

MINUTES OF THE MEETING
FINANCE AND CLAIMS COMMITTEE
MONTANA STATE SENATE

SPECIAL SESSION II

Jun3 26, 1982

Senator Hims1 reconvened the Finance and Claims Committee on the above date at 11:26 a.m. and said we would discuss HB 18. He said we would have a problem with the building. The bills do not carry the amounts. The people from the council printed them on the blue bill but did not put in the amendments, but he thought we could start with HB 18.

CONSIDERATION OF HOUSE BILL NO. 18:

Sen. Jacobson: There is \$4,500 for instructor materials. Do we have any safeguard they will be used for those teachers?

Warden Risley: I have no problem in saying that is what the money will be used for. This money is being appropriated to improve the program and will be used for it.

Sen. Hims1: You did not ask for this bill? Warden Risley: no, but we support it.

Sen. Wolf: What is the status of the education level of the teachers? Warden Risley: Two of them are certified highschool and the other is a certified elementary teacher.

Sen. Wolf: How many of the inmates participate? Warden Risley: At any one time there are 90 enrolled. For some portion, since last July, about 296.

Sen. Wolf: Of the inmates that you have in the educational program - elementary and highschool - how many have received their GED?

Warden Risley: I don't have that information available at the present time. He said he had the information but it was mixed up with the other papers.

Sen. Aklestad: I guess I have a little bit of a problem with this bill and the level of teaching. There is no doubt, I am sure, that it will help someone, but the people on the outside that are paying the taxes are having a hard time educating their own people. They are trying to run a business and put kids through school.

Sen. Hims1: HB 18 and 19 are both here and they both deal with education and maybe making a review of them would be wise. Perhaps one would eliminate the other.

Sen. Haffey: I asked about that. HB 18 doesn't preclude the need for HB 19, but 18 would come out of 19 anyway.

Sen. Smith: I would like to make a comment. These inmates had an opportunity to acquire the education we want to give them now. Are they more willing to go to school and acquire it now, when not before, when the taxpayers provided it?

Sen. Dover: My understanding is this would be different. These would be remedial teachers that go and deal with the individuals if an individual wants to better himself. The ones that are there now are more or less in the classroom situation. These teachers would be an individual type of teacher.

Sen. Aklestad: I don't think we had better forget we do have three or four on staff now and a good library. If there is an individual who really wants to learn he could probably get some help from a fellow prisoner.

Sen. Jacobson: I don't remember the statistics we were given. It seems to me a pretty high percentage have troubles. I think I agree with Sen. Dover. These teachers are not specialized teachers that are able to deal with this. This is probably more needed than the kind they have been getting in the past.

Sen. Hims1: I am bothered a little bit that we know what they are without looking at it. If our perceptions are that good we obviously do not need study. It seems to me that we are operating from a knee jerk situation. We don't know what to do with it, so why involve the Department of Education in it?

Sen. Wolf: What Sen. Hims1 said is very true. Are we positive this is what we want to do? What is OSPI's opinion?

Judy Johnson, Special Education, OSPI: I have no idea what is out there. People in an educational field say we don't know what is out there, their IQ, etc. It was probably on my recommendation that they take out remedial English, math, etc. We really have no idea what is out there.

DISPOSITION OF HOUSE BILL NO. 18: Sen. Dover moved that we CONCUR in HB 18. Voted, defeated.

MOTION by Senator Smith that HB 18 DO NOT PASS. No roll call was taken on this since it was the agreement of the committee that the former vote be reversed. VOTED, PASSED, 10-5.

CONSIDERATION OF HOUSE BILL NO. 19: Sen. Hims1 said he was informed he is correct on the blue copy. The appropriation is for \$30,000 to OSPI for the purpose of designing a complete program for the state prison - a study of the needs and type of program they think should be put into practice there. Apparently, that educational program has been pretty minimal and low priority also. They would go in and see what type of program to do.

Sen. Boylan: I would address this question to Judy Johnson. Do you think, of 700 possibly pretty well controlled, it would really do us that much good to make the study? Would it really cost that much to do the study?

