

MINUTES OF THE MEETING OF THE APPROPRIATIONS COMMITTEE  
March 14, 1983

---

The Appropriations Committee met at 8:15 a.m. on March 14, 1983, in Room 104, with Chairman Francis Bardanouve presiding and all members were present. Norm Rostocki, Legislative Fiscal Analyst for the Department of Health budget and Cliff Roessner, Legislative Fiscal Analyst for the remaining budgets, were present. Budgets were heard for the Departments of HEALTH AND ENVIRONMENTAL SCIENCES; LABOR AND INDUSTRY; JUSTICE, and REVENUE. No EXECUTIVE ACTION was taken.

(Tape 9: Track 1:0000)

DEPARTMENT OF HEALTH AND ENVIRONMENTAL SCIENCES:

Agency Summary:

Representative John SHONTZ, chairman of the Human Services Subcommittee, presented the proposed budget for this department which is outlined on Exhibit 1. Representing the Department of Health and Environmental Sciences was Dr. John DRYNAN, director.

Health Education:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B13 of Exhibit 1.

Hypertension:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B14 of Exhibit 1.

Nursing Bureau Administration:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B15 of Exhibit 1.

Family Planning:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B16 of Exhibit 1.

Venereal Disease:

Representative SHONTZ presented the recommended budget for this division which is outlined on page B17 of Exhibit 1.

Vaccination:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B18 of Exhibit 1.

Clinical Services Administration:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B19 of Exhibit 1.

Mr. ROSTOCKI explained the language for this division.

Handicapped Child Services:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B20 of Exhibit 1.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Representative BARDANOUE stated that the eligibility criteria for these services should be increased instead of decreased. Representative SHONTZ said they would make that change.

Child Nutrition:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B21 of Exhibit 1.

Dr. DRYNAN explained the mechanics of this program. On the Indian reservations, there is a contract person to administer this program. Otherwise, the county welfare offices handle it.

Women, Infant, and Children Food:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B22 of Exhibit 1.

Newborn Transport:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B23 of Exhibit 1.

This program was deleted by the subcommittee because they did not feel lost federal funds should be replaced by General Fund.

There was some discussion regarding this program and how much it was actually used.

Tumor Registry:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B24 of Exhibit 1.

Diabetes:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B25 of Exhibit 1.

The subcommittee felt the Montana Diabetes Association could pick up some of the lost federal funds.

Emergency Medical Services:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B26 of Exhibit 1.

Health Planning:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B27 of Exhibit 1. He explained that, if federal funds are not at least \$125,892 in FY'85, the program will self destruct.

There was a good deal of discussion regarding the certificate of need process. Dr. DRYNAN explained that this program has helped in coordinating the efforts of hospitals.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Licensing and Certification:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B28 of Exhibit 1.

There will be a bill before this committee which would change the charges made by this program by increasing fees with the additional fees going to the General Fund.

Legal Unit:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B29 of Exhibit 1.

Director's Office:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B30 of Exhibit 1.

Dr. DRYNAN stated that his main areas of concern are air quality, environmental administration, and the educational program for consumer safety.

Proponents:

Stacy Flaherty, representative of the Women's Lobbyist Fund, voiced her support to fund Family Planning at current level.

(Tape 9: Track 1:0213)

DEPARTMENT OF LABOR AND INDUSTRY:

Agency Summary:

Representative SHONTZ presented the proposed budget for this department which is outlined on page B31 of Exhibit 1. Representing the Department of Labor and Industry was Dave Hunter, Commissioner.

Commissioner's Office:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B32 of Exhibit 1.

There was an FTE transferred from Job Service to the Commissioner's Office because of a federal mandate. There was some discussion regarding this position and its duties.

Labor Standards Division:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B33 of Exhibit 1.

Personnel Appeals:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B34 of Exhibit 1.

Human Rights:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B35 of Exhibit 1.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

EMPLOYMENT SECURITY DIVISION - Agency Summary:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B36 of Exhibit 1.

Job Services:

Representative SHONTZ presented the proposed budget for this division which is outlined on pages B37 and B38 of Exhibit 1.

There was a lot of discussion regarding the Job Service offices and whether they are really needed. This issue was quite controversial but the consensus of the Committee was that the Job Placement Program is beneficial, not only to employees, but also to the employers. It was noted that Montana's Job Service placement rate per staff member is double that of the national average.

Unemployment Insurance:

Representative SHONTZ presented the proposed budget for this division which is outlined on B39 of Exhibit 1.

Commissioner HUNTER explained that this program is having an insolvency problem. The program currently is in debt to the Federal government and Commissioner HUNTER said that employers' participation taxes should be increased if this program is to become solvent. This issue was discussed in great detail by the committee.

Central Services:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B40 of Exhibit 1.

CETA Subgrants:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B41 of Exhibit 1.

Workers' Compensation - Agency Summary:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B42 of Exhibit 1.

Administration:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B43 of Exhibit 1.

State Insurance Fund:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B45 of Exhibit 1.

Insurance Compliance:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B46 of Exhibit 1.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Safety and Health:

Representative SHONTZ presented the proposed budget for this division which is outlined on page B47 of Exhibit 1.

Proponents:

Marj BROWN, faculty member of the University of Montana and Chairman of the Human Rights Commission, voiced her support for more funding for the Human Rights Commission to allow them to catch up on their work backlog. Ms. Brown handed out a breakdown of the work load of the commission (Exhibit 2). In summary, Ms. Brown requested that an additional compliance officer be funded.

Stacy FLAHERTY, representative of the Women's Lobbyist Fund, spoke in support of funding the Human Rights Commission at a level that would make it effective and meaningful.

Conrad YUNKER, legislative employee, spoke as a citizen who has a case pending in the Human Rights Commission. Mr. YUNKER felt the commission should be funded at a level that would alleviate the backlog situation.

Representative SHONTZ responded to the testimony by telling the committee that the General Fund for this budget was increased 23.4%, the largest budget increase in General Fund for any of the agencies heard by the Human Services Subcommittee. Also, the subcommittee granted funds at the level that they were requested to reduce the backlog. Representative SHONTZ did not understand what more the subcommittee could possibly do for this agency given the present fiscal constraints.

Representative SHONTZ said the possibility of charging fees to process these claims was discussed by the subcommittee. The committee will discuss this issue during Executive Action.

