

MINUTES OF THE MEETING
BUSINESS & INDUSTRY COMMITTEE
MONTANA STATE SENATE

February 13, 1985

The twentieth meeting of the Business & Industry Committee met on February 13 in Room 410 of the Capitol Building at 10 a.m. The meeting was called to order by Chairman Mike Halligan.

ROLL CALL: All committee members were present.

CONSIDERATION OF LC1861-01 FOR COMMITTEE BILL: Motion was made by Senator Williams to introduce LC1861-01 as a committee bill. The motion carried. Senator Williams will carry the bill.

CONSIDERATION OF LC1862-01 FOR COMMITTEE BILL: Motion was made by Senator Thayer to introduce LC1862-01 as a committee bill. The motion carried. Senator Thayer will carry the bill.

CONSIDERATION OF SENATE BILL 306: Senator Jack Haffey, Senate District 33 of Anaconda, sponsored this bill at the request of the Economic Development Board. He explained the board has developed quite a large loan portfolio and this bill would provide audits through the state bank examiners for purposes of determining the quality of the loans.

PROPONENTS: Dale Harris, Deputy Administrator of the Montana Economic Development Board, explained they are very comfortable with the legislative audit and with the size of the loan portfolio now they feel it should also be examined by the state bank examiners for an independent opinion. There is a fiscal note which estimates the cost of an audit would be \$2700 per year but they have this included in their budget proposal before the legislature now.

OPPONENTS: There were no opponents to Senate Bill 306.

Questions were then called for from the committee. Senator Fuller wanted to know if there were any other state agencies doing this type of audit. Dale Harris explained that the constitution requires an annual audit of agencies but they are the only agency requesting this particular type of audit. When asked about the housing board loans he was told these are different because they are guaranteed by a federal agency and there is no risk with those loans. He also explained they administer the coal tax loan program, pool industrial revenue bonds loans and the pool municipal bond act. This audit would apply to all three. Senator Haffey closed by stating that research should be done to make sure the bank examiners have the power to charge for doing an audit. The hearing was closed on Senate Bill 306.

CONSIDERATION OF SENATE BILL 335: Senator Richard Manning, Senate District 18, Great Falls, is the sponsor of this bill. It would require contractors to be registered and post a surety bond at the time of registration and require proof of registration prior to receiving a contractor's discount or it would be a misdemeanor. He felt this would provide protection to the consumer, lumber yards, merchants and the workers themselves. (EXHIBIT 1) He distributed a statement of intent along with his testimony. (EXHIBIT 2)

PROPOSERS: There were no proponents to Senate Bill 335.

OPPOSERS: There were no opponents to Senate Bill 335.

Questions were then called for from the committee. Senator Gage felt every person in the state might be in violation of this act should it pass. Senator Manning stated it was mainly directed at those people who do home repairs and quickly go through an area before their creditability can be checked out. He further explained the contractor would have to register through the Department of Commerce in Helena and they in turn would notify local authorities whether or not a contractor was licensed. Senator Thayer felt this should be a local enforcement issue and not the Department of Commerce to try to administer. Senator Weeding wanted to know how you distinguish between a contractor and a handyman. Senator Kolstad wondered if a handyman might be under a misdemeanor if he was not registered and Senator Manning admitted this might require some investigation. Senator Manning stated that other contractors have been testifying on a bill currently in administration and that they feel that this is an area that should be addressed. The hearing was closed on Senate Bill 335.

CONSIDERATION OF SENATE BILL 343: Senator Mike Halligan, Senate District 29, Missoula, stated this bill provides for a five year statute of limitations for public contractors fees and tax. It was an oversight in 1983 legislation not to include this. The state has been doing this anyway and this would be just a clarification.

PROPOSERS: Bob McGee from the Department of Revenue stated no one will be restricted in any way, that it was just an oversight last session and they would like to see the law on the books for their protection as well as for the consumer.

OPPOSERS: There were no opponents to Senate Bill 343.

