Implementing case processing measures requires significant clean-up in the District Court case management system. The Clerks of District Court throughout the 56 counties are working diligently to update cases in compliance with the District Court Uniform Caseload Filing Standards. The case clearance and on-time case processing rates in this report reflect this on-going clean-up work. However, until the work is completed, it is not possible to report on the age of active cases, which is a case processing measure indicating whether active (open) cases are within established timeframes.
