Ted Doney, Dept. of Natural Resources testified briefly this morning, stating roughly as follows: I apologize, our department wrote this, and messed it up. We have funds for this year, but there's a possibility of getting additional funds to increase that over the authorized level. So, we want the resolution to ask Carter to support the supplemental funds for this year. Then, next year they are recommending a sharp decrease, and this addresses that. Senator Brown is going to do the same thing.
