

MINUTES OF THE MEETING
BUSINESS AND LABOR COMMITTEE
49TH LEGISLATIVE SESSION
HOUSE OF REPRESENTATIVES

March 26, 1986

The meeting of the Business and Labor Committee was called to order by Chairman Bob Pavlovich on March 26, 1986, at 2:30 p.m. in Room 312-3 of the State Capitol.

ROLL CALL: All members were present with the exception of Reps. Kitselman and Schultz who were excused by the Chairman.

CONSIDERATION OF HOUSE BILL NO. 14: Rep. Jerry Driscoll, District 92, sponsor of the bill, presented it to the committee. He explained the bill and stated that the Legislature last year set the policy that they didn't want state liquor stores closed. The Revenue Oversight Committee asked the department not to close. The only cost to reopening is the freight back from the warehouse to the store. They are still paying the lease and paying their employees. The contract the employees have is that they have 15 days' notice and they are still sitting at home collecting pay.

PROPOSERS: Rep. Budd Gould, District 61, Missoula, passed out an amendment, which is attached as exhibit 1. When the department looked at the stores in Missoula, it was decided that the Lolo store was to be closed. This store has done a fantastic job, and it is one of the few stores in the state that has had increases in sales. People are convenience oriented. Letters have gone out to people that have liquor stores to lower their margin from 10% to 8%. After the legislature passes this, which I hope that you will, a way to get around the agency stores is to drop to 2%. One of the things this committee should be aware of is that the agency liquor stores are looking at the same problems as Rep. Brown's bill is. They are being treated the same as a tavern as far as liability is concerned. We should have a set contract and it is something the legislature should be looking into. Rep. Simon may go to the idea of Oregon's all-agencies type of stores. And we should be looking at the amount of profit that those stores should be making.

Rep. Harrington of District 68, Butte, stated he came to support HB 14, as this is a very important piece of legislation because it gives the Legislature the opportunity to tell the department of revenue that we want something to say about running the liquor stores in Montana. The revenue oversight committee has voted unanimously to wait until the next session before closing any liquor stores. The director of the department of revenue said he would do whatever he wanted to do. Rep. Harrington stated he was in favor of the amendment by Rep. Gould, and hoped the committee would adopt

this amendment. It is important to keep the liquor stores open in the state of Montana. There are leases that only run from month to month, and this is an issue that came up before the revenue oversight committee. Rep. Harrington asked the committee to give this bill a Do Pass, and take it to the next legislative session and give it a lot of consideration.

Senator Manning also appeared as a proponent and stated he is an employee of the State Liquor Division. The original bill came about because of the closing of a store in Great Falls. He stated he had gotten many phone calls from people who are upset because they were not able to give their opinion on this issue.

Rep. Nelson of District 6 stated he had received a telephone call from Tim Birk of Kalispell, and asked Mr. Birk to give his testimony. Mr. Birk read his written testimony, exhibit 2, which is attached. He stated store 195 in Kalispell is one of the stores which was closed and asked the Liquor Division to reconsider the decision to close profitable stores.

Rep. Marks of District 75 stated he was not appearing as either a proponent or an opponent. He submitted a letter from the Legislative Auditor, Scott A. Seacat, which is attached as Exhibit 3, along with a review of support for liquor store closures by the Department of Revenue. As far as the figures the Department gave them are, the calculations are sound. He stated he was not defending the Department, but thought the committee might be able to use the information.

Don Judge, representing the Montana AFL-CIO, stated this is a foul time to take this up, very inappropriate to do this at this time. He further stated Rep. Gould's amendment should be approved by the committee.

Rep. Paul Pistoria, District 36, Great Falls, also appeared in support of the bill. He stated he never thought this bill would ever come up, and that he attended the Oversight Committee. He said he challenges anyone, especially the Governor and John LaFaver where they could compare 2% with revenue. It is just like earmarking funds. He stated he is against closing of stores, as right now it is the only thing that is giving revenue, and suggested telling the Governor and John LaFaver to take orders from the Legislature. He asked that this bill be passed and do a favor to the people of Montana. Rep. Pistoria submitted written testimony (Exhibit 4) of his testimony before the Revenue Oversight Committee on February 21, 1986. This is attached.

Patti Scott, co-owner of the building that leases the state store in East Helena, appeared as a proponent of the bill. She presented written testimony (Exhibit 5) asking for support of this legislation and to stop Mr. LaFaver from closing of the liquor stores. She felt this is a decision for the Legislature to make, not a monthly paid state employee. Senator Fuller is going to be meeting with the committee on audits. There are so many other options other than closing the stores. She further stated that she feels the reason her store was closed is that they were so vocal in opposing the plan, and they wanted them out of the way. She finished by saying that if the Legislature supports this bill, it is saying that they will wait until the 1987 session to vote on it.

Ray Trudel of the United Food & Commercial Workers International Union, appeared as a proponent of HB 14. They have displaced nineteen or twenty employees, six or seven will be transferred to other stores and will have reduced hours. It is contrary to the Governor's "Build Montana" by putting people on welfare. He does not agree with the reasoning for some of the stores closing, especially those stores that are showing profit.

Mike Grunow, the Lolo agent, appeared in support of the bill. He provided written testimony which is attached as Exhibit 6. This shows that his store has produced almost \$1/2 million revenue to the state, and he felt it was not very good business to close his business. He stated that the problem is that two or three people in Montana have said he is expendable, and that it is not fair that they have the right to control someone's livelihood. He also presented a petition with over 1,400 signatures from people who want his store to remain open (Exhibit 7). In closing he said he has always heard that the small businessman is the backbone of this state, and that the legislature would lose a lot of pride from their constituents if they let this happen. He proposed that this be addressed in the 1987 Legislature.