(Tape 9: Track 1:0635)

DEPARTMENT OF JUSTICE:

Agency Summary:

Representative Joe QUILICI, Chairman for the Elected Officials Subcommittee, presented the proposed budget for this department which is outlined on page A33 of Exhibit 1. Representing the Department of Justice was Susan HANSON.

Legal Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A34 of Exhibit 1.

County Prosecutor Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A35 of Exhibit 1.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Agency Legal Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A36 of Exhibit 1.

This division charges for legal services to state agencies at a rate of \$35 per hour. This cost is cheaper than contracting with the private sector which charges between \$50-\$150 per hour, depending on the amount of expertise required.

Motor Vehicle Administration:

Representative QUILICI presented the proposed budget for this division which is outlined on page A37 of Exhibit 1.

Driver Licensing Program:

Representative QUILICI presented the proposed budget for this division which is outlined on page A38 of Exhibit 1.

Representative STOBIE noted that employees in outlying towns have to spend a great deal of time driving to and from the county seat. Ms. HANSON responded that the Department had provided for a solution to this problem but that program had to be deleted due to tight budget constraints. Ms. HANSON said she would look back into this situation and report back to the committee.

Field Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A39 of Exhibit 1.

There was a lot of discussion regarding the Highway Patrol salaries coming out of the General Fund. This committee will have to deal with a supplemental caused by Highway Patrol salary upgrades.

Representative BENGTON wanted to hear more justification for switching from low-band radios to high-band. Larry PETERSON, of the Board of Crime Control, explained that this would permit the state network to be compatible with Sheriffs' Departments and other radio networks.

Vehicle Registration:

Representative QUILICI presented the proposed budget for this division which is outlined on page A40 of Exhibit 1.

Law Enforcement Services Administration:

Representative QUILICI presented the proposed budget for this division which is outlined on page A41 of Exhibit 1.

County Attorney Payroll:

Representative QUILICI presented the proposed budget for this division which is outlined on page A42 of Exhibit 1.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Law Enforcement Telecommunications Bureau:

Representative QUILICI presented the proposed budget for this division which is outlined on page A43 of Exhibit 1.

Larry PETERSON, of the Board of Crime Control, explained the need for a new switching system. The old switcher is outdated and is not dependable.

Law Enforcement Academy:

Representative QUILICI presented the proposed budget for this division which is outlined on page A44 of Exhibit 1.

There was some discussion regarding the necessity of the Juvenile Justice Training Program and what advantages it offers.

Representative BARDANOUVE questioned the necessity of the word "processing system". Bob KUCHENBROD, Administrator of the Centralized Services Division, responded that the implementation of the word processing system saved the department from having to hire three additional FTEs.

Fire Marshall:

Representative QUILICI presented the proposed budget for this division which is outlined on page A45 of Exhibit 1.

There is a tax to fund this office and those taxes more than pay for this program. The tax goes directly into the General Fund.

Identification Bureau:

Representative QUILICI presented the proposed budget for this division which is outlined on page A46 of Exhibit 1.

Mr. ROSNER explained the data processing system.

Criminal Investigators:

Representative QUILICI presented the proposed budget for this division which is outlined on pages A47 and A48 of Exhibit 1.

Representative STOBIE expressed some concerns of local law enforcement officials that the criminal investigators do not cooperate with the local agencies. The committee discussed language in the bill to provide cooperation between state and local officials. There was some discussion regarding the three investigators funded from coal tax funds.

Central Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A49 of Exhibit 1.

Representative BARDANOUVE expressed his concern regarding the ever-growing extensive internal auditing in the state.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Data Processing:

Representative QUILICI presented the proposed budget for this division which is outlined on page A50 of Exhibit 1.

There was some discussion regarding the legality of the transfer of a programmer from the Board of Crime Control to Data Processing. Representative BARDANOUVE expressed his discontent with agencies making transfers of this nature without legislative approval.

Transportation of Prisoners:

Representative QUILICI presented the proposed budget for this division which is outlined on page A51 of Exhibit 1.

Forensic Science:

Representative QUILICI presented the proposed budget for this division which is outlined on page A52 of Exhibit 1.

Representative LORY explained the function of the co-oximeter and noted that the use of this machine will save laboratory time when determining if an accident was caused by alcohol or carbon monoxide poisoning. This will be the only co-oximeter in the state.

Legal Jurisdiction Project:

Representative QUILICI presented the proposed budget for this division which is outlined on page A53 of Exhibit 1.

There was a lot of discussion regarding the Indian Jurisdiction Project and the subcommittee felt this funding should be approved to provide the state with adequate representation in law suits. Representative LORY explained the consequences of not having adequate representation in Indian Jurisdiction litigation.

Ms. HANSON explained how this program works and the reasons for having both full-time legal service and contracted legal service.

HIGHWAY TRAFFIC SAFETY:

Representative QUILICI presented the proposed budget for this division which is outlined on page A54 of Exhibit 1.

There has been a lot of support for this program from the school system and the private sector.

BOARD OF CRIME CONTROL:

Representative QUILICI presented the proposed budget for this division which is outlined on pages A55 and A56 of Exhibit 1.

Mike LAVIN, of the Board of Crime Control, gave the background of the board. He handed out a list of technical assistance services this program offers to state and local law enforcement agencies (Exhibit 3).

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

Representative BARDANOUVE asked about the funding level for the FTEs. It was established that part of the FTEs are funded with General Fund and part are funded with federal funds.

(Tape 9: Track 1:0330)

DEPARTMENT OF REVENUE:

Agency Summary:

Representative QUILICI presented the proposed budget for this department which is outlined on pages A57 and A58 of Exhibit 1. Representing the Department of Revenue was Ellen Feaver, Director.

Director's Office:

Representative QUILICI presented the proposed budget for this division which is outlined on page A59 of Exhibit 1.

Central Services:

Representative QUILICI presented the proposed budget for this division which is outlined on page A60 of Exhibit 1.

Research and Information Division:

Representative QUILICI presented the proposed budget for this division which is outlined on pages A61 and A62 of Exhibit 1.

Legal and Investigation Program:

Representative QUILICI presented the proposed budget for this division which is outlined on page A63 of Exhibit 1.

