## “Subject to Change”

Two phrases I've stressed so heavily.... unfortunately, for good reason!

While Covid-19 has changed our everyday lives, so has it changed our work lives, but even amid the chaos of this pandemic and changing work environments, I'm happy to say we are still moving forward, completing FullCourt Enterprise implementations.

Because of increasing cases and travel restrictions, we were forced to “delay” confirmed onsite implementations of FCE throughout the summer. As soon as we can resume onsite installs, priority will be given to those courts that were sadly delayed.

In the meantime, FCE implementations have taken on a different look and feel as we have been working court conversions entirely remotely.

The previously published “Implementation Sequence” is no longer viable in this changing landscape so we are pivoting focus to smaller court installs that can be completely managed via remote training and implementation plans.

As we continue to move forward, the OCA will reach out to determine a court's level of interest in participating in the remote training and conversion.