Robert VanDerVere, representing himself, also appeared in support of HB 14. He stated he does not drink, but the liquor stores are making a profit for the state. He asked that this bill be passed as the state needs the revenue.

Hal Bevins of Walkerville, appeared in support of HB 14. He said Walkerville is an incorporated city, and he doesn't think it was really looked up which store should be closed. It is the only store in the area that has handicapped parking. They have only got four businesses up there now.

Dan Faulkner, Agent, Walkerville Liquor Store, presented

written testimony (Exhibit 8) in support of HB 14. He said that in two years he had converted the store to a profitable one. He is open six days a week - he is open on Mondays. It is a convenience to the public, and Mondays are the best days, but no one seems to be listening when he says Mondays are the best days.

OPPONENTS: John LaFaver, Director of the Department of Revenue, appeared in opposition to HB 14. He presented written testimony, which is attached as Exhibit 9. He stated that it is true that the Department is earning a profit. Thirteen years ago they started a slide, and liquor profits have fallen every year. The liquor system has worked hard within the confines they had to keep it from falling. He further stated he sympathizes with the sponsors of the bill, and the people outnumber him 20 to 1. It is not a happy situation. These kinds of decisions will be presented in a statewide way.

There were no further opponents to HB 14. Rep. Driscoll closed by asking the committee to put this off until the 1987 session to address it. There were a lot of laws passed in the last session on drunk driving and they caused the liquor sales to decline. HB 500 said a 13% profit must be made. It is a policy decision and there are a lot of businesses in the state making money. People are getting laid off, they are scared, and they have no other place to go.

DISCUSSION OF HOUSE BILL NO. 14: Rep. Simon asked Rep. Driscoll if Page 2, line 5 suggests that every time the Department wants to close a store, the Legislature would have to take each one at a time, and approve each one individually. Rep. Driscoll replied that something has to be done in the 1987 session, different than the last session, and felt it was important to wait until the next session so that the situation could be reviewed.

Rep. Simon then asked Patti Scott if during the last four years she had some information that the state did an analysis of her store, and that if it had been an agency store it would show more profit. Ms. Scott replied yes, that if it were an agency store, they could have given more profit to the State, and that she doesn't know why they didn't let them become an Agency store vs. a State store.

Rep. Simon asked her how many square feet she had in her store, and she replied 2,500, with a total sales of \$296,000 for FY 1985. Rep. Simon also asked the gentleman from the Lolo store the same question. Mr. Grunow replied that he had 1,000 square feet, with total sales of \$383,000 for FY 1985.

Rep. Simon asked Mr. LaFaver if all the assumptions made on the auditor's analysis are correct, and he also wanted to know what happens to the leases that are on the existing stores. Can the Department just cut them off? Mr. LaFaver stated that there is a provision that the state has a thirty day out if they are not going to operate a liquor store. The Department has to lay out the rationale. From a legal standpoint, most of the leases can be stepped out of with a thirty-day notice.

Rep. Simon then asked if the Department is proposing to change Agency stores from 10% to 8%, how many stores would survive. Mr. LaFaver replied he hoped all would be able to. There might be some that might have to combine with a grocery store.

Rep. Simon also asked why the Department chose the Walkerville store in lieu of the Butte #2 store. Mr. LaFaver replied that instead of closing two stores in Kalispell, Helena, Butte, they closed only one in those areas. They listened a lot to the letters and phone calls they received, and there was much more concern with closing the uptown store. If any store should close, it should not be that one.

Rep. Simon said he had heard testimony in Rep. Quilici's committee on how important it was to keep Walkerville open. Mr. LaFaver replied that closing the Walkerville store improves the profit picture in a big way. The public would be much more inconvenienced by closing the uptown store than the Walkerville store.

Rep. Simon asked what sort of liability the Department has for their employees, and what sort of requirements will they have. Mr. LaFaver replied that when they have a reduction in force, these people have a priority in terms of state-wide. The Department has been able to find work for most of those people. They have laid out that same sort of commitment to those people involved here.

Rep. Simon also asked how many Agents can survive on 8%, to which Mr. LaFaver replied that he can't answer.

Chairman Pavlovich adjourned at 4:00 p. m., and told the committee they would reconvene ten minutes after the Floor is adjourned for the day.

Rep. Harrington wanted it known that he did not want either store to be closed.

The meeting was called back to order at 5:00 p. m.

Rep. Thomas commented to Mr. LaFaver about the Missoula stores, and stated he had made it clear to the Department of Revenue that he feels cutting profit back to 8% is the

wrong way of going about it. That by going through with the 8% commission, it would bring the Lolo store within the same ration as the two Missoula stores. He wished one of the two Missoula stores could have been closed. It would have been more cost effective than the Lolo store. The problem with the Lolo store is that it is being taken out of a community. There is a demand, and now it is not available there. Everyone of those towns are a separate entity. The store is in a perfect spot and is building into a nucleus. If the commission cut goes through, it is negligible for a small community.

Mr. LaFaver answered that the bottom line is that profits are falling and if the Department doesn't do it soon, it is going to be every store in the state. If the stores don't make a profit, there won't be a liquor system. Within three to four years they will be out of business and it won't be just the seven stores, but all the stores.

Rep. Thomas said his question was what would we go to, would we go to an Agency store? Mr. LaFaver replied no, that only the state of Oregon has done this and they are very unhappy with it. The entire system has very serious problems. The alternative from a cost effective standpoint that would make any sense is to go to Wyoming, where the state wholesales and the bars and taverns are the only sellers of liquor.