Questions were then called for from the committee. Senator Halligan stated this just codifies to make uniform the statute of limitations with other state taxes. The hearing was closed on Senate Bill 343.

DISPOSITION OF SENATE BILL 343: Senator Thayer moved that Senate Bill 343 DO PASS. Motion carried.

DISPOSITION OF SENATE BILL 335: Senator Goodover made a motion to TABLE Senate Bill 335. The motion carried.

CONSIDERATION OF SENATE BILL 252: A short discussion on whether or not there have been some amendments proposed for Senate Bill 252. Mary McCue had talked with Mike McGrath and they are suggesting that the committee expand the investigative demand power of the county attorneys and take it out of the Department of Commerce entirely. She would do more research and get back with the committee.

CONSIDERATION OF SENATE BILL 317: Senator Dorothy Eck, Senate District 40 of Bozeman, introduced this bill at the request of the Public Service Commission. It will allow the PSC to issue an order to show cause why a particular action of a public utility should not be prevented pending consideration of the action by the commission. It was prompted by litigation against Montana Power last year. It would also allow them to issue a temporary injunction.

PROPOSERS: Eileen Shore, Attorney for the PSC, stated this did come about because of litigation with Montana Power. She explained the history of the court case. (EXHIBIT 3) They drafted this legislation to address the issues raised by the court decision. They feel they need this protection for their future investigations.

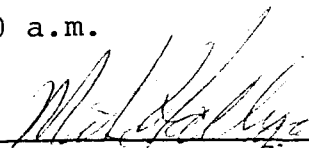

OPPOSERS: John Alke, Montana Dakota Utilities, is opposed to this bill because it is an attempt to give the PSC the power to issue injunctions. This is extraordinary power which can now only be issued through the courts. He feels this bill is a very broad and fundamental departure from the concepts of government, justice and fairplay. He feels the PSC is unsituated to seek injunctive relief. Mike Zimmerman, Attorney for Montana Power Company, is also against this bill because they feel the PSC is overreaching their power in trying to pass this legislation. He feels the judicial power should remain in the courts. (EXHIBIT 4) The Supreme Court decision which led to this legislation stated that the power should remain with the courts. He feels it would upset the traditional balance of power the court system now has. Gene Phillips, with Pacific Light and Power, Kalispell, feels this offers sweeping power to the PSC compared to what they have now. It would make the PSC the prosecutor, the judge, jury and the hangman. Dennis Lopach, representing Mountain Bell, submitted testimony against Senate Bill 317 urging defeat also. (EXHIBIT 5)

Questions from the committee were then called for. Senator Fuller wanted to know if any other executive branch has this authority and was told only on rare occasions. Senator Fuller wanted to know if this was drafted because of the court decision.

Senator Gage asked Eileen Shore if this was a unanimous decision to draft this measure and she stated that it was. Senator Halligan felt the measure was more of a cease and desist type of order. Eileen Shore felt they were just buying time. Mike Zimmerman feels the district courts should have the jurisdiction and if the PSC has evidence they should take the matter to court. Senator Goodover felt they have that recourse now. Greg Obert, PSC commissioner, stated they feel they need the protection of this measure. The hearing was closed on Senate Bill 317.

DISPOSITION OF SENATE BILL 250: There were some amendments proposed on Senate Bill 250 which the subcommittee had worked out. (EXHIBIT 6) Senator Christiaens explained they had taken out the section on reinsurance. There was also some concern about the way the realtors assessed sums yearly. They decided to replace this with "the ability to raise additional funding to keep the minimum at \$100,000." It was noted there were opponents to this bill and also several realtors present who felt that it was a good measure. The bill as amended would allow the board to levy whatever they felt was necessary to keep the level at \$100,000. Senator Kolstad stated it was a very good possibility they might have to replace this fund many times a year. Senator Goodover stated there are some states that make this available as an option to the realtor. Senator Gage felt they were just trying to subsidize the bad realtors. Senator Gage then moved that Senate Bill 250 DO NOT PASS. On a roll call vote the motion to DO NOT PASS prevailed 6 to 4 with Senator Halligan, Senator Christiaens, Senator Fuller and Senator Williams voting no.