(Tape 9: Track 2:0000)

Representative BARDANOUVE asked about the rate of return for liquor and welfare fraud investigators. Ms. FEAVER explained that the return for welfare fraud is about \$150 for every \$1 spent. She noted that the liquor fraud investigations are such that it would be impossible to determine the return for these investigations. Representative QUILICI stated that the additional three fraud investigators would pay for themselves through the return.

Child Support Enforcement:

Representative QUILICI presented the proposed budget for this division which is outlined on pages A64 and A65 of Exhibit 1.

Ms. FEAVER explained the language which would provide for a General Fund loan to this program should it be necessary. This program is moving toward a revolving account and Ms. FEAVER felt this language would be necessary should there be a shortfall in federal funds. This program collects approximately \$1.80 for every \$1 spent.

Minutes of the meeting of the Appropriations Committee  
March 14, 1983

---

The meeting was recessed until 7:30 p.m.

Language:

In item X \$77,500 is allocated for the hypertension program in fiscal 1985. If the federal requirement for hypertension is less than \$77,500 in fiscal 1985, all remaining funds from the hypertension allocation shall be distributed to the counties for emergency medical services training activities.

Comments:

This program was federally funded from a categorical grant fiscal 1983. It is funded at the mandated level in fiscal year 1984 from the Preventative Health Block Grant. If the mandated level introduced in fiscal 1985, the department is directed to use the available funding for emergency medical training activities. A majority of the program expenses appear as non-operating expenses which represent grants to local clinics for hypertension workshops.

This program represents the administrative expenses of the newly created nursing bureau, and includes 3.0 FTE nurses.

This program was created when the department was reorganized during the first week of the legislative session. It is comprised of portions of several existing programs. As this unit did not exist prior to January, there was no executive budget or current level. This program aims at offering assistance to public health nurses at the local level.

This program provides support to approved county-operated and local private non-profit family planning clinics. The FTE and operating expenses reflect the administrative staff. The non-operating expenses reflect grants made to family planning programs. In the past biennium, a general fund match was required to receive a portion of the available federal funds. This match requirement is no longer effective. This program is now funded entirely from the preventative and maternal and child health block grants within the health department.

This program's aim is to monitor and control sexually transmitted diseases. Its activities include tabulation of number, type, and geographical location of reported cases, and follow-up interviews to attempt to control outbreaks. This program was funded in the past entirely from a federal grant. A general fund match is required beginning in fiscal 1984. The non-operating expenses reflect assistance to local health departments for travel and training.

This program aims at monitoring and assisting childhood immunization, which includes distribution of free vaccine. This program will begin receiving general fund in fiscal 1984 because a federal mandate now requires a portion of the program to be matched with general fund. Prior to fiscal 1983, this program was funded completely from a federal categorical grant. It now receives a majority of its funding from the preventative health block grant.

Non-operating expenses reflect grants to local units to provide community vaccination programs.

Language: Included in fiscal 1984 is \$138,904 of one-time block grant carry-over funds. The department is responsible for obtaining the required match for these funds. If no match is obtained the carry-over will revert to the federal government. Federal spending authority totaling \$1,563,360 in fiscal 1984 and \$1,424,456 in fiscal 1985 is the anticipated amount of the maternal and child health block grant. Any increase or decrease in these amounts will be passed on to the counties except that 10 percent of additional block grant funds received may be used in the director's office for administrative costs. If any of these additional funds are used in the director's office, an equal amount of general fund shall revert.

Comments: This program represents administrative costs for the newly created clinical services bureau. There is no 1982 actual, executive request, or current level because this bureau was created when the department reorganized during the first week of the legislative session. It is comprised of portions of several existing programs. The non-operating expenses reflect grants made to counties from the Maternal and Child Health Block Grant for approved activities at the local level.

This program offers services to handicapped children including those children with cleft palate. The program is substantially reduced from the 1982 level due to the termination of several categorical grants. The program is now funded entirely from the block grant. Although most of the same services are available, the eligibility criteria to receive services has been reduced to reflect the cut in available funding.

This program seeks to improve the nutritional health and awareness of the citizens of the state, including technical assistance, training to local health professionals, and the issuing of food vouchers to clients who meet eligibility criteria. The program is entirely supported with federal funds.

Non-operating expenses reflect the amount of food vouchers issued to needy clients which enables them to obtain specific commodities which are deemed necessary to supplement their diet.

This program provides low income, pregnant, postpartum, and lactating women, and children up to age 4, with selected foods to supplement their diets, and nutritional counseling. This program is supported with federal funds. The large operating expenses reflect the food purchased under the program. Non-operating expenses reflect support of administrative costs of local agencies.

This program gathers data on cancer patients in Montana and provides summary reports to participating hospitals regarding all cancer patients treated at each hospital. General fund increases 17 percent, or \$15,632, over the past biennium. This increase is due to inflation and the addition of a .25 FTE clerical position over the 1982 level.

Emergency Medical Services is responsible for developing a coordinated statewide system of emergency medical services, including technicians, training, and communications. This program appears to be substantially reduced from the fiscal 1982 level. However, in fiscal 1982, large blocks of federal funds were available for pass-through grants for equipment procurement at the local level. These funds are no longer available. The general fund increases 14 percent over the past biennium.

The FTE was reduced by 1.0 from the fiscal 1982 level, which corresponds to a position relating to advanced life support activities. This position was not funded, as it had been unfilled during all of fiscal 1982 and a portion of fiscal 1983.

Although there was a reduction in FTE, the general fund increased, primarily due to the increase in the general funded poison control program. This program offers assistance to anyone needing immediate information regarding what action should be taken when poisoning occurs or is suspected. The system operates via a toll-free phone line to the Rocky Mountain Poison Control Center in Denver.

If federal funds received are less than \$125,892 in fiscal 1985, this program will cease and any remaining general funds will revert.

## Comments:

This program's major responsibility is to administer the certificate of need law which requires any medical facility proposing construction or equipment purchases exceeding \$750,000 to be approved by the department.

The original executive request and current level analysis had assumed that federal funds would not be available for this program in the 1985 biennium. In January, 1983, federal funds did become available at a lower level than was received in fiscal 1982. These were considered and utilized by the subcommittee. The general fund increases \$4,390, or \$10,308, over the biennium, which reflects the minimum general fund expenditures required to receive the federal funds. The FTE were reduced as requested to reflect the declining federal funds. The subcommittee directed that federal funds must be at least \$125,892 in fiscal 1985 for this program to continue.