Rep. Bachini asked Mr. LaFaver if it is possible that the Department will have a liquor store operating at a lower percentage than they are now. Mr. LaFaver answered that there are two types of stores. Some of the stores that they are recommending to close have a higher profit margin than others. They are going to do everything they can to operate the system. When looking at multi-outlet towns where there are only five blocks from one store to the other, that is where the sales would migrate to other stores. You can't use as a criteria only profit but you have to see where the store will move to.

Rep. Bachini then asked Mr. LaFaver what he considers an inconvenience to the public as to mileage to go to the liquor store, and what is the Department looking for as a maximum. Mr. LaFaver replied that the maximum is the Lolo store. From the Southgate to Lolo is the furthest.

Rep. Ellerd told Mr. LaFaver that he doesn't find any objection with the action, and asked if the 10% to 8% would be offset by increasing the price of liquor in the liquor store. Mr. LaFaver replied that part of this proposal is to restrict the price markup. Right now there is a 40% markup, but they do not cover their administrative expenses on many of the products that they sell on that 40%.

Rep. Ellerd then asked if the Department has the right to raise prices or does it have to be through the Legislature. Mr. LaFaver answered that it has to be through the rule-making process. Oregon and Washington are higher than Montana, Wyoming is marginally lower on certain products. However, Mr. LaFaver said he had not seen a recent price compilation. Rep. Pavlovich said that basically Montana is high.

Rep. Driscoll said that in the audit, \$500,000 was used to pay inspectors of liquor stores. Mr. LaFaver said that is a matter of legislative action. It does not make any difference if it is put in the general fund. The Legislature has looked at it and has chosen to leave it as it is.

Mr. Driscoll said that in the original proposal, the Evergreen store was proposed to be closed, and he wondered why the Department changed to the Lolo store.

Mr. LaFaver replied that the Evergreen store was not shut because a policy decision was made.

Rep. Driscoll asked Mr. Grunow of the Lolo store what the terms of his lease is, how many years. Mr. Grunow answered that it was ten years, to expire in 1989. He said there is a written contract between himself and the state of Montana and that is going to be tested. He further stated he bought space, hired people, etc., based on this agreement, and he feels he has some rights.

Rep. Kadas asked Mr. LaFaver what his next step would be, following his logic. Would he close more stores to get all the marketing down to one store. Mr. LaFaver replied that there is no way they would do that. It isn't going to work to serve Missoula out of one store. That issue was posed to him at a special hearing. This strategy will do what the Department wants to do. If they can get this down this year and next year, they have solved this situation of falling sales and falling profits. If they move this way for a long term, they will have it solved. They are not looking at closing more stores but they are going to be saving \$2 million. Nationwide, the projections are not that sales will fail.

Rep. Kadas asked if he was basing this on the Kalispell graph or something else. Mr. LaFaver said they are basing it on Helena, Kalispell, Missoula, Bozeman, and Great Falls sales continuing in those market areas, the Legislative Auditor took a good look at that analysis that by altering the number, you do very little to the sales volume.

Rep. McCormick asked Mr. LaFaver who came up with the 13%.

Mr. LaFaver answered that the Fiscal Analyst, in writing in the Appropriations Act, wrote in the 13%. The Liquor Division, unlike any other operation in the state, does not have a dollar limit on what it can spend, but they can't spend more than 15% of sales.

Rep. Glaser asked Mr. Faulkner from Walkerville if he felt he had a good faith with the state, and Mr. Faulkner replied yes. He said his contract was a five year contract. Rep. Glaser asked him if he had planned his life around this contract, to which Mr. Faulkner also replied yes. Rep. Glaser then asked Mr. Faulkner what kind of warning he had from the Department of Revenue, and Mr. Faulkner said he received a sixty-day notice, and that the media was his source of information.

Rep. Glaser asked Patti Scott of East Helena if she had good faith with the state, to which she replied yes, and that she had a five year agreement, and a five year lease. It was a good investment at the time. Rep. Glaser asked her also what kind of warning she had of the change. She replied that she learned about it in September through the grapevine, and in November the Oversight Committee unanimously rejected the proposal and moved that no stores be closed until the 1987 session had a chance to review the matter. Two weeks ago today she received official notice for thirty days.

Rep. Simon asked Mr. LaFaver if he was aware of the study that the Department had done in comparing the East Helena store, if it had been an agency store. Mr. LaFaver said if it had been converted to an agency store, it would be marginal as to the margin of profit even if they pay ten percent to the agency.

Rep. Simon stated to Mr. LaFaver that the Department knew it would make more profit for the next four years if it would have made more money, so why didn't they convert it to an agency store. Mr. LaFaver replied that he wasn't here four years ago, and that they are following the advise of the Legislative Auditor.

Rep. Simon asked Mr. Seacat, Legislative Auditor, what his findings mean so that they understand if he is supporting their criteria or defining their criteria. Mr. Seacat replied that they received a request from Rep. Marks. They have not looked at specific numbers, if these numbers are true, the calculations are accurate.

Rep. Simon said that the assumption in the report that the Department used is a monopoly that if one store is closed, all the business would go to the other store. Mr. Seacat answered that it is a summary, and that they did not recommend closing the East Helena store, and that this report is only an audit.

