

MINUTES OF THE MEETING
LOCAL GOVERNMENT COMMITTEE
MONTANA STATE SENATE

January 23, 1979

The meeting of the Local Government Committee was called to order by Chairman, Senator George McCallum on Tuesday, January 23, 1979 at 1:35 in Room 405 of the State Capitol Building.

ROLL CALL: All members were present with the exception of Senator Peterson, who was excused.

Several people were in attendance at the meeting. (See attachment.)

CONSIDERATION OF SENATE BILL 106: Senator Bob Brown of Senate District 10, sponsor of the Senate Bill 106, gave a brief resume of the bill. This bill is an act providing salary increases for probation officers and a minimum salary for deputy probation officers. The probation officers have not had any wage increases since 1974. Senator Brown then introduced Glen Hufstetler of Kalispell, representing the Probation Officers and Youth Courts. Mr. Hufstetler stated that there are 63 probation officers in the state of Montana. When these officers have finished their training, 40% of them will hold a master's degree. These officers have participated in several programs to help the victims of crimes. These probation officers have not even had a cost of living raise. Mr. Hufstetler spoke in favor of the bill.

Mr. Jerry Johnson of Missoula, representing the Montana Youth Court Probation Officers, spoke in favor of SB 106. He offered a written statement. Mr. Johnson asked for fair wages to the members of his organization. Mr. Johnson then introduced several probation officers from around the state: John Foster, District 10; C. F. Dooley, 9th Judicial District; W. E. Lumpkin, 15th Judicial District; Gary Loskesky, 3rd probation District; and Dick Meeker, 1st Judicial District.

Senator McCallum then asked if there were any opponents to Senate Bill 106.

Mr. Dean Zinnecker representing the Montana Association of Counties spoke in opposition to the bill. Mr. Zinnecker stated that he did not agree with the Legislature setting the salaries and having the budget authority. He stated that MAC felt that it should be done on the local level.

Senator Brown made the closing remarks. He stated that in the judicial districts, there is more than one county involved, so it is hard to set the salaries, therefore, he felt it was better to have the Legislature set the salaries. He also stated that with the cost of living increase that a raise would be in order.

Chairman McCallum then opened the meeting to a question and answer period from the committee. Discussion was held, however, no action was taken at that time.

CONSIDERATION OF SENATE BILL 135: Senator Lloyd Lockrem, co-sponsor of the bill, of Senate District 32 gave a brief resume of the bill. This bill is an act to provide improved funding for construction and reconstruction of rural and urban streets and roads; deleting authorization for certain funding of maintenance and repair of such roads. Senator Lockrem highlighted the changes in the codes that would come about if the bill would pass. Senator Lockrem used the city of Billings as an example and what would be possible if the Coal Severance Tax was available for roads and streets. He handed out a statement regarding the allocation of coal tax revenues. (See attachment.)

Chairman McCallum then called on the proponets to Senate Bill 135.

Jane Lloyd of Billings, representing the Montana League of Cities and Towns stated her group favors SB 135 because it provides for some solution to a problem that nearly all local governments face. (See attachment)

Janelle Fallan, representing the Montana Chamber of Commerce, spoke in favor of the bill. (See attachment.)

Hugh Spall, representing the City of Great Falls felt the funding made available in SB 135 could greatly help communities with their much needed street repair and building. The city of Great Falls supports SB 135.

Royal Johnson, representing the city of Billings as deputy mayor, feels that SB 135 would benefit the entire state and not any single area. The city of Billings favors SB 135. (See Attachment.)

Larry McGinley, representing the government of Butte-Silver Bow, stated that his group is in support of this bill. It would give local governments help in their funding problems.

Larry Huss representing the Montana Contractors Association stated that his group would favor the bill with one small change; on page 6, line 7, strike the word "Contract" and add the word "Cost". Mr. Huss stated that he hopes the committee would pass SB 135 with the proposed amendment.

Dan Mizner of the Montana League of Cities and Towns spoke in favor of the bill and offered the following amendment: to amend line 2 on page 4 to reinstate the words, "maintenance and repair". (See attachment)

Dean Zinnecker of the Montana Association of Counties stated that he agreed with Mr. Mizner's amendment. Mr. Zinnecker also stated that he did not agree with the allocation formula that would have 80% going to the cities and only 20% going to the counties. He suggested a 50/50 split.

David Hunter representing the city of Helena stated that his group feels the 80/20 split is fine. Mr. Hunter offered two amendments. The first, he asked that the bill allow for maintenance and repair. Second, on page 6, line 9, to change the limit of \$4,000 to \$10,000 above which work must be contracted. (See attachment.)

Chairman McCallum then called on the opponents.

Les Simpkins, representing the Office of Budgets and Program Planning, felt that the amending of SB 135 would cause a loss of general fund revenues.

J. T. Harrison, Jr., representing the Montana Association of Oil, Gas, and Coal Producing Counties stated he is neither for or against the bill. He hopes that with everyone wanting a piece of the coal tax money, that there will be enough to go around. Mr. Harrison suggested that the committee be very careful in their actions.

