The motion PASSED.

Senator Christiaens made a motion to accept the subcommittee's recommendation for total funding of \$300,000 in FY86 and \$300,000 in FY87.

The motion PASSED.

Peter Blouke then told the committee how they stand in relation to the money they have spent so far is close to half of a billion dollars. The total current level for the 1987 biennium is \$462,910,486; and the total modified for FY86 is \$5,467,990, and the total for FY87 is \$6,813,146.

Peter Blouke discussed the Legacy Legislature and the issue of it being in the Social Services program that overlaps both bienniums. The total of it is now \$5,000, and the department would like it to be a biennial appropriation.

Senator Christiaens made a motion that this \$5,000 be a continuing appropriation with the money put into FY86 and carried over into FY87 what is left for the Legacy Legislature.

Discussion followed concerning having these funds matched by giving them half of the money, and to make them raise the other half.

Senator Christiaens made a substitute motion that the committee cut the original appropriation for the Legacy Legislature from \$5,000 to \$2,500.

The substitute motion PASSED with Representative Rehberg & Senator Story voting NO.

The original motion PASSED.

Senator Christiaens made a motion to accept a 10 percent transfer from the Developmental Disabilities program to the weatherization program, and 10 percent from the DD program to the Social Services Block Grant.

The motion PASSED with Representative Rehberg voting NO.

Senator Manning made a motion to the effect that since the committee has established an appropriation level for the LIEAP grant previously, a corresponding amount will be reverted to the general fund in the event that the grant comes in at a higher level than anticipated.

The motion PASSED.

Senator Christiaens made a motion that the Developmental Disabilities Planning & Advisory Council grant funds be restricted to direct services under the guidance of the council.

The motion PASSED.

Peter Blouke discussed the issue of costs of medical examinations in the DD program that are provided under contract with the economic assistance division. It is a medicaid contract and is approximately a 50/50 federal and general fund split. He said the current bill limits the amount of the medical examinations to no more than a six percent increase over the estimated 1983 costs. He said similar language could be placed in the appropriations bill that would restrict the cost of the medical exams to 4.5 percent over the 1985 estimated cost, and 5 percent over the 1986 cost.

Senator Story made a motion to put the mentioned language in the appropriations bill that Peter discussed previously.

The motion PASSED.

Discussion followed concerning the Priorities for People process and how costly it was to fund, and the prioritization of people's needs.

Chairman Winslow pointed out that the churches, businesses, and other private groups should get involved in this needs process, and not just the government.

Peter Blouke discussed the issue of the difference of the credits in the two budgets in the foster care program. He said that the committee adopted the credits that were identified in the executive request, with the understanding that the difference between the two budgets would be reverted to the general fund.

Senator Christiaens made a motion to include the above language to that effect in the appropriations bill.

The motion PASSED.

Peter Blouke discussed the issue of language that is currently in the appropriations bill that states that no funds or FTEs may be transferred into or out of the Eligibility Determination program or the Disability Determination program.

Discussion followed concerning the department wanting the flexibility to transfer those FTEs.

Representative Rehberg made a motion to keep the above language in the appropriations bill.

The motion PASSED with Senator Manning voting NO.

Peter Blouke gave the committee a copy of language concerning the medicaid program (EXHIBIT 13). The committee decided to establish a contingency fund as a continuing appropriation that is in the 1986 base. This is language that would allow for establishment of parameters on which the department could access those funds.

Dave Lewis said it would be very difficult for the department to keep track of the specific reasons that the people have been found to be eligible. He objects to the part of the language that states this. There is documentation that shows this anytime someone would want to find this information.

Senator Christiaens made a motion to strike from the language in EXHIBIT 13 the following sentence: "Prior to expenditure of these funds, the department shall document that the costs are attributable to (a) the 185 percent need standard; (b) 9 month disregard extension or; (c) to changes in eligibility for children and pregnant women."

The motion PASSED.

The meeting was adjourned at 7:59 a.m.