This program is responsible for the state licensing and medicare certification of health care facilities in the state. The general fund in this program increases 17.2 percent, or \$40,863, over the past biennium. Although the authorized FTE level decreases by 3.7 FTE, the personal services expenses are substantially higher than the 1982 level. This is explained by the fact that although 19.2 FTE were authorized in fiscal 1982, several positions were left vacant for a substantial portion of fiscal 1982 because federal medicare funds were cut. The 1984 and 1985 budgets reflect a reduction of three health care facility surveyors and a portion of a clerical staff. Operating expenses were adjusted to fund the additional travel and expenses of health facility inspectors.

This program houses the director and his staff. The subcommittee level shown above represents the director's office according to the reorganization that took place during the first week of the legislative session. The change in FTE between the executive and current level compared to the subcommittee level reflects a transfer of 4.5 to the newly created Management Services Division. There was no net decrease in FTE.

The non-operating expenses in fiscal 1982 reflect grants made to counties from the preventative health block grant for general preventative activities. In fiscal 1984 and 1985, these grants were reduced to the mandated level of \$10,260 each year for a mandated Rape Crisis Program. As the preventative block grants were used to fund other eligible programs, there was not a sufficient amount available to continue this pass through to the counties.

The drop in federal funds is due to changes in the use of the two block grants received by the department. The committee chose to utilize a majority of the block grant funds to provide direct services. Thus, the federal funds drop because they are being used in other programs. This decrease in federal funds was offset by an increase in general fund in this program.

The Department of Labor and Industry acts as an employment agency, administers unemployment insurance and workers' compensation, enforces collective bargaining and other labor laws, and protects individuals from discriminatory practices. Services are provided through three state agencies: Department of Labor and Industry, Employment Security, and Workers' Compensation.

This represents the costs of the four programs in the Department of Labor; the Director's Office, Labor Standards Division, Human Rights, and Personnel Appeals. These programs are discussed further on the following pages. As a whole, the agency's budget increases 15.1 percent, or \$364,366, over the past biennium. General fund increases 15.7 percent, or \$283,478.

Agency: Department of Labor & Industry

Program: Commissioner's Office

This program houses the Commissioner of Labor and his staff. A .34 FTE employment interviewer position added by budget amendment during the 1983 biennium was increased to a full FTE position. The increase in operating expenses is attributable to increased travel. Non-operating expenses are for support of the Centralized Services Division in Employment Security.

This program is funded from payments made from all other department of labor programs.

Agency: Department of Labor & Industry

Program: Labor Standards

This program operates the apprenticeship bureau and enforces state labor laws, child labor laws and operates the apprenticeship bureau. The apprenticeship bureau registers and monitors apprenticeships and on-the-job training programs. General fund increases 19.5 percent, or \$158,860, over the 1983 biennium.

Current level operating expenses were adopted and the 1982 FTE level was maintained. Personal services expense increases because a 1.00 FTE Compliance Officer position was not filled in fiscal 1982.

A majority of the operating expenses increase is to cover communications, rent, and repair expenses that were previously paid in other programs but are now paid directly by this program.

Federal funding of \$53,450 in fiscal 1982, for a contract with the Apprenticeship Bureau to provide assistance to veterans, decreases to \$17,000 in fiscal 1984 and \$18,000 in fiscal 1985. Of the fiscal 1982 contract amount, \$37,955 was added through budget amendment. The apprenticeship bureau was maintained at the 1982 level, even though federal funds were reduced.

Non-operating expenses are for support of the Centralized Services Division and the Commissioner's Office.

Language:

Items 3b and 10b are for indexing and printing of personnel appeals cases. Any fund balance remaining from fees charged for copies of cases shall revert at the end of fiscal 1985. Items 3c and 10c are for a 1.0 FTE grievance appeals officer position and may be used only if HB 309 passes.

Comments:

This program is responsible for negotiating labor-management relations and employee classification appeals in the public sector. General fund expenditures increase 8.4 percent, or \$59,406, over the 1983 biennium.

Personal services is increased 0.5 FTE for a receptionist position. Operating expenses increase to cover communications, rent, and repairs expenses which were previously paid in other programs are now paid directly by this program. The Governor's interim committee on personnel and labor relations recommended that \$5,000 be appropriated for indexing decisions of the personnel appeals board. The committee appropriated \$4,000 general fund in fiscal 1984 and \$3,500 in revolving account authority in fiscal 1985. It was intended that the general fund act as one-time start up costs, after which revenue for future case printings would be derived from a fee charged to those who request the cases.

Nonoperating expenses are transfers for support of the Commissioner's office and the Centralized Services Division.

Language:

Included in item # X are funds sufficient to reduce the case load backlog to a maximum of 116 cases by June 30, 1985.

Comments:

This program protects Montana citizens from discrimination in employment and housing. General fund increases 23.4 percent, or \$65,212, over the 1983 biennium.

Two and one-half FTE were added in fiscal 1984 and 1.75 FTE were added in fiscal 1985. These FTE additions include: a 0.50 FTE hearings officer to reduce case load backlog; a 1.00 FTE compliance officer III to process housing discrimination cases; a 1.00 FTE compliance officer III in fiscal 1984 and a 0.25 FTE in fiscal 1985 to reduce the case load backlog. These additional FTE are funded from federal funds. Operating expenses increases to reflect the additional FTE and communications, rent, and repairs expense previously paid while it was in other programs, but is now paid directly by this program.

Non-operating expenses are for support of the Commissioner's office and the Centralized Services Division.

Agency: Employment Security Division

The Employment Security Division responsibilities include collecting and disbursing unemployment contributions, acting as an employment agency and owing CETA grants.

This summary represents the expenditures of the Employment Security Division. This unit's budget increases 13.2 percent, or \$7,568,651 over the past biennium. In the past biennium, this program was tracked on the accounting systems as a single unit. The budget for the 1985 biennium divides this program into three units. These are presented in the following pages. Because accounting records are not available for the three units, there are no fiscal 1982 actual expenditures shown on the following pages.

## Language:

Federal spending authority totalling \$4,561,000 in fiscal 1984 and \$4,835,000 in fiscal 1985 are to provide for current level operation of all existing job service offices and up to 155 FTE. If federal funds for job services are less than these amounts, the department may supplement federal funds with state unemployment taxes collected specifically for the administration of local job service offices.