Chairman Pavlovich asked Mr. LaFaver when the \$13 million was mandated, to which Mr. LaFaver replied he believed it was 1977. Rep. Pavlovich then asked him when he worked for the Legislative Fiscal Analyst and Mr. LaFaver replied 1974 to 1981. Rep. Pavlovich also asked Mr. LaFaver if when he worked in the Department, did he bring up the \$13 million mandate, and Mr. LaFaver replied yes.

Rep. Pavlovich then asked Mr. LaFaver if he would have any objections if the Legislature took away the \$13 million and 13% and only say 'making a profit', to which Mr. LaFaver replied that he would have strong objections to it.

DISPOSITION OF HOUSE BILL NO. 14: Rep. Driscoll moved that HB 14 DO PASS. He explained that the reason the language was stricken from 13% to 15% was because Governor Schwinden requested it.

Rep. Driscoll then moved to amend page 2, line 4 by striking 'and', and inserting 'or. Question being called for, motion PASSED unanimously.

Rep. Driscoll then moved Rep. Gould's amendment. Question being called for, motion PASSED with Rep. Ellerd and Rep. Brandewie voting no. Rep. Kitselman, who was excused, wanted it on record that he had voted yes on both issues.

Rep. Glaser said that in less than 90 days we are going to be back here, and that it is essential that we remain in go covenant with the people that we represent. It appears we have a man out there who can't keep in good covenant with these people we represent, and it bothers me. He said he was going to support Rep. Driscoll's bill.

Rep. Kadas moved to use the same termination as Rep. Gould for the whole bill, of July 1, 1987.

Rep. Ellerd said he doesn't want to raise people's taxes to offset these programs, and he said he was going to vote against this bill. When we come back in June it has to be by cutting expenditures or raising taxes. He further stated that he felt sure that John LaFaver doesn't like the position he has been put into. Rep. Ellerd also said it was hard for him to vote against the young man whose livelihood is being taken away, or the farmer.

Question was called for on Rep. Kadas amendment on termination date, and motion PASSED unanimously. The record shows that Rep. Kitselman also voted yes.

Rep. Simon stated he was concerned about the stricken language on page 3. Rep. Brandewie said that we are taking away all the other options. We are not requiring showing profit, and he sympathizes with all the people who are

Business and Labor Committee

March 26, 1986

Page 10

going to lose their jobs. The Legislature gave them the mandate to try to do it, and now we are wanting them to do it in a businesslike manner.

Rep. Simon questioned if we had stricken the ability for the Department to create agency stores if we strike all the language, and wondered if there would be any problem with reinserting the language.

Rep. Driscoll said that marginally profitable is hard to define.

Rep. Kadas suggested reinserting rest of line 4, page 3, except 'and the number', and following '~~distance~~', insert and location of stores may be converted to agency stores in an orderly manner. Rep. Simon moved the amendment. Question being called for, motion PASSED unanimously.

Rep. Kadas stated he agreed with Rep. Brandewie, that we are going to be back in two months and we are going to be laying off more people than what we are looking at here. There has been so little notification to the people involved and that disturbs me the most.

Rep. Simon said he was disturbed about the potential income being given up. There is a potential loss with the state for potential lawsuits. He felt the Legislature should look at it at the next session, and said he does not like the bill, but would support it.

Rep. Glaser said that in June every state employee in the state of Montana will be in jeopardy. The others think that what the Department has done is no better than BN.

Rep. Driscoll said that the people have been told if they work hard and make the state a profit, they will have a job, and they did that. They thought they had a job, they were friendly, and now they don't have the job because they are not making the desired profit even if they are making a profit. He questioned how many people are in fact making what they want to make. Laying off people is not the answer. The Auditors have made a glorified fiscal note, \$20 - 80,000 is not recognized in the fiscal note.

Rep. Bachini said that in looking at these figures, which figures are correct. He said he has seen different figures, and that he has to go with the bill.

Rep. Ellerd said that we know the bill is going to pass, but I am not supporting the bill. He suggested to Rep. Driscoll to go down to the second floor and blame the Governor. Rep. Ellerd said he was sticking up for the Governor, that he is only talking about John LaFaver. He felt the Legislature will be sick when they get back here

for the next special session. We are going to have to cut our own wages. We can't operate the way we are.

Rep. Wallin said that if this bill passes, it is a good way to get Rep. Simons' bill back. If the liquor business doesn't make any money, he is doomed.

Question was called for on the motion of DO PASS AS AMENDED. Motion CARRIED, with Representatives Wallin, Thomas, Brandewie, Keller and Ellerd voting no. Rep. Kitselman, who was excused, voted yes.

There being no further business to come before this committee, the hearing was adjourned at 6:45 p.m.

HB 14
Rep. Driscoll

Tim Birk
P.O. Box 1339
Kalispell, Mont.
59903

March 22, 1986

Administrator, Liquor Division
Montana State Dept. of Revenue
Room 375
Sam W. Mitchell Building
Helena, Mont. 59601

Dear sir:

During the summer of 1980 my partner Bob Arndt and I responded to a solicitation for space to build and lease a special purpose building as a state liquor store on Kalispell's South Side. This area was selected because of the concentration of tourist facilities within the area. Since its opening, this store has shown continous profits.

On September 1, 1984 the initial lease expired. Since that time Bob and I have gotten contradictory reports as to what was actually going to happen with the State and our building.

We were lead to believe that while the store was profitable there was little doubt that the lease would continue as long as the State remained in the liquor business.

On the 14th of March I had the opportunity to talk with John LaFaver when he visited store 195 in Kalispell. After reviewing the store we talked briefly and he indicated that he would review the closure of this store. Three days later I received an unsigned copy of a letter dated March 14 terminating the lease and closing the store.

