

MINUTES OF THE MEETING
TAXATION COMMITTEE
MONTANA STATE SENATE

January 19, 1985

The tenth meeting of the Senate Taxation Committee was called to order by Chairman Thomas E. Towe at 8:05 am in Room 413-415 of the Capitol Building.

ROLL CALL: With Senator Severson excused all members of the committee were present.

FURTHER CONSIDERATION OF SB 48: Chairman Towe recognized Greg Groepper, Administrator of the Property Assessment Division, to discuss the fiscal note on SB 48. Mr. Groepper proceeded through the document explaining the Department's assumptions to the committee.

Questions from the committee were called for.

In response to a question from Senator Towe, Mr. Groepper said that additional depreciation is tempered with sales to arrive at market value.

Senator Goodover asked why some felt it urgent to decouple commercial and residential property. Senator Towe answered that if it was not done we would face law suits like the 34 percent cases; that commercial taxes would increase to subsidize residential taxes, and that annual appraisal made necessary by the railroad problems would be very costly if extended to residential property.

Senator Goodover then recited a list of business closures within the last two weeks. He said that the tax base is already being eroded and that decoupling would send further negative signals to businesses in Montana.

Consideration of the fiscal note continued. Senator McCallum was recognized and asked Dennis Burr of the Montana Taxpayers Association to give examples of the results of separating commercial and residential property tax. Mr. Burr said that decoupling would only perpetuate the inequities in which case the system could be left alone.

Senator Mazurek asked Mr. Groepper to return to the committee with estimates on the increased market value in the commercial and residential classifications. He said the consideration was whether there would be minimal impact at this time or set in place a system that would be fair from this point forward.

Dennis Burr said that commercial values creep up and thus, if decoupled, their classification rate would decline while the one for residential would go up. He said that would hurt main street businesses and likely be politically untenable.

Senator Brown asked Mr. Burr to comment on the issue of the 34 percent cases. Mr. Burr said those cases grew out of a manual

January 19, 1985

disparity when the Department used a 1972 manual for residential and a 1976 manual for commercial property. The court ruled that the basis for a complaint, however, was the tax assessment itself, and not the date of the manuals used.

In response to a question by Senator Eck, Senator Towe said that if reappraisal is done every year and that if the categories are kept together, it would mean doing 500,000 separate appraisals rather than only 44,000.

Senator Towe discussed four bills on the same subject by Representative Rameriz. He also gave the committee additional amendments to SB 48.

Keith Anderson, President of the Montana Taxpayers Association, gave the committee a handout comparing taxation rates in different states (Exhibit 1).

MOTION: Senator Goodover moved that SB 48 be tabled until Representative Rameriz could give the committee more information on his bills in person.

Senator Mazurek spoke against the motion as unnecessary because Senator Towe had already told the committee there would be no votes on SB 48 at this time.

With Senator Goodover voting yes, Senator Severson excused and all other members voting no, the motion failed.

Senator Towe adjourned the meeting at 9 am.

MONTANA TAXPAYERS ASSOCIATION

The Montana Taxpayers Association is a non-profit, nonpolitical, statewide organization working for sound, efficient, solvent government at a price the people of Montana can afford and are willing to pay. MONTAX is the only organization in the state devoting full time to executing a well planned program of education, legislation, and public relations. Citizens throughout the state concerned with the cost of government, support this vital work through voluntary memberships.

THE MONTANA TAXPAYERS ASSOCIATION

Acts to offset pressure groups contriving added government services, and costs, for their own particular benefit.

Audits county, city and public school property tax levies in Montana for legality and accuracy.

Provides assistance to association members, and to state and local officials, through factual studies of the cost of state and local government.

Provides expert legislative testimony on behalf of members on taxation and expenditure issues.

Has a Speakers Bureau and sponsors statewide tax seminars and meetings for Association members.

Issues a wide range of publications--hand books, membership bulletins and special tax studies.