## Comments:

This program reflects the expenses for operation of the local job offices. There is no actual 1982 expenditure level because this program was not accounted for separately in fiscal 1982.

The executive budget reflected a reduction of 17 of the 24 state employment offices, based on President Reagan's proposed federal budget. SB-210 authorizes the department to increase the unemployment insurance assessment to keep job service offices open. The committee maintained funding at current level and provided authority to spend unemployment taxes specifically for administration of job service offices in the event that Senate Bill 210 is passed and federal funds are insufficient.

Nonoperating expenses reflect unemployment benefits paid to individuals and transfers to support the Commissioner's Office and the Centralized Services Division.

This program receives funding for operating expenses from the federal unemployment insurance tax. Funds for unemployment benefits are derived from assessments made on employers in the state.

Agency: Employment Security

This program operates the unemployment insurance program, including assessments and collections of the unemployment insurance tax. There is no actual 1982 expenditure level because this program was not accounted for separately in fiscal 1982. Non-operating expenditures reflect this program's share of the costs of the director's office and the accounting functions.

This program is funded from the federal unemployment insurance tax and its budget and funding must be approved by the federal government.

This budget reflects the accounting functions for the department of labor. There is no fiscal 1982 expenditure level because this program was not accounted for separately in fiscal 1982.

The department requested a budget which was based upon passage of President Reagan's budget, including a reduction in federal funds available to Montana. The subcommittee maintained this program at current level, which assumes President Reagan's budget will not pass in its original form. Non-operating expenses are for support of the Commissioner's Office.

This program is funded from payments made by all programs in the Department of Labor, the Employment Security Division, and the Workers' Compensation Program. Non-operating expenses include payments to support the director and his staff.

This budget as approved by the subcommittee includes 15.34 FTE that represent the Audit Bureau which was transferred from the Workers' Compensation Administration Program.

The Employment Security Division receives the CETA funds for the state from the federal government for various CETA job opportunity and training programs.

This budget reflects the anticipated level of CETA funds over the next biennium. The Department of Labor receives all CETA funds and then distributes them to the actual users of the CETA funds.

This program acts as an insurance company, insures that nonparticipating employers have adequate coverage, and monitors workers' compensation claims filed and benefits paid out.

This represents the expenses of the Workers' Compensation Unit. This budget is broken down into programs which are on the following sheets.

The general fund in this budget reflects social security offset payments and payments to silicotics and surviving spouses. As the number of people receiving these benefits is declining, the general fund also declines.

Agency: Worker's Compensation

Program: Administration

Language:

Items 6b, and 13b are for social security offset payments. No transfers may be transferred out of this line item.

Comments:

This program provides the accounting, personnel, and management functions for the Workers' Compensation Program. General fund appropriations increase 6.8 percent, or \$12,562, over the 1983 biennium. FTE were reduced 15.34, reflecting transfer of the Audit Bureau to Centralized Services in the Department of Labor and Industry in the 1985 biennium and elimination of a training officer, cashier, accounting technician, and statistical clerk positions. Operating expenses increase \$465,092 in fiscal 1984 and \$123,209 in fiscal 1985 to provide for development of an expanded claims management system. Equipment also associated with this request totals \$111,060 in fiscal 1984.

Included in nonoperating expense are (1) \$608,027 in fiscal 1984 and \$575,884 in fiscal 1985 for payments on the new Workers' Compensation building; (2) Social Security offset payments, and (3) administrative payments to the director's office and central services.

This program acts as an insurance company for employees injured while employed with a covered employer. The program administers the collections of employer premiums and the calculation of benefits paid out as claims to the injured.

The subcommittee approved a requested program expansion which totals \$163,197 in fiscal 1984 and \$196,465 in fiscal 1985 for additional data processing capabilities. FTE increase 4.17 in fiscal 1984 and 4.67 in fiscal 1985 to provide added clerical and claims management support. This expansion is reflected in operating expenses and equipment.

Operating expenses also increase for expenses associated with having to contract with the Central Services Program for internal auditing.

The Insurance Compliance Program is responsible for monitoring the claims filed and payments made by self-insured employers.

The general fund in this program reflects the anticipated payments for silicotics and surviving spouses over the biennium plus funding for a 0.50 FTE to administer those payments. Operating expenses were increased \$26,326 in fiscal 1984 and \$13,098 in fiscal 1985 for additional data processing capabilities.

Nonoperating expenses are general fund payments for silicosis benefits. General fund decreases 13.6 percent, or \$209,791, from the 1983 biennium. The decrease in general fund is attributable to the fact that there are projected to be fewer surviving silicotics than in the past biennium.

Language:

Appropriated amounts within operating expenses include \$10,000 for each year of the biennium for case related travel only.

Comments:

The legal services division includes the attorney general, his administrative and legal staffs, and the anti-trust and escheated estates program.

General fund increases by 11.2 percent, or \$164,092 over the 1983 biennium. Although not line itemed, \$4,259 for fiscal 1984 and \$9,120 for fiscal 1985 was included for Westlaw which is a computer research system for legal cases. It was the committees intent that the legal services division be the pilot program for Westlaw and they were to report back to the next legislature on its use and possible time savings through its use. A new car for the attorney general was approved in fiscal 1984 at a cost of \$8,000.

The Motor Vehicle Division Administrator is responsible for administering driver licensing, motor vehicle registration, and conducting hearings for car dealers whose franchises are terminated by the manufacturer.

The program retained a .5 secretary to do division work and monitor the files on dealer franchises and a .4 attorney to provide legal assistance to the division administrator.

Funding is provided through the motor vehicle registration account which is funed by fees charge vehicle owners to register motor vehicles in the state.

The Field Services Program contains the headquarters for the highways patrol and patrol field operations. General fund increases 210 percent or, \$12,063,008 over the 1983 biennium. Highway patrol officers I and II are funded at the new approved grades 13 and 14 respectively. Two safety education officers to promote traffic safety to the general public were approved. Funding of a highway patrol cadet school at a cost of \$38,000 in fiscal 1984 and \$39,000 in fiscal 1985 was approved. A communications package was approved for the following:

|                    | Fiscal 1984 | Fiscal 1985 |
|--------------------|-------------|-------------|
| Personal Services  | \$120,265   | \$184,587   |
| Operating Expenses | 55,908      | 39,795      |
| Equipment          | 165,911     | 100,902     |
| Total              | \$342,084   | \$325,284   |

Current level equipment approved includes 67 patrol cars at a cost of \$624,053 in fiscal 1984 and \$661,480 in fiscal 1985. Forty high-band radios for each year of the biennium, at a cost of \$48,000 per year, were approved.

