MINUTES OF THE MEETING TAXATION COMMITTEE MONTANA STATE SENATE

February 22, 1983

The thirty-third meeting of the Taxation Committee was called to order at 8:05 a.m. by Chairman Pat M. Goodover in Room 415 of the Capitol Building.

ROLL CALL: All members were present.

DISPOSITION OF SENATE BILL 264: Senator Elliott moved that the statement of intent attached to the February 10, 1983 (a.m.) minutes as Exhibit D be adopted. The motion was seconded and carried unanimously.

Jim Mockler, from the Montana Coal Council, explained the amendments attached as Exhibit A to these minutes. Dan Bucks, representing the Department of Revenue, agreed with the amendments. Cort Harrington, the committee's staff attorney, said the amendments met with his approval also.

Senator Crippen moved that the amendments be adopted. The motion was seconded.

Senator Norman asked what the imputed value of a \$5 ton of coal would be. Mr. Mockler said he didn't know off hand.

Senator Towe noted that the value is being set up f.o.b. mine. Mr. Mockler stated that the Department of Revenue asked that that be in there. Mr. Bucks said that when they worked on these amendments, they appended language directly to (1)(b) (see amendment #2 on Exhibit A). An alternative would be to add ", provided that in this case, market value f.o.b. mine means

A vote was taken on Senator Crippen's motion, and it passed unanimously.

Senator Halligan moved that SB 264 DO PASS AS AMENDED. The motion was seconded and passed, with Senator Towe voting no.

JOINT CONSIDERATION OF SENATE BILLS 263 and 335: Senator Towe said SB 335 is unconstitutional because of the retroactive application to refunds. Senator Goodover asked what changes the figures from county to county. Senator Towe said his bill taxes income; Senator Turnage's bill taxes deposits. Senator Towe went through the materials marked Exhibit B concerning banks' deposits and taxes and the differences between SB 335, SB 263, and HB 536. Do you want to tax based on income even though we're talking about property tax, or do you want to tax on the size of the institution, he asked. It would be a mistake to go

back to a tax measure based on the size of property as banks used to be taxed. They should be taxed on income. See also Exhibits C (Bank Taxation) and D (Retrospective Nature of SB 335) submitted by Senator Towe.

Senator Eck, addressing Senator Turnage, said he had indicated that some of the income figures might reflect how a bank treats its income. We have a number of bills which try to capture income which might otherwise be diverted to other states or countries. Senator Turnage mentioned a few banks -- First Interstate Banks, First Bank System, Northwestern Banks.

Senator Norman asked if the committee was supposed to conclude from the MBA poll that bankers prefer one way or the other. Senator Towe commented that a few would prefer Senator Turnage's bill; others would prefer his bill. We do have to make a decision though, he said. He suggested taxing income is the better way.

Senator Towe continued that if the court case is won, nothing happens. If the court case is lost, then SB 335 comes in and says if anybody seeks to exclude federal obligation interest, you have to exclude deductions.

Senator McCallum asked if the U.S. Supreme Court case fails, could the banks go back to the counties and collect. Senator Towe replied that this is a tax collected at the state level for the state. If the banks want refunds, they have to go back to the state. They could go back to 1979 for claims. SB 335 blocks that. Senator Towe said we would know in June if the U.S. Supreme Court will take the case. They probably will decide the case around this time next year.

Senator Turnage requested that SB 335 and SB 263 not be acted on until Monday.

Senator Towe continued, saying that if we look back to the unfair bank share tax, that is where the trouble started. We have to be concerned about local governments. He said SB 335 is the banks' bill, not his bill. SB 263 would treate everybody alike. There are 122 banks who like SB 335. He said he has asked the Department of Revenue to get a historical picture of the loss to local government.

Senator Turnage submitted amendments to SB 263 (attached as Exhibit E) which were incorporated into a grey bill (attached as Exhibit F). He explained that SB 263 with these amendments will include all other institutions which are not banks but which operate as banks. The rate of tax would be nine-tenths of one mill. Banks and savings and loans would be excluded from the corporation license tax, but the other institutions would still have to pay it. If a corporation paying the corporation license tax wanted to start a mutual fund and exclude itself from the corporation license tax, it could. The tax would be distributed like the existing tax is--80% to the counties and 20% to the state. This would be applicable in 1984. This

treats all people equally who are playing the money game. He was not impressed with the claims of no ability to pay. Ιt is easy to push doubtful loans into the charge-off column and affect your tax structure. It is easy to shift profits among sister banks, etc. When we get the figures from the Department of Revenue on Monday, we will have a better picture.