Judy Johnson: The figures were right in the areas. There is not enough money for evaluation. We attached numbers to each one of the parts. We could not do it by ourselves. We would work with the prison. The largest chunk of money is for some evaluation. There would be no need to test people over 65 years of age, etc. If you were hearing a research clause in there, we would not support it.

Sen. Wolf (to Risley): This HB 19 is addressing the office of OPI. Realizing all agencies are an island, what are your feelings as to OPI going in to do the evaluation?

Warden Risley: We have not had any problem there. We probably have much of the material they need already. We have a two week diagnostic process at the present time. It would not be difficult to do.

Sen. Wolf: Then you have no problem? Warden Risley: I don't see one.

Sen. Himsl: In this induction process you must ask questions. You don't consider it a test program? Warden Risley: He goes through it when he comes in.

Sen. Himsl: You mean when he goes in, he is stripped down, etc., and given a test? I can't imagine any worse conditions to put anyone in for a test evaluation. You are really suggesting that they be tested when they first come in? Warden Risley: We do that now.

Sen. Jacobson: If we are spending \$20,000 to test the prisoners and you are already doing it - is this for someone from OSPI to come in and test? Warden Risley: I presume that is what they are going to do.

Sen. Haffey: There is already \$35,000 already passed through the Legislature to address, comprehensively, these questions. One is in HB 11 which directs the plan of action from the Legislature. HB 11 mandates a plan of action in regard to concepts the Legislature supports including education. It has \$35,000 in it right now.

DISPOSITION OF HOUSE BILL NO. 19: Motion by Sen. Keating we DO NOT CONCUR.

Sen. Wolf: You say you are going through a two week testing now - the forms, etc.?

Warden Risley: I don't know if they are familiar with the process at OSPI, they are familiar with the forms.

Judy Johnson: One recommendation was not a complete evaluation of SAT. I certainly think, with the various kinds of evaluation, you can get a pretty good indication without a whole battery of SAT.

Sen. Himsl: Isn't there money in LEEA or something for testing?

Judy Johnson: Some money in Title I perhaps.

Sen. Himsl: You could get it to do this? Judy Johnson: The prison could do it, perhaps. We couldn't.

Rep. Marks appeared before the committee to answer any questions since some of the sponsors could not be located for the hearing. He said he wanted to address one problem that came up in regard to HB 11. The distinction could be drawn - as I envision it - they could benefit from the testing that takes place in the prison already and put together a recommendation to the next session. The committee in HB 11 - I do not see them doing that. I would think the committee would be looking at the problems and then making a recommendation for specific education problems.

Sen. Smith: Won't it be better cooperation between OSPI and the prison through federal funds without us getting involved in it? Can't they coordinate in getting something to satisfy the problem?

Warden Risley: Our own data. There is some real validity in the way we test. We know we have a problem with low achievers and slow learners. This will tell you nothing we don't know, but in greater detail.

Sen. Thomas: The ones that return and come back to Great Falls - they are tested and the tests we use are Iowa basic and a standard IQ. Probation has written information on it. The files are well documented in the school districts - learning disabilities, spelling and reading problems. Most of these people have learning problems. We have not mastered the way to remedy it. We cannot study the case forever, we just have to do something.

Sen. Himsl: Isn't it a lot attitude? Sen. Thomas: How do you remedy attitude?

VOTE was taken on House Bill 19. The motion by Senator Keating was DO NOT CONCUR. VOTED, AND CARRIED.

CONSIDERATION OF HOUSE BILL NO. 16: Senator Himsl said this bill has some rather extensive mistakes in it. We have no amendments on it. We have some problem with the bill. If you will listen carefully, I will try to explain the amendments that were made on the bill and should have been on your blue copy. He read through the bill with the amendments, and asked that the committee members make the changes on their copy of the bill.

Rep. Marks said it will provide a bunkhouse for the people outside the complex on the farm. They would not have to go back and forth to the prison. In talking to the manager, they lose a lot of time checking in and out. With the dormitory outside the fence they would not have to go in and out. They are all working on the farm or in the dairy and there is a sort of stigma that is attached to those working. There is a relationship with the prisoners that don't go out that also causes some concern and it would be better for the benefit of the prisoners to have them remain at the farm. If we do this it becomes necessary to put together a modular building and prison labor for this sole building. It would get people out of the prison so that there is more room.