The committee approved a major funding switch by placing all costs, except the new communications package, in the general fund. Funding for the communications package is out of the highways earmarked revenue account.

The Motor Vehicle Registration Program is responsible for administering all state laws pertaining to registration of motor vehicles.

Funding of \$20,000 in fiscal 1984 and \$23,200 in fiscal 1985 was provided to purchase a secure motor vehicle title. Rent was increased \$4,668 in fiscal 1984 and fiscal 1985 to pay for software lease for a series I computer. Maintenance costs of \$6,870 for both years of the biennium was approved. Equipment purchases consist of the following:

|                    | Fiscal 1984 | Fiscal 1985 |
|--------------------|-------------|-------------|
| Series I Computer  | \$25,990    | \$25,990    |

The Law Enforcement Services Administration (LESDA) oversees the criminal investigators, fire marshal, identification bureaus, LETS, and the law enforcement academy. The administration also functions as a criminal investigator.

The general fund increased 9.1 percent, or \$12,375, over the 1983 biennium. The committee allowed \$1,500 per year for travel.

The Law Enforcement Telecommunications Bureau (LETS) provides a communication network for state and local law enforcement agencies.

Data processing costs to operate the LETS network and the criminal history file were approved at \$120,597 in fiscal 1984 and \$124,520 in fiscal 1985.

Within the general fund for fiscal 1984 is a biennial appropriation of \$415,000 for operating expenses and equipment for a new switching system. A switcher is a data processing component that relays a message or a request for information to the proper channel, either into the automated state files, the national crime information center, the national law enforcement telecommunication system, or to other state agencies or states. Amounts appropriated for the new switching system are as follows:

|                       |                  |
|-----------------------|------------------|
| Contracted Services   | \$160,000        |

The Law Enforcement Academy Bureau (LEAB) offers various schools designed to meet the minimum training standards that are in effect for local law enforcement agencies and certain law enforcement positions.

General fund increases 30 percent or, \$277,600, over the 1983 biennium. Biennium costs of \$149,322 were added to the general fund to replace federal funds that had provided funding for the juvenile justice training program at the academy for the past four years. Added were a grade <sup>11</sup> training instructor and a grade 7 administrative aide.

Authority was granted to continue the lease of a word processor that was leased in fiscal 1983. The cost is \$18,502 in fiscal 1984 and \$19,427 in fiscal 1985. Maintenance costs on the word processing system are \$2,467 in fiscal 1984 and \$2,615 in fiscal 1985.

The State Fire Marshall is responsible for arson investigations, inspection of public, business, and industrial buildings, and providing fire prevention and fire protection information to public officials and the general public.

General fund increases 9.1 percent, or \$54,288, over the 1983 biennium.

The committee added \$10,000 per year for contracted services for deputy fire marshalls to inspect fire extinguisher systems.

General fund was used to replace declining federal funds that had been used in the past to fund the fire incident reporting systems. This amounts to \$6,137 in fiscal 1984 and \$6,348 in fiscal 1985.

The Identification Bureau is the collection point and dissemination point for information on individuals arrested and convicted of crimes in Montana.

General fund increases 17.5 percent, or \$64,027, over the 1983 biennium.

Data processing charges to maintain the criminal history record information center were approved at \$32,654 in fiscal 1984 and \$34,613 in fiscal 1985. The budget in fiscal 1982 contained only \$15 in data processing charges.

The Criminal Investigators Bureau assists local law enforcement in the investigation of felony crimes. Requests for assistance from this bureau come from local law enforcement when special expertise is needed or local officials feel they cannot conduct a partial investigation.

General fund increases 86 percent, or \$203,681, over the 1983 biennium. The major reason for the increase is the addition of three FTE, two criminal investigators and one secretary, and the associated operating expenses.

|                    | Fiscal 1984 | Fiscal 1985 |
|--------------------|-------------|-------------|
| FTE                | 3.00        | 3.00        |
| Personal Services  | \$69,922    | \$69,726    |
| Operating Expenses | 22,198      | 24,112      |
| Total              | \$92,120    | \$93,838    |
|                    | =====       | =====       |

Criminal Investigators (cont.)

A coal board grant was approved that added 5 FTE and their associated operating expenses to the budget as follows:

|                    | <u>Fiscal 1984</u> | <u>Fiscal 1985</u> |
|--------------------|--------------------|--------------------|
| FTE                | 5.00               | 5.00               |
| Personal Services  | \$133,594          | \$133,101          |
| Operating Expenses | <u>70,447</u>      | <u>75,702</u>      |
| Total              | <u>\$204,041</u>   | <u>\$208,803</u>   |

These FTE are used for convert operations in a five county area impacted by cost development.  
The earmarked revenue is from a coal board grant.

Central Services Division maintains the accounting functions for the department. It is responsible for the processing of all claims as well as financial monitoring for all divisions.

General fund increases 8.7 percent, or \$58,598, over the 1983 biennium.

Audit fees increased \$19,298 over the 1982 expenditure to a total of \$31,500. Since the highway patrol is now funded from the general fund, \$14,000 of the audit fees that were paid by the highway earmarked revenue account are now paid out of the general fund.

## Language:

Included in the equipment budget is \$11,000 for fiscal 1984 and \$12,500 for fiscal 1985 that may be used as a match with federal funds to buy lab equipment.

## Comments:

The Forensic Science Division operates a laboratory of criminalistics and an office of forensic pathology. The purposes of these offices are to determine the cause of certain types of deaths, to analyze specimens for law enforcement officers, and to provide reports, including oral testimony concerning such investigations, examination, and analysis.

General fund increases 9.1 percent, or \$90,066, over the 1983 biennium.

Maintenance contracts were increased \$4,803 in fiscal 1984 and \$5,092 in fiscal 1985 on equipment for which the warranty has expired.

Equipment includes \$12,000 to purchase a co-oximeter. -A52-

Language:

If the appropriation is not sufficient to cover the costs for the 1985 biennium the department may present a supplemental to the next legislature.