I feel that the Liquor Division is damaging itself in two ways:

- (1) The loss of revenue from sales of liquor from this store.
- (2) Damage to the credibility of the State for dealing such a cavalier manner with the lessor and its own employees.

If the State of Montana feels that the closure of this store is necessary, I would ask two things:

- (1) That sufficient notice of the termination of lease be given to find a suitable tenant for such a special purpose building.

(2) That information regarding leases not released to the press before lessors are notified.

The State of Montana has been advocating the "Build Montana" program for the past several years. The purpose of this campaign is to encourage economic development and investment. With this single closure two and one-half jobs have been eliminated, and this building, constructed for the State, faces foreclosure.

I hope that the Liquor Division will reconsider the decision to close profitable stores.

Thank You.

Tim Birk

LEGISLATIVE AUDITOR

March 26, 1986

Representative Bob Marks
House of Representatives
State Capitol
Helena, MT 59620

Dear Representative Marks:

Attached is our preliminary analysis of the documentation and support provided by the Department of Revenue for the closing of seven state liquor stores.

In addition, we have been requested to do a follow-up to the performance audit done by our staff of the Liquor Division in 1982. This follow-up will be completed before the Legislative Audit Committee meeting in May 1986.

If I can provide further assistance regarding this matter, please contact me.

Sincerely,

Scott A. Seacat
Legislative Auditor

SAS/js21

OFFICE OF THE LEGISLATIVE AUDITOR

REVIEW OF SUPPORT FOR LIQUOR STORE CLOSURES
BY THE DEPARTMENT OF REVENUE

March 1986

BACKGROUND

State liquor profits as measured in 1985 dollars are the lowest they have been since the establishment of the state liquor enterprise in 1934. The primary reason cited for the reduction in liquor profits is the decline in sales and consumption of alcohol. The decline is considered a result of lost table wine sales, drunk driving laws, third-party liability decisions, increased competition from other beverages, emphasis on health and fitness and intensified publicity surrounding the social and economic costs of alcohol abuse. In an attempt to reverse the decline in liquor profits, the Department of Revenue has adopted a four-part plan comprised of the following:

1. close stores in multi-store market areas,
2. restructure prices,
3. inventory control, and
4. reduction in store hours

This report addresses the action to close stores in multi-store market areas.

Liquor Division Analysis

First of all, an analysis by the Department of Revenue was done to identify the relationship between the number of liquor store and total sales in each of the seven major market areas. The analysis plotted the following:

1. total sales,
2. sales of the initial store(s), and
3. sales of the additional stores.

The results showed that in all seven areas there appeared to be no significant increase in total sales following the opening of a new store in the area. Rises in sales at the new stores appeared to be strongly associated with declines in sales at the other stores. Therefore, evidence suggests that the opening of new stores merely shifted, rather than increased sales (see Attachment A).

Criteria Used to Identify Stores

The department identified seven multi-store market areas in which store performance would be analyzed:

1. Butte market area - 3 stores
2. Kalispell market area - 3 stores
3. Billings market area - 4 stores
4. Helena market area - 3 stores
5. Bozeman market area - 2 stores
6. Great Falls market area - 3 stores
7. Missoula market area - 2 stores

A profit margin (net profit divided by net sales) and expense ratio (total expense divided by net sales) was calculated for each store in the seven market areas. In five of the market areas, the store with the lowest profit margin and highest expense ratio was picked for closure. In two of the market areas (Butte and Great Falls), the store with the second lowest profit margin and second highest expense ratio was selected rather than the lowest. The decision was based on public comment, community support, liquor licensee sales (taverns, bars, etc.) and licensee support.

Analysis and Assumptions

An analysis was done by the department to calculate the savings the division would have realized during fiscal year 1984-85 if the seven stores identified had been closed (see Attachment B). The division used the following assumptions:

1. The trend identified when additional stores were opened will be reversed and operating costs will be saved with very little loss in sales.
2. A total of 3½ FTE from the closed stores will be assigned to the remaining stores in the seven market areas.
3. Administrative overhead will be reallocated from the stores closed to the remaining stores.
4. Freight expense for closed stores will be reallocated to the remaining stores.

5. The Bozeman store's lease would have to be paid until the end of the lease term (1990).

Using the same assumptions, the division calculated the savings for the remainder of fiscal year 1985-86 and all of fiscal year 1986-87. The division also assumed all stores would be closed on May 15, 1986, and expenses would increase by 4 percent due to inflation (see Attachment C).

Based on this analysis the Liquor Division would save \$90,800 in fiscal year 1985-86 and an additional \$471,300 in fiscal year 1986-87.

Conclusion

Based on the calculations presented and if all of the assumptions hold true, we believe the projected analysis done by the Liquor Division is accurate.

*Reck - Kuer - Mar. 13 1986 - Copy of
my testimony at Fri, Feb 21, 1986 - closure of the
Liquor Stores*

* (Representative Paul Pistoria requested staff of the Legislative Council to prepare this verbatim transcript of his testimony before the Revenue Oversight Committee on February 21, 1986.)

5 Pages:

I am state Representative Paul Pistoria. I'm happy to be here. I know each and every one of them. And, if you don't know Paul Pistoria by now you never will.

Chairman Williams: I've got five minutes for you Paul.

Representative Pistoria: Oh God. Now to start out with, we just -- I brought this along; I'm not going to go all over it. This is only half of it. It deals with the quota -- no -- the wine, the quota, and closing down stores -- liquor stores -- in the state of Montana.

