, 41I 30136469, 41I 30136470, 41I 30136614, 41I 30136707, 41I 30136708, 41I 30136709, 41I 30136711, 41I 30136742, 41I 30136744, and 41I 30136748, and this case are CLOSED.

Post decree abstracts of each of the closed claims are included with this Order to confirm the modifications have been made in the State's centralized water rights record system.