Appropriated within operating expenses in fiscal 1984 is a \$300,000 biennium appropriation for legal fees.

Comments:

The legal jurisdiction project is responsible for handling jurisdictional differences which arise between the state and tribal entities. The project provides information and legal assistance to state agencies and local government on issues relating to Indian jurisdiction.

General fund increases 272 percent, or \$328,476, over the 1983 biennium.

This program was transferred from the Governor's Office. Two FTE, a grade 19 lawyer and a grade 11 secretary, were added to the budget. Outside legal fees of \$300,000 are appropriated for the biennium.

The agency assists local and state government entities in promoting traffic safety. The budget increases 5.8 per- cent, or \$159,549, over the 1983 biennium.

Approved was \$104,500 in each years of the biennium for contracted services to fund the Occupant Restraint Pro- gram and Alcohol Program. This is an increase in operating expenses of \$43,649 in each year of the biennium for these two programs. The Occupant Restraint Program is designed to increase the use of seat belts by the driving public. The Alcohol program informs people of the dangers of drinking and driving.

The federal funds for this program are allocated by Congress to the National Highway Traffic Safety Administration for subsequent allocation to the states. The allocation of grants by the state is 60 percent to local government and 40 percent to state government. The state shares in administrative costs by providing 25 percent of those costs from the highway earmarked revenue fund.

The Montana Board of Crime Control was established in 1968 to administer action grant funds to various state and local agencies. The major funding source for this agency was the now defunct Law Enforcement Assistance Administration. During the past several years, the agency has taken on a number of duties which have been general funded. These duties include Montana Uniform Crime Reporting, Peace Officers Standards and Training, and the Criminal Justice Data Base.

The general fund appropriation for this program increases 86.8 percent, over the 1983 biennium. The subcommittee replaced federal funds with general fund money to allow the agency to continue and expand technical assistance to state and local law enforcement agencies.

This expanded program will provide assistance in the areas of jail improvement, management and statistical analysis, crime prevention, crime stoppers, manpower development, information systems, residential programs for youth in trouble, and the establishment of minimum law enforcement standards for equipment, procedures, and training schools administered by the state or any of its political subdivisions.

The FTE decrease by five due to the agency's request to have these positions deleted. An administrative assistant, program planner, accountant II, program analyst, and accounting technician have all been deleted.

Federal funds which continue are for the Juvenile Planning and the Juvenile Probation Information System that provides management information to youth courts.

Language:

Funds up to \$300,000 remaining within the 1983 biennium appropriation for defense of the railroad litigation are reappropriated for the 1985 biennium to deal with "legal issues arising under federal nondiscriminatory taxation acts such as the Tax Equity and Fiscal Responsibility Act, the Railroad Revitalization and Regulatory Reform Act, and any subsequent federal legislation which directs the state to take a nondiscriminatory posture in the taxation of entities doing business within the state. It is intended this appropriation would only be used for attorney fees, expert witnesses and extraordinary expenses associated solely with resolving disputes in these particular areas".

Comments:

The Department of Revenue administers state tax laws. The department's functions include the assessment and collection of taxes, statewide property assessment, investigation of welfare fraud and liquor fraud, collection of child support payments, and administering the state liquor enterprise.

General fund increases 25 percent, or \$7,167,728 over the 1983 biennium. The subcommittee FTE level does not include the FTE in the Liquor Division, as that division received an open-ended appropriation. Fiscal 1982 FTE net of the Liquor Division was 739.92. Excluding the Liquor Division, the subcommittee FTE level is 45.05 higher in fiscal 1984 than in fiscal 1982 and 41.05 higher in fiscal 1985 than in fiscal 1982. Total FTE in for fiscal 1984 is 784.97 and for fiscal 1985 is 780.97.

## Language:

Item X is a biennium appropriation to pay for legal fees incurred by the department.

## Comments:

The director's office supervises and coordinates the activities of all divisions within the department.

General fund increases 39.4 percent, or \$125,604 over the 1983 biennium. An administrative secretary position that was filled only part of the year was reduced to a .5 FTE. Legal fees increased by \$51,702, to a total of \$72,000. Audit fees increased by \$50,732 to a total of \$105,000. As the biennium legal fees and audit costs are shown in fiscal 1984, the fiscal 1985 operating expenses are less.

The Central Services Division provides administrative support services to the department such as accounting, audits, payroll, personnel, and collections.

General fund increases 8 percent, or \$137,628, over the 1983 biennium.

A 1.00 FTE duplicating machine operator position was deleted. A 1.00 FTE mail clerk position was reduced to a .75 FTE.

Travel was increased to allow internal auditors to examine field operations. The auditors did not travel much in fiscal 1982.

A word processing terminal was added in fiscal 1984 at a cost of \$6,566. This will allow more effective use of the Central Payroll/Personnel/Position Control System.

The Research and Information Division provides support services to other department divisions. Services include general research, computer systems development, programming, and data processing.

General fund increases 15.1 percent, or \$283,038, over the 1983 biennium.

A .5 FTE data entry operator was deleted from the budget.

Five modifications were added to the budget with the following costs:

|                    | 1984      | 1985     |
|--------------------|-----------|----------|
| FTE                | 5.50      | 5.50     |
| Personal Services  | \$ 96,377 | \$96,036 |
| Operating Expenses | 34,571    | 36,627   |
| Equipment          | 50,800    | 52,500   |
|                    | \$181,748 | 185,163  |
|                    | =====     | =====    |

1. Four data entry operators were added to enter the data required for the residential property reappraisal effort.
2. An IBM 8100 computer was authorized to allow preprocessing of reappraisal data.
3. A .5 FTE was authorized to allow for a second shift operator of the current computer facilities.
4. Software purchase for the word processing system was approved.
5. A 1.00 FTE programmer was approved to develop new systems for other divisions within the department.

Rent expenses decrease from a budgeted figure of \$163,524 in fiscal 1983 to \$72,458 in fiscal 1984 and \$77,671 in fiscal 1985 as a result of the division purchasing computer equipment in fiscal 1982 instead of leasing. Rent expenditures were \$68,453 in fiscal 1982.

Training-related expenses consisting of travel and registration fees increased \$5,327 in fiscal 1984 and \$5,385 in fiscal 1985.

Equipment authorized in fiscal 1984 includes \$21,414 for the final installment payment on data entry equipment.