I am entirely against closing all these profitable stores. Now, it seems funny that I'm a Democrat that I would go against our Democratic Governor and a fine gentleman like John LaFaver. But if you -- like I said before -- that's the kind of person I am. I'm my own man. If a Democrat's wrong I go against him, if a Republican is wrong I go against him, and vice-versa. And I think they all know that. Even Gerry Devlin knows that.

Chairman Williams: Let's get back to the story.

Representative Pistoria: Yeah. So you see this is one time I go against the Governor. And I've always had good dealings with John [LaFaver], but I just have to go against him on this issue. And it's nice that he sent me this report, but I'll tell you, I went over it and I know a little math myself. And, you just can't make up that profit, just like this fine piece of, what would you call it?

Okay. Now, to start off with I want to tell you people here, primarily, to start out with, nobody here today has ever thought of, I think it was with an initiative -- 84. Yeah, by the

Libertarians. You ever heard of them before? They're kind of getting slow you know, I'm seeing they are less trying to run this year, so I guess they got scared out, by not only my friendly Republicans, but also my friendly Democrats. See?

Chairman Williams: We're getting off the topic of the business. Paul, I'd like to call your attention, we haven't got too much time, so--

Representative Pistoria: Yeah, but anyhow I've got to bring this up. All right, you know what happened to the wine business. The issue passed, and as you all know, what happened at that time. I was one of the promoters against it along with the Montana Tavern Association. And, I put out a cartoon. And, I'm going to pass it around. It shows you the--(pause in tape.) ... how often this jibberish they told us if you give us this, we'll make up that \$3 or \$4 million dollars. Well, we've lost \$3 or \$4 million. They didn't live up to that and it has been going on since 1978, so that would be eight years. So, what we should do is consider taxing these distributors, some way where they -- the wine is taxed, some way where we make up this revenue. See..

Chairman Williams: Paul, I'm going to have to call your attention to the fact that you have got to stick to the subject of the topic.

Representative Pistoria: Well, I'm leading up to that -- why we shouldn't lose that. Now..

Chairman Williams: Let's stick to the topic. Now, we're talking about closures, so stick to that, please.

Representative Pistoria: Okay. Okay, well, I'm bringing it up as something for us to think about. The other thing is, on closing, there's four times -- four times -- the issue of closing our liquor stores. One was in -- a -- November 2, which failed,

and then in the Revenue Oversight Committee on November 13 -- you weren't there. Bruce Simon and Spring, who was representing the Governor's Council on Management, -- and of course I spoke there. And, it failed. Then Senator Dover, in 1983, he had a Senate bill 405, and it failed in Senate Administration. It failed badly. Then last session, Bruce Simon had HB 527 to get the state out of the liquor business. You know what happened? It failed in committee so bad. But it was brought back on the floor and what happened? It got defeated 79 to 20. And, you know what happened? A fine Republican like Tom Jones made a motion, "do not pass". Imagine that, and by God it did fail, so I think the closing of the stores that are profitable ought to be the end of the subject.

Now, here's another thing, I've been a -- I just can't go along with John LaFaver and our fine Governor that we've got to lower the expenses two percent. This is revenue; this is not an expense. And I praise him for trying to use expense to run our government because it is tax money. This is not tax money; this is revenue. So I can't see where they can try to compare the two together. Now, there's no way that you can compare it. And, I think it's foolish to compare that we're going to meet up that 2 percent. Now, I don't want to really duplicate some of the things said here. But it -- more finally -- why, I took the sheets out of the -- out of the financial report by the revenue department and it was done by a fine tooth comb -- and what I did for you people, I made it so to show you I'm not just saying that I want to keep the stores closed in -- keep the stores open in Great Falls. I want all the stores that's profitable in the state. This right here shows that -- they -- why in the heck did they want to fool around with it? I'm going to pass these around. I got enough here to pass around to you people.

Chairman Williams: I believe that's already been passed around, Paul.

Representative Pistoria: Well I don't think it's passed around like this. No -- no sir. Because I got the -- the amount -- you know no one thinks like Pistoria, I'll tell you that right now -- so I want this passed around so you'll have it. I did it a little different. See?

Chairman Williams: It is not authentic.

Representative Pistoria: Well it is authentic, and then they're going to guess to what this darn sheet says. I tell you, I can't get over it. I really can't. It's amazing where they're making a profit. There's no business -- there's no business -- practically any business in the state of Montana that's making over 10 percent. Anybody that's making 10 percent or less has a little problem. But when we're making that -- that amount of revenue to the state of Montana -- even if it's less, the state needs that money. And you know I don't do much drinking, you know I go around to all the parties, you never see me drinking much. But I am one that's for this particular thing, and by God if we don't have -- you people have the power to tell the Governor, and John LaFaver, "drop this whole matter until the Legislature meets in '87". And, in '87 we'll even defeat it again to not close our stores, only the profitable ones. We want to stay in the liquor business, because that's about the only thing that we've got giving revenue to the state of Montana. Thank you.

OPEN DISCUSSION PORTION OF THE MEETING:

Representative Pistoria: I want to make three or four seconds. People on -- even the west side didn't even say. How many been here in Great Falls? I'll bet there's -- everybody is familiar with this one. You know by closing-- now as I-- before I say that I -- I don't want the west side closed, I'm in favor of not closing all stores. But the west side store -- a lot of people

never brought that up today -- that store is everything west of the Missouri and north of the Missouri. And, I would -- I don't know if I'm accurate, but a third of Great Falls would be out of liquor. That's a fact. A -- Helen [O'Connell], do you think that everything on the west third of Great Falls, the country club and all of that -- and Black Eagle -- and... Okay, that's all I've got to say.

