

2/2/21

Version 7.2.1

Clerk Comments now display on Judge Review Queue listing

Clerk Comments now display in the right-hand column of the Review Queue listings. Previously, any clerk comments were not available until the item in the queue was selected for processing.

Internal Comments (notes) can be added from the Judge Review Queue listing.

The Internal Comment icon is now available from the Judge Review Queue listing. Notes can be added/viewed without having to open the item for processing. Click on the icon and add notes as desired. Notes are available for reading by hovering over the icon.

Judge can specify which page to sign

A judge can now specify a page on which to place the electronic signature if it is not desired to be on the last page. A new field is available "Electronically sign specific page" in which to specify a page number. If no page number is specified, the electronic signature will appear on the last page, as usual.