Sen. VanValkenburg: Is this to replace what the administration had proposed in the way of the dairy barn?

Rep. Marks: It would be up to the administration. In talking to the people who looked at the dairy barn, it would really create some problems if 30 people stayed in there. The shift differential, etc., would cause a real problem. This would make better use of the time and better use of the ranch, also.

Sen. VanValkenburg: This would be essentially permanent and for the justifiable future we would always have some sort of bunkhouse in the prison area.

Sen. Hims1: I would like to amend this. In section 2 on the Housing Units that this is an open carte blanche in putting the housing units somewhere else. It says, on line 20, "Housing units outside the confines of the prison fence may be created by renovation of existing buildings or by erection of new modular-type units." I would like to move to change that to "associated facilities on the prison ranch". They can do it then on the prison ranch, but no where else. This amendment doesn't harm those with good intentions, but stops those with bad ones.

Sen. Story: Would this change have any trouble? Did this bill have any trouble in the House? Rep. Marks: We did get some flack on the prison labor but not as much as some of the other ones. I am sure the House would accept the change. I don't foresee a problem.

Sen. Keating: I have come to the conclusion we are talking about a modular building? Line 20 and 21 - "renovation of existing buildings" etc. What about this? Rep. Marks: It is deleted in the House amendments.

DISPOSITION OF HOUSE BILL NO. 16: MOTION by Senator Hims1 was voted and passed. This was the amendment to keep the housing within the confines of the prison.

Sen. Haffey: The normal habit there was you use prison labor. In regard to the prisoners doing work around the prison, is there anything you have given to show the prisoner who works there?

Warden Risley: The work would be done by our own labor and trusted employees with supervision.

Sen. Haffey: The language on construction, etc. Do you need it?

Warden Risley: That is the way it is done.

Sen. Haffey: On line 22 (yellow copy) I would make the motion to amend this to delete the language in the House amendment which reads "erection and construction utilizing prison labor".

Sen. Aklestad: We gave them latitude to use prison help. Now, we are restricting it. We should be able to utilize the prison help.

Sen. Regan: I recognize the problem, but if you are only appropriating \$130,000 and say construct these modular units, the only labor you can use is the involuntary prison labor in "the big house".

Sen. Aklestad: What kind of disturbances have there been at the ranch in the past few years? Warden Risley: Only one would be an escape. Three cowboys rode off on horses.

Sen. Aklestad? No real problems there? No fighting or violence?
Warden Risley: No.

Sen. Aklestad: The construction is not conducive to anyone that would get violent. I question the structure of the buildings that are being put up. Sen. VanValkenburg: That does not speak of the amendment.

VOTE was taken on the amendment to strike "erection and construction will utilize prison labor." Voted and passed.

MOTION by Sen. Dover that House Bill 16 BE CONCURRED IN, AS AMENDED.
Voted and passed.

Sen. Himsl declared the meeting was adjourned at 12:32 p.m.

SENATOR HIMSL, Chairman

June 15, 1982

Mr. David O. Armstrong
Director, Alpha House
104 North 31st Street
Billings, Montana 59101

Dear Mr. Armstrong:

Pursuant to our telephone conversation of this date, I am pleased to hear that there is a possibility of your organization establishing additional halfway house resources in Montana. Should these resources materialize, keep me advised as I can see a strong possibility of the Federal Prison System's need for them.

Sincerely,

Daniel A. Christ
Federal Programs Manager

~~DO PASS~~ Continued

AMENDMENT -HOUSE BILL 16

June 24

19 82

4. Page 2.

Following: Line 1.

Insert: "Section 2. Exemptions to facilitate timely construction-- sole source purchase allowed. For the purpose of expediting the acquisition and construction of housing units authorized in [section 1] the department of administration may exempt the project from provisions of Montana law relating to the employment of architects, advertising, labor, and wages. The department of administration need not comply with any state bidding requirements that would preclude a sole source purchase."

Renumber: subsequent sections.

5. Page 2, line 9.

Following: "institutions"

Strike: "\$500,000"

Insert: "\$130,000"

AND AS AMENDED DO PASS