Exhibit
1

Members of the Legislature:

The Revenue Department, John LaFaver, is claiming the Liquor Operation is on the verge of collapse. He would have you believe the profits are falling far short of the "required 13%." Mr. LaFaver presented this claim to the Revenue Oversight Committee last February 21, 1986 in Helena. He presented several proposals to "save" the system which included closing 10 stores: East Helena #83, Helena #197, Butte #2, Kalispell #195, Billings #5, Bozeman #9, Great Falls #141, Missoula #171, Evergreen Agency and Walkerville Agency. Other stores on the "hit list" are Hungry Horse, Lolo, Belgrade, Ronan, and Victor.

As it turns out, LaFaver decided to close 7 stores: East Helena #83, Kalispell #195, Great Falls #140, Bozeman #193, Missoula #170, Walkerville and Lolo Agencies. *Billings #5*

At the February 21st meeting, the Revenue Oversight Committee UNANIMOUSLY rejected the proposal and moved that no stores be closed until the 1987 Session had a chance to review the matter. Members of the Committee are: Rep. Mel Williams, Chairman, Rep. Gerry Devlin, Rep. John Harp, Rep. Dan Harrington, Sen. Tom Hager, Sen. Joe Mazurek, Sen. Bill Norman, Sen. Bruce Crippen, and Sen. Bob Brown. Absent from this meeting were Rep. Jack Ramirez and Sen. Tom Towe.

Reasons for rejection of LaFaver's proposal were varied, but the following facts played an important part:

1. A Revenue Department document verified the net profit as of December 31, 1985 (half-way through FY86) was 12.92%. The legislative language states the Division "shall attempt" to return a 13% profit. It was obvious profits were at the required level.
2. LaFaver claimed 100% (all) of the sales in the stores proposed for closure would immediately go to the remaining stores. The Committee questioned this "assumption." At a time when revenue is sorely needed by the State General Fund, now is not the time to test LaFaver's theory.
3. Declining sales are a problem, but the State is still making a profit. It is not the same profit it made 10 years ago, nor will it ever be again. But there is clearly no emergency that merits closing profitable stores. Closing stores and making the product less available will not help declining sales.

LaFaver has not done any kind of "economic impact" study regarding all these closures. There is no plan for private industry to take over. Loss of sales will mean less tax revenues for cities and counties. East Helena lost approx. \$3000 per year when they shut the doors to the public. This is based on our walk-in traffic. Normally, East Helena would receive \$10,000 per year from tax revenues off the liquor, beer and wine sales. If sales go down state-wide, East Helena will lose more, as will every city and county in Montana.

And sales will go down, because store closures will not stop with these seven stores. We believe Helena #197 will close in November, when its' lease expires. Why should Helena have two stores, when there will only be one store left in Missoula, Bozeman, and Great Falls. We believe LaFaver has a minimum of 20 more stores targeted for closure between now and the end of FY87. Just ask him and see what he says.

East Helena's official closure date is April 13, 1986. And yet, the store was closed to the public on March 18, and COMPLETELY CLEARED OUT BY MARCH 20. So the State is paying for a vacant building for the next three weeks and the manager's wages for another 10 days. We assume she'll sit in the empty building. We believe LaFaver wanted us closed before we could get help from the Special Session. East Helena gave LaFaver aggressive opposition before the Revenue Oversight Committee, so he is getting us out of the way now.

How is it a salaried employee can have so much power to affect so many people? Why is he allowed to defy the Legislature? LaFaver obviously has nothing to lose - the Legislature can't fire him. We don't know John LaFaver personally, or his background. We have always believed a person is only as good as his word. The State made a commitment to us for five years in a lease agreement. In return, we built the State a new building in East Helena from which the State could operate the East Helena Liquor Store. We still have 2½ years left on the lease. We feel the State has an obligation in this matter. LaFaver has chosen to ignore this obligation. To some it might be "good" business that LaFaver did not pay off these leases. To us, we feel we were "shafted."

Finally, every store proposed for closure, including East Helena, is making a profit. Rep. Joe Quilici, Chairman of the Appropriations Sub-Committee on Revenue issued a statement to the Revenue Oversight Committee reiterating it is NOT LEGISLATIVE INTENT TO CLOSE PROFITABLE STORES, especially since no emergency exists.

At some point, declining sales may not return enough of a profit to make it feasible for the State to stay in the business. BUT THIS IS A DECISION OF THE LEGISLATURE, NOT A SALARIED EMPLOYEE.

PLEASE SUPPORT LEGISLATION TO STOP LAFAVER AND STORE CLOSURES!

Sincerely,

Patti Scott / Esther C. Schneider

East Helena would only receive approximately half or less of the Liquor Tax if we had no store in East Helena. This is because 51% of the profit is walk-in. Without a store, we would have no walk-in sales, only tax money received from our three bar purchases and a portion of county-wide sales, which is based on population for the city. If stores are closed, and the sales are not picked up 100% in the other stores, cities and counties as well as the General Fund will lose, because these figures are based on ~~sals~~ ^{sales}.

Stores Proposed for Closure - Status for FY85

Name	Total Sales	Tax \$	+	Net Profit to State =	Total Revenue	Expenses (Savings)	Net Profit FY85 / Closure

Month to Month Leases as of 1-2-86

1. Deer Lodge #11	Since Dec 1985
2. Malta #22	Since Jan 1985
3. Forsyth #23	" Dec 1985
4. Fort Benton #31	" Aug 1985
5. Conrad #33	" Sept 1985
6. Troy #70	" July 1985
7. Ronan #101	" Nov 1985
8. Victor #172	" Sept 1985
9. Butte #2	" Nov 1985
10. Libby #6	" Nov 1985
11. Kalispell #195	" June 1985 (earliest)

Why are all these leases month to month?

