"11-1925. Pensions to retired firemen. (1) Each and every fire department relief association organized and existing under the laws of this state shall pay to each of its members who elect to retire from active service after having completed twenty (20) years or more of active duty and has reached the age of fifty (50) years as a fully paid member of a paid or partly paid and partly volunteer fire department of the city or town wherein such association has been formed, out of any money in the association's "disability and pension fund," a "service pension" in an amount which shall be equal to one-half (1/2) of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of said fire department.

(2) However, effective July 1, 1974, and after an active member has completed twenty (20) years of service the pension of the member who serves or has served and additional one (1) to ten (10) years shall be increased at the rate of one per cent (1%) per year for each additional year of service completed, up to a maximum of sixty per cent (60%) of the last month's salary received as a monthly compensation for his services as an active member of said fire department; provided that no member shall be eligible to receive a service pension prior to attain-