Senator Norman said that one of the disadvantages of SB 263 is that it is not retroactive. If this were the only bill the legislature were going to consider, and say, in the instance of a franchise tax, is there some way to recapture the millions of dollars lost in the past. Could you make the franchise tax higher the first year, then not as high the second year, etc? Mr. Bucks said he would provide that information for the committee on Monday, February 28.

Senator Towe said Senator Turnage's proposal is that everyone will file a claim for refund. You would then be double taxing those who do not file.

Senator Eck asked if John Cadby (MBA) or someone could speak on profitability of banks. George Anderson, Anderson ZurMuehlen & Co., said Senator Turnage is right. Profitability of banks in the future is not going to be influenced as much by deposits as by <u>services</u> those banks might render. If you deposit in a bank any more, you get a money market rate. The question is: What else can they do? -- data processing, tax preparation, and so on.

Senator Gage asked if, with the realization that some banks will be severely punished by this bill, the credit would be limited to everybody but the banks and savings and loans. Senator Towe said he believed the measure of deposits on Senator Turnage's bill was on a quarterly reporting basis. A unified corporation could put money in an out-of-state branch to avoid taxation.

Senator Eck asked Mr. Bucks if they didn't deal with whether or not banks could shift profits to sister banks. Mr. Bucks said it is dealt with under other corporations under combination. The extent to which this shifting occurs to the disadvantage of the state is something I can't answer at this time.

Senator Turnage asked Mr. Bucks to include that in the information to be provided by the Department of Revenue on Monday.

The discussion on SB 263 and SB 335 was closed.

CONSIDERATION OF SENATE BILL 172: Senator Lynch moved that SB 172 be tabled. The motion was seconded and passed unanimously.

DISPOSITION OF SENATE BILL 307: Senator Eck moved that the amendments to SB 307 suggested yesterday be adopted (see February 21, 1983 minutes, page 4). The motion was seconded and passed unanimously.

Senator Elliott asked what the budget was for the University Foundation. Senator Crippen said it was \$150,000 to \$200,000. They have operating expenses and then someone oversees it to make sure the money is being used as the various donors requested. The other aspect is fund raising. We actively solicit funds.

Senator Elliott stated that the fiscal note expects a reduction of \$73,500 annually. This is a much more expensive bill than is suggested by the fiscal note. We have six universities. This is appropriated to the University System through the back door. He supported contributions and the University's efforts, but he didn't think the income tax system should be weakened at the expense of the taxpayers.

Dan Bucks from the Department of Revenue said that, following discussion on the fiscal note, he went back to the Department's research staff and asked if that was what they did. They said no. They scaled it down in two respects -- (1) deduction instead of credit and (2) providing for a significant portion of the contributions coming in from out of state for those who do not have Montana tax liability.

Senator Elliott moved that SB 307 DO NOT PASS AS AMENDED. The motion was seconded.

A roll call vote was taken, and the motion passed 8-7. roll call vote sheet is attached to the standing committee report attached to these minutes. Senator Elliott will carry the adverse committee report on SB 307.

RESOLUTION FOR A TAX CREDIT STUDY: Senator Turnage moved that the committee request from Senator Stephens a resolution for a tax credit study. The motion was seconded and passed unanimously.

DISPOSITION OF SENATE BILL 337: Senator Towe moved that the amendments attached to the February 17, 1983 minutes as Exhibit I be adopted. No second to the motion was made.

Dan Bucks from the Department of Revenue said the question is: What activities can they engage in to get exempt income? Those also included federal securities. It may not be the intent to exempt federal exempt obligations. He said he was not sure if that was the intent, and he wasn't sure if there was a way around it. SB 337 could create major problems if passed in its current form. If we exempt interest from municipal obligations, we may have to exempt federal obligations. There could be constitutional problems now.

Senator Norman moved that SB 337 DO NOT PASS. The motion was seconded.

Senator Towe said the idea is if the state imposes a tax on these funds, you are not likely to get operations to come into the state to do it. SB 337 would encourage organizations to form in this state. What is the problem with letting them set up? If we don't let them set up, there won't be any revenue; if they do set up, the possibility exists that there will be revenue.