The revolving fund consists of liquor funds which are used to support the data processing systems that pertain to the Liquor Division.

The legal and investigation program provides legal assistance to all programs in the department. It also handles the investigation of welfare and medicaid fraud and enforcement of the state's liquor laws.

General fund increases 13.8 percent, or \$89,785, over the 1983 biennium.

A 1.00 FTE para legal and a .5 FTE administrative aide were added to the LFA current level in 1984 and 1985. A clerical position was eliminated by the department in fiscal 1985 as the new word processing system will increase productivity.

These liquor and welfare fraud investigators were added. Funding is split 50/50 general fund/federal funds for the program.

In operating expenses, contract services was increased \$1,500 per year for Westlaw. In supplies and materials, \$2,984 in fiscal 1984 and \$3,163 in fiscal 1985 were added for gasoline to fund auditors travel and for books.

Travel was increased \$4,074 in fiscal 1984 and \$4,222 in fiscal 1985 for investigative travel.

Major equipment authorized was a copier each year of the biennium.

## Language:

If the Child Support Enforcement Program is required by a change in federal legislation to pay operating costs from collections, the program is authorized to substitute the Child Support fees and collections for the federal appropriation up to the total amount authorized by the Legislature for operations in the 1985 biennium.

In the event established cut-off dates related to the change in funding do not allow for adequate funding of the operating costs from fees and collections, the Department of Administration is authorized to make a loan to the Child Support Enforcement Program from the general fund. The loan shall not exceed an amount equal to deposits made by the Child Support Enforcement Program to the General Fund for the six-month period prior to the funding change and must be paid back within two years.

Comments:

General fund increases 42.7 percent, or \$197,925 over the 1983 biennium.

The 1981 Legislature stipulated that if the Child Enforcement Bureau could increase its return to the state from \$1.01 to \$1.05 for every \$1.00 spent, an additional four investigators could be added to the program in fiscal 1983. Child enforcement exceeded its goal by returning \$1.41 for every \$1.00 spent. The committee continued the 4.00 FTE in the 1985 biennium.

Operating expense for contract services, communications, and rent were added for the new investigators. Fiscal 1984 costs are \$21,818 and fiscal 1985 costs are \$23,127. Training expenses were increased to \$3,872 in fiscal 1984 and \$3,874 in fiscal 1985. A modification for \$40,000 was approved to streamline the accounts receivable system for child support. Funding for the program is on a 30 percent general fund, 70 percent federal fund basis.

## RESULT OF HUMAN SERVICES JOINT SUBCOMMITTEE ACTION OF FEBRUARY 5, 1983

### I. Overprojection created by Executive Budget Error in Projecting Future Federal Funds for Current Level Services:

|                                        | <u>FY 84</u>  | <u>FY 84</u><br><u>SUB COM.</u> | <u>FY 85</u>  | <u>FY 85</u><br><u>SUB COM.</u> |
|----------------------------------------|---------------|---------------------------------|---------------|---------------------------------|
| Erroneous Executive Branch Projections | 90,195        | <u>89,765</u>                   | 95,697        | <u>94,506</u>                   |
| Actual Federal Funds to be Received    | <u>67,300</u> | <u>67,300</u>                   | <u>67,300</u> | <u>67,300</u>                   |
| Overprojection                         | 22,895        | <u>22,465</u>                   | 28,397        | <u>27,206</u>                   |

### II. Effect of Executive Budget Overprojection on FY 84 and 85 Budgets Approved by the Subcommittee:

|                                                          | <u>FY 84</u> | <u>FY 85</u>    |
|----------------------------------------------------------|--------------|-----------------|
| Approved Total Budget:                                   | 265,692      | <u>265,262</u>  |
| Less: 5% Inflation                                       | (13,284)     | <u>(13,236)</u> |
| 3.5% Mandatory Vacancy Savings                           | (9,299)      | <u>(9,284)</u>  |
|                                                          | 243,109      | <u>242,742</u>  |
| Less: Executive Budget Overprojection in Federal Funding | (22,895)     | <u>(22,465)</u> |
| Actual Total Budget:                                     | 220,214      | <u>220,277</u>  |
| FY 83 Current Level Funding                              | 228,002      | 228,002         |

FY 84 and FY 85 Actual Budgets represent a net loss in spendable income from FY 83

### III. Consequences of FY 83 Current Level Funding:

1. 5% Staff Cuts
2. Curtailed Travel for Investigations and Conciliations
3. Inability to Complete Hearings
4. Increased Case Backlog
5. Increased Back Pay Liability for Employers due to Increased Delay in Process

Consequences of FY 84 and FY 85 Actual Budget will be worse!!

HIGH RISK OF LOSING FEDERAL FUNDS IN FY 84 and FY 85  
(Funds will be cut off if backlog not reduced)

### IV. REQUEST OF MONTANA HUMAN RIGHTS COMMISSION:

An additional \$22,465 for FY 84 and \$27,206 for FY 85 to correct Executive Budget error. This would result in a reduction in the backlog as opposed to an increase in the backlog and enable agency to keep federal funds.

## MONTANA HUMAN RIGHTS COMMISSION

Federal Fiscal Years 1981 and 1982

Projections: FY 83, FY 84, and FY 85

BASIC CONTRACT

| EEOC                | 81     | 82     | 83     | 84     | 85     |

## PROJECTIONS BASED ON THE FOLLOWING ASSUMPTIONS

- Projections do not include Housing and Urban Development Proposed Modification. Separate contract for housing discrimination minimum impact on case load.
1. Aging inventory contract, which terminates in October 1984, signed. Result: Minimal work on cases not covered by Title VII, ex.: handicap, marital status, areas other than employment. Loss of federal funding, highly likely FY 85.   
 \$22,465   
 \$27,206
  2. Current level funding with General Fund increased to reflect actual income (\$22,895 FY 84, \$28,308 FY 85). EEOC modification. Proposed budget modified to allow addition of .5 FTE hearing officer instead of contracting. No increase in cost. Result: No FTE reduction necessary, increased efficiency. "Backlog" end FY 85: 142. Moderate risk loss of federal funding.
  3. Same as #2. Addition of 1 FTE compliance officer added for biennium only to effectively eliminate backlog. Additional cost \$25,000 per year. Result: "Backlog" end FY 85: 78. Continuation of federal funding.
