MONTANA WATER COURT
CLARK FORK DIVISION
CLARK FORK RIVER BELOW THE FLATHEAD RIVER
BASIN 76N
PRELIMINARY DECREE

CLAIMANTS: Montana Dept. of Fish Wildlife & Parks; SPP
Montana LLC; Green Diamond Montana
Timberlands, LLC

OBJECTOR: Green Diamond Resource Co.; Green Diamond
Montana Timberlands, LLC

CASE 76N-0062-R-2025

76N 116355-00

76N 116359-00

76N 116362-00

76N 116381-00

76N 116382-00

76N 116396-00

ORDER APPROVING STIPULATION AND CLOSING CASE

Green Diamond Resource Co. and Green Diamond Montana Timberlands, LLC (collectively “Green Diamond”) and the Montana Department of Fish, Wildlife and Parks (“FWP”) seek approval of a Stipulation and Agreement (“Stipulation”) for the claims consolidated in this case. For the reasons set forth in this Order, the Court approves the Stipulation and closes the case.

BACKGROUND

1. The Water Court decreed each of the claims in this case in the Preliminary Decree for the Clark Fork River Below the Flathead River Basin (Basin 76N) issued on September 21, 2023. The claims are for fire protection and industrial use in the Thompson River area of Sanders and Lincoln Counties.

2. None of the claims received issue remarks.

3. FWP is identified as a co-owner of each of the claims. SPP Montana LLC (“SPP”) also is identified as a co-owner of claim 76N 116381-00.

4. Green Diamond objected to each of the claims based on ownership.

5. No one filed counterobjections.

6. Pursuant to Rule 9, W.R.Adj.R., the Court provided notice of the issue remarks and objections by providing an objection list for this basin. No parties filed notices of intent to appear based on the objection list.

7. The Court consolidated the claims into this case to resolve the objections.

8. On September 9, 2026, the parties filed the Stipulation with the Court to resolve the objections. The Stipulation provides the conditions under which FWP withdraws its interest in claims 76N 116359-00, 76N 116362-00, 76N 116382-00, and 76N 116396-00. The Stipulation does not call for FWP to withdraw its interest in claims 76N 116355-00 or 76N 116381-00. The Stipulation also does not call for SPP to be removed as a co-owner of claim 76N 116381-00.

9. Prior to the Preliminary Decree, the Court issued a Temporary Preliminary Decree (“TPD”) for Basin 76N on February 28, 1984. Following TPD, several of the claims in this case received objections from the United States Department of Agriculture, Forest Service (“United States”). The Court consolidated the claims in case no. 76N-10. To resolve the objections the Forest Service and Green Diamond’s predecessor in interest entered into a stipulation with the United States. The Court accepted this stipulation in a Master’s Report, as amended. Reference to this stipulation is noted on the abstracts for the following claims in this case:

76N 116359-00

76N 116382-00

76N 116381-00

76N 116396-00

10. The Stipulation in this case does not seek removal of the information remark from case 76N-10 referencing the stipulation with the United States.

11. Claim 76N 116359-00 includes a place of use information remark that states:

THE PLACE OF USE IS PLACES OF USE ARE ON CHAMPION
INTERNATIONAL CORP. LAND AS INDICATED BY MAP IN FILE.

DISCUSSION AND CONCLUSIONS

A. Standard for Approval.

Settlement stipulations are contracts setting the terms by which parties agree to resolve objections. A settlement stipulation may include a claimant's legally binding commitment to modify claims to resolve objections and issue remarks and an objector's agreement to withdraw objections conditioned upon the Court's acceptance of the claim modifications. In determining whether to accept claim modifications proposed in the stipulation, the Court applies Rule 17, W.R.Adj.R. Under Rule 17(a), settlement stipulations are subject to Water Court review and approval when they resolve issues within the Court's jurisdiction. *See also* § 85-2-233(5)(b), MCA.

B. Application of Standard.

The Stipulation filed in this case meets all the terms necessary for Court approval. The Stipulation does not expand any element of any claim and does not require additional notice beyond what already was provided in the Basin 76N objection list. FWP's withdrawal of its interest in claims was made voluntarily. The Stipulation does not seek modification of the prior stipulation with the United States for certain claims, so the information remark referencing that stipulation from case 76N-10 will remain on the claims and a component of the Court's adjudication of the claims. *See In re Water Comm'r to Measure & Distribute Water on Beaver Creek Within Basin 41I*, 2026 MT 16, ¶ 28, 426 Mont. 184, 583 P.3d 938 (“[a] stipulation approved by a court and incorporated into a decree is binding on the parties and on court officers charged with administering the decree”).

The Stipulation does not directly address SPP's co-ownership interest in claim 76N 116381-00, nor was SPP a party to the Stipulation. As Green Diamond is withdrawing all its objections and there are no issue remarks relating to SPP, the Court closes this claim with SPP remaining as a co-owner. To the extent the parties desire to split the claim or otherwise update ownership, they may do so with the Department of Natural Resources and Conservation Kalispell Regional Office. Section 85-2-424, MCA.

Finally, although not specifically addressed in the Stipulation, the elimination of FWP's ownership interest in claim 76N 116359-00 also eliminates the need for the place

of use information remark that references lands owned by a predecessor in interest (Champion International Corp.). The remark is garbled as written and is not necessary to “fully define the nature and extent of the right,” which is the usual basis for a narrative information remark. Section 85-2-234(6)(i), MCA.

ORDER

Therefore, it is ORDERED:

1. The Stipulation is APPROVED.
2. Claims 76N 116355-00, 76N 116359-00, 76N 116362-00, 76N 116382-00, and 76N 116396-00 are modified as provided in this Order.
3. All objections are DISMISSED as resolved.
4. The claims and this case are CLOSED.

Post-decree abstracts of the claims are included with this Order to confirm the modifications to the claim have been made in the State’s centralized water rights record system.