Senator Elliott said that the small investor is already getting bonds in his portfolio. They are already in the tax exempt You are helping out D.A. Davidson because they structure. always have bonds available for sale. They can transfer taxable income into a nontaxable situation.

Senator Turnage commented that the mischief was in the 80/20 Senator Elliott thought it should be 90/10 at least. Senator Towe said they could make it 100% if they wanted to. People want a place to put their money for 30 days. This allows them to do it on a municipal basis.

Senator Gage said we are continually giving the W-2 guy a shot in the rear end. We will soon be looking for more taxes, so we will raise the taxes again, and the W-2'er will get it again.

A roll call vote was taken on Senator Norman's motion, and it passed 11-4. The roll call vote sheet is attached to the standing committee report attached to these minutes. Senator Elliott will carry the adverse committee report on SB 337.

DISPOSITION OF SENATE BILL 244: Senator Elliott, suggested using IRS Form 4972 and taking a percentage of the tax on that form. Dan Bucks, representing the Department of Revenue, submitted the amendments attached as Exhibit G.

Senator Towe moved that the amendments to SB 244 attached as Exhibit G be adopted. The motion was seconded.

Mr. Bucks noted that the original fiscal note indicated an additional tax of \$218,000 annually, which was probably figured low. Because there is no filing right now in Montana for this, he said they had to rely on IRS data for small states.

Senator Elliott (Columbia Falls) said only two or three taxpayers in his area are affected by Form 4972. Not too many taxpayers file that form.

Senator Turnage thought SB 244 was an anti-Montana bill. No retirees will come here. We are tearing down the image to be here.

A vote was taken on Senator Towe's motion, and it passed unanimously.

Senator Towe then moved that SB 244 be further amended by adding a codification instruction at the end of the bill to the effect that SB 244 will be codified in Title 15, chapter 30 of the Montana Code Annotated. The motion was seconded and passed unanimously.

Senator Towe then moved that SB 244 DO PASS AS AMENDED. The motion was seconded and passed, with Senators McCallum, Lynch and Severson voting no.

The meeting was adjourned at 9:50 a.m.

Disadvantages:

- 1. Least Fair
 - a. Not based on ability to pay
- 2. Least Equitable
 - a. Some banks pay more some less
 - b. Discriminates against banks and savings and loans
 - c. Can be manipulated
- 3. Does Not Protect Revenue
 - a. Not retroactive to 1979
 - b. Does not address court ruling
 - c. Disrupts flow of revenue some counties gain some lose
- 4. Legally Questionable
 - a. Not a non-discriminatory tax
- 5. Deterent to Economic Growth
 - a. Tends to push large deposits out of state
 - b. Makes Montana banks less competitive with out-of-state banks
 - c. Disincentive to making loans

RETROSPECTIVE NATURE OF SENATE BILL 335

Article XIII, Section (3) of the Montana Constitution only prohibits retrospective laws if they impose a "new liability in respect to transactions or considerations already passed."

Section 1-2-109 MCA recognizes that retrospective laws are permissible and requires that there be an express statement (declaration) that the law is intended to be retroactive.

The Constitution of the United States does not prohibit retrospective legislation, but only those state enactments which constitute ex post facto laws or which impair the obligation of contract or violate the quaranties of the Fourteenth Amendment.

Under SB 335, the method of determining allowable deductions for Corporation License Tax purposes would be given retroactive application to taxable years passed but still open for redetermination of liability by the Department of Revenue or for claims for refund by the corporate taxpayer, only where the taxpayer either makes claim for refund or for audit adjustment to exclude income from federal obligations. Thus, the statute would be applicable only if the taxpayer seeks to reduce its tax liability and makes an adjustment only to recognize the exclusion of income from the computation of that tax liability. In short, the "liability" has not been fixed and is still open to adjustment until the statute of limitations has run. The years 1979-1982 are still open years under the Corporation License Tax Act.

Respectfully report as follows: That Statement of Intent, Senate Bill No. 264 be adopted.

STATEMENT OF INTENT RE: SB 264

It is the intent of SB 264 to give the Department of Revenue authority to adopt rules to impute the market value of coal prior to drying, cleaning or processing designed to improve the quality of the coal. The rules adopted shall:

- 1. Allow the taxpayer to pay applicable taxes based on market price of like coal prior to processing.
- 2. Impute market price regardless of whether the processing takes place at the mine site or not.
- 3. Reflect that the intent is to exempt said processing from applicable taxation.