The meeting was adjourned at 11:30 a.m.

Mike Halligan, Chairman

COMMITTEE ON

VISITORS' REGISTER

[illegible]

SENATE BILL 335

THIS BILL IS AN ACT TO REQUIRE CONTRACTORS TO BE REGISTERED AND TO PASS A SURETY BOND.

THE REASON FOR THIS BILL IS TO PROVIDE PROTECTION TO THE CONSUMER, LUMBER YARDS, MERCHANTS, AND WORKERS WORKING FOR THESE CONTRACTORS.

OVER THE COURSE OF YEARS, THERE HAVE BEEN MANY INCIDENTS WHEREBY OUT-OF-STATE, OUT-OF-CITY, AND FLY-BY-NIGHT CONTRACTORS HAVE LEFT TOWN WITH THE JOB NOT DONE OR DONE BADLY: OR BILLS FOR MATERIALS, SUPPLIES, OR WORKERS UNPAID.

SEVERAL CONTRACTORS AND SUPPLIERS ASKED ME TO SUBMIT THIS BILL TO PROTECT THE PUBLIC AND THE CONTRACTORS FROM THIS ABUSE. THIS BILL MIGHT NOT BE THE WHOLE ANSWER, BUT IT DEFINITELY IS A STEP IN THE RIGHT DIRECTION.

49th Legislature

LC 1296

STATEMENT OF INTENT

_____ BILL NO. _____

A statement of intent is required for this bill because it authorizes the department of commerce to adopt rules governing the act and establishing a registration fee.

- (1) Rules adopted by the department should include:
 - (a) adopting an application form for registration;
 - (b) a method of proof of registration, such as a card; and
 - (c) setting of fees to cover the costs of administering registration.
- (2) The department may adopt rules concerning:
 - (a) the type of security in lieu of a bond it will accept;
 - (b) a method for receiving notice from a surety company that a bond has expired;
 - (c) notification of a contractor that his registration is suspended; and
 - (d) enforcement of the provisions of the act.

SB 317

POSITION STATEMENT

The bill grants the Public Service Commission specific authority, under Section 69-3-103, MCA, to issue orders preventing public utilities from undertaking particular action until the Commission has considered the regulatory impacts of the action.

When the Commission learned in 1982 that the Montana Power Company intended to take the steps necessary to reorganize, through the creation of a holding company, the Commission ordered the Company to cease such actions pending a PSC investigation into the reorganization. Litigation ensued concerning the Commission's order.

In Montana Power Company v. Public Service Commission, 40 St. Rep. 1712 (1983), the Supreme Court questioned the manner in which the Commission had prevented Montana Power from reorganizing.

This bill addresses the Court's concerns by providing specific statutory authority for the Commission to prevent a utility from taking action, and a procedural process to be followed.

The bill provides that the Commission may issue an order to show cause to a public utility when the Commission believes that a utility is going to undertake action that should be prevented.

An order to show cause provides the utility with an opportunity to come before the Commission, and present a case for why the Commission should not prevent the utility's proposed action. If the utility successfully convinces the Commission, the Commission terminates the show cause order. If the utility is unsuccessful, the Commission determines the appropriate administrative proceeding to gather the information necessary to determine whether the utility can be allowed to proceed or not. In the majority of instances, a Commission investigation proceeding will be appropriate, but it is also possible the issue could be made a part of a pending rate case.

The bill also authorizes the Commission to issue a temporary order to show cause. The temporary order would be used when the utility's action is imminent and the Commission believes it must immediately stop the utility from acting or it will be too late to question the activity at all. When a temporary order is issued, the statute requires the Commission to conduct a show cause hearing within ten days of the issuance.

The Commission believes the authority provided by this bill is necessary for the Commission to carry out its functions as a public utility regulator. If a utility is about to take action that may adversely affect ratepayers, or the Commission's ability to regulate, a procedure must be available for the Commission to prevent the action until further information on the impacts can be obtained.