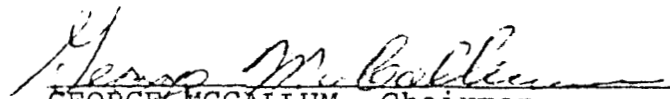

Senator Lockrem made the closing statements. He stated that he could well understand why Mr. Harrison's group was against the bill. Senator Lockrem state that the county portion is allocated in three places in the bill. It costs four times as much to build one mile of city streets as one mile of county roads. Senator Lockrem suggested that coal taxes be traded for asphalt.

Senator McCallum then opened the meeting to a question and answer period from the committee. Discussion was held, however, no action was taken at this time.

MINUTES: A motion was made by Senator Lockrem to dispense with the reading of the minutes at further committee meetings. Senator McCallum explained to the committee that the secretary was keeping a book of minutes for each member of the committee, and that the minutes would always be available. Motion carried unanimously.

CONSIDERATION OF SENATE BILLS 11, 12, 13, 15, 16, 17, 18, 19, 20, 21 and 23: A motion was made by Senator Lockrem to table Senate Bills 11, 12, 13, 15, 16, 17, 18, 19, 20, 21, and 23. Motion carried unanimously.

ADJOURN: With no further discussion the meeting was adjourned at 2:55. The next meeting will be held on Thursday, January 25, 1979 at 1:30 for the consideration of Senate Bills 69 and 102.

TESTIMONY FOR STATE LEGISLATURE

My name is Jane Lloyd. I am a member of the Billings City Council, but am here representing the Montana League of Cities and Towns. The League supports Senate Bill 135 because it provides some solution to a problem that nearly all local governments face.

The streets and roads in our cities and towns are in serious need of repair. They are an ever present source of danger to life and limb, to say nothing of the fact that they cost our citizens many dollars annually for the repair and maintenance of their vehicles.. There are many reasons for this problem. Many of our streets were built 30 years ago and were not designed for the amount of traffic that they carry today. Our subdivision regulations were extremely lax and did not require a developer to construct a street that would last.

Larger towns have problems with deteriorating streets. Smaller towns need money to have their street paved. The cost of paving and rebuilding streets range anywhere from \$300,000 to 1.3 million dollars per mile.

Thus, you have an idea of the magnitude of the problem a city faces with 50 miles of streets and roads to repair. Our options for raising revenue presently seem to be limited to the property tax. Our local citizens cannot afford the tax that would be required to repair our streets. In the past, the legislature has not seen fit to increase gasoline tax for this purpose and also have ^{limited} ~~guided~~ local governments local taxing options.

Coal tax revenue seems to us to be a reasonable alternative. The fund that has accrued for streets and roads in impacted counties will be

Page Two

left alone under this bill. At the effective date of this proposal, impacted counties will benefit to the extent that all other local government units will benefit from coal development.

It is our hope that you will look favorably upon this legislation as an answer to one of our most serious problems. Thank you.

Jane Lloyd
City County Member
City of Billings

MEMBERS OF THE SENATE LOCAL GOVERNMENT COMMITTEE

I'm Royal Johnson, Deputy Mayor of the City of Billings, and I thank the committee for allowing me to present this testimony on our position on this most important Senate Bill 135. Because of the jokes and comments about our "Chuck Hole City" you all can appreciate our need for street rebuilding funds.

Our discussion with other cities in the state make us believe the street and road problem is not isolated to Billings. Our intention in this and other testimony is to show this bill would benefit the entire State and not any single area.

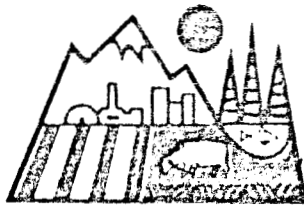

Natural resources removed from our state impacts everyone and funds realized from the removal of these natural resources should be returned and reinvested back into the state in the most visual and useful manner. What better way to have a permanent improvement than to improve our entire road system. The provisions of this bill allocates moncy's much the same as the allocation of gas tax funds so all cities and counties will benefit.

This bill continues a severance tax already in force and spreads the allocation of funds. This fund has grown to about \$14 million and according to our information the money has not yet been used. This bill does not propose to use this original fund but rather to reallocate the new money collected in the future.

We understand the strong demands you are facing for all new funds but the judicious allocation suggested and the permanent improvements that would result hopefully will merit your careful consideration.

We earnestly solicit your support to help city and county governments solve one of our state's most evident and pressing problems.

Royal Johnson
Deputy Mayor
City of Billings

SENATE BILL 135

LOCAL GOVERNMENT

January 23, 1979

For the record, my name is Janelle Fallan; I am representing the Montana Chamber of Commerce.

We support Senate Bill 135. The counties covered under the law as it now provides for coal area highway improvement are not using all the money in the fund. We see no reason that it should not be shared statewide.

A number of funding methods for cities and counties have been and will be discussed this session. We opposed the selective sales taxes that Senate Bill 22 would have allowed, and we will oppose revenue sharing as proposed in House Bill 125. However, this bill allows for the use of funds that are already being generated, and calls for a specific use--road construction and reconstruction -- that probably every city and county needs.

We have no strong feelings about the 80-20 split. If it is decided another proportion would be more equitable, we would still support the bill.

ALLOCATION OF COAL TAX REVENUE
 TO COUNTIES UNDER THE PROVISIONS OF THE PROPOSED
 "MONTANA RURAL & URBAN STREET AND ROAD ACT"
 To Be Introduced by Sen. Lloyd C. Lockrem, Jr.

County	1980	1981	County	1980	1981