Comments:

- ① The power to issue "an order to show cause to prevent" is an injunctive power.
- ② An injunctive power is a judicial power, constitutionally vested in courts.
- ③ Tit 69 reflects a consistent pattern of intent ~~that~~ that pub util law be enforced thru courts.
- ④ Given complete access to courts, PSC does not need this extraordinary judicial power.

EXHIBIT 4
BUSINESS & INDUSTRY
February 13, 1985

2/7/85

Senate Bill 317

This bill would grant the Public Service Commission a power that so far has been reserved to the courts in Montana. The injunctive power the PSC is seeking is a power it does not need and that it should not have.

This drastic power is not needed because the PSC has complete and unhindered access to the courts. The PSC thus has the means to stop a utility from undertaking a proposed action that it perceives to be harmful to rates or services. The Montana Supreme Court agrees.

On March 1, 1982, MPC informed the PSC that the Company intended to present a reorganization plan to its shareholders. After the announcement, the PSC attempted to exercise the injunctive power they are now seeking. Not only did the Supreme Court say the PSC doesn't have this power, but it said it wasn't necessary for the PSC to have it. The Supreme Court said the PSC could have taken the matter to district court and sought an injunctive order. The Supreme Court said that adequate means to enforce public utility law are found in the court system and the PSC had not shown any need for the extraordinary judicial power it was claiming.

Article VII, Section 1 of the 1972 Montana Constitution vests judicial power exclusively in the courts. The legislature, in enacting the PSC's statutory authority, recognized this fact when it said in Section 69-3-103 that nothing in Title 69 would "be construed as vesting judicial powers on ... [the]

commission." Further, the legislature made this recognition when it provided in Section 69-3-110(5) that the PSC could compel public utility compliance with the provisions of Title 69 by bringing legal actions seeking mandamus, injunction, or other civil remedies. Clearly, if the legislature were to vest the PSC with this extraordinary judicial power, basic constitutional principles would be violated. This bill should not be passed.

For: The Montana Power Company

By: Michael E. Zimmerman

MOUNTAIN BELL PUBLIC AFFAIRS DEPARTMENT
SENATE BILL NO. 317

This bill goes so far beyond any power reasonably necessary to the regulatory process that Mountain Bell must strongly urge its defeat. The PSC is seeking the authority to issue injunctions against utility activities that it may disagree with. Apparently it is not enough that the PSC can now go to the District Court and seek an injunction. Instead, the PSC seeks itself to exercise this function, despite the exhortation in 69-3-103 (1), MCA, that "nothing in this chapter shall be construed as vesting judicial powers on said commission..."

An injunction is an extraordinary order by a court which usually serves to prevent an action or to preserve a set of circumstances until a judge can decide if the defendant's impending action is contrary to law. The power the PSC seeks goes far beyond the power vested in any Montana court. The PSC wants authority to order an action stopped if it

"(i) will harm or threatens to harm the public health, welfare, and safety;

(ii) may be unlawful under this chapter;

(iii) will affect the ability of the commission to ensure reasonable rates..."

or any combination of these conditions. While (ii) looks like an injunction standard (unlawful action), the other criteria are subjective. Whatever actions a majority of the five Commissioners view as detrimental to the public's interest in essence become unlawful. Unfortunately, a utility's management has no way of knowing what views that majority may hold.

Senate Bill No. 317

Continued

Additionally, the utilities cannot guess what activities might become illegal when an election is held and the PSC's membership changes.

If this bill is passed and approved, objective standards of law and behavior for the utility industry will be gone and replaced by standards which no one could predict. The utilities would be forced at every turn to anticipate the views of a political body whose attitudes and decisions are, by its own admission, largely responsive to changing public attitudes. Those views are also very subject to change, as are most views on public policy issues.

The PSC, Mountain Bell believes, can point to no circumstances or events that prevent it from using the courts like other institutions in society. The PSC has no need for judicial powers of its own.