Every store proposed for closure is making a profit. Rep. Joe Quilici, Chairman of the Appropriations Sub-Committee on Revenue issued a statement to the Revenue Oversight Committee and John LaFaver reiterating it is NOT LEGISLATIVE INTENT TO CLOSE PROFITABLE STORES, ESPECIALLY SINCE NO EMERGENCY EXISTS. He asked that closures be delayed until the 1987 Session has a chance to review.

Sen. Dave Fuller - asked for follow-up audit to review all options before closures.

Mike
Grunow

PETITION AGAINST CLOSURE OF THE LOLO AGENCY LIQUOR STORE, IN LOLO, MT.

WE, THE UNDERSIGNED, STRONGLY PROTEST THE CLOSURE OF THE ABOVE NAMED LIQUOR STORE, IN LOLO, MONTANA, BECAUSE IT IS AN ESTABLISHED BUSINESS IN THE COMMUNITY; IT WILL MEAN A LOSS OF JOBS IN THE COMMUNITY; IT WILL MEAN A LOSS OF SERVICES FOR THE COMMUNITY; IT WILL MEAN A LOSS OF BUSINESS TO THE OTHER BUSINESSES IN THE COMMUNITY; IT WILL FORCE LOCAL RETAIL BUYERS TO GO TO MISSOULA AGAINST THEIR WISHES; IT WILL CREATE AN UNDUL HARDSHIP FOR THE LOCAL BUSINESSES THAT BUY FROM THE LOLO LIQUOR STORE; IT IS CONTRARY TO GOOD BUSINESS PRACTICES BY THE STATE OF MONTANA; AND IT WILL ELIMINATE ONE OF THE "FRIENDLIEST" AND "MOST EFFICIENTLY OPERATED" LIQUOR STORES IN THE STATE ON MONTANA:

PETITION AGAINST CLOSURE OF THE LOLO AGENCY LIQUOR STORE, IN LOLO, MT.

WE, THE UNDERSIGNED, STRONGLY PROTEST THE CLOSURE OF THE ABOVE NAMED LIQUOR STORE, IN LOLO, MONTANA, BECAUSE IT IS AN ESTABLISHED BUSINESS IN THE COMMUNITY; IT WILL MEAN A LOSS OF JOBS IN THE COMMUNITY; IT WILL MEAN A LOSS OF SERVICES FOR THE COMMUNITY; IT WILL MEAN A LOSS OF BUSINESS TO THE OTHER BUSINESSES IN THE COMMUNITY; IT WILL FORCE LOCAL RETAIL BUYERS TO GO TO MISSOULA AGAINST THEIR WISHES; IT WILL CREATE AN UNDUE HARDSHIP FOR THE LOCAL BUSINESSES THAT BUY FROM THE LOLO LIQUOR STORE; IT IS CONTRARY TO GOOD BUSINESS PRACTICES BY THE STATE OF MONTANA; AND IT WILL ELIMINATE ONE OF THE "FRIENDLIEST" AND "MOST EFFICIENTLY OPERATED" LIQUOR STORES IN THE STATE OF MONTANA:

March 26, 1986
HB 14
Rep. Driscoll

March 20, 1986

TO: Revenue Oversight Committee

FROM: Dan Faulkner, Agent, Walkerville Liquor Store

Reasoning behind a state store converting to an agency is, it's no longer profitable to be operated by the state. We were converted July 1, 1983, with a profit margin of negative 6.2%, and sales of \$168,000.

I took this store knowing it was not profitable, but had one thing in mind-to turn it around. Fiscal year 1984, adjusted gross sales were \$233,176 a profit of positive 8.8%, fiscal year 1985 adjusted gross sales were \$384,970, a profit of 9.1%, this fiscal to date sales are \$351,183 with projected sales of \$440,000, yet I have been "picked" for closure. I ask-why? What's the reasoning when sales and profits are increasing?

Walkerville is a small community, an incorporated city separate from Butte Silver Bow. The loss of revenue is crucial to our community.

The closure of my store means my livelihood. As a private contractor there are no unemployment benefits-my means of support will have ended.

Sincerely,

Daniel P. Faulkner

Agency Stores are charged 18.68¢ of unit sales. This is the same charge the Department assesses against state stores. Agency stores are less work for the Department, and should be treated as such.

DEPARTMENT OF REVENUE

INFORMATION FOR LEGISLATORS

ON

Liquor Store Closures

The Department has taken action to close 7 liquor stores to help earn revenue planned last session.

The store closures are just one part of a five part plan to overcome what would be a \$2 million short fall if nothing is done. Store closures will contribute \$560,000 to this plan.

The Department is working within Legislative criteria enacted in HB500 last session.

The Liquor Division operates under an open ended appropriation. The only limits to what the Division can spend are performance criteria written in HB500. Authority to close stores is granted.

"During the 1987 biennium, the division shall attempt to return at least 13 percent of net sales. Net sales are gross sales less discounts and all taxes collected. The division shall limit operational expenses of the liquor merchandising system to not more than 15 percent of net sales. Operational expenses may not include product costs, freight charges, or expenses allocable to other divisions or licensing bureau expenses.

"The division retains full authority to determine store operating hours and the number and location of stores and employees. Nonprofitable or marginally profitable state stores shall be closed or converted to agency stores in an orderly manner. Agency stores shall be closed if the division considers them marginally profitable and other state stores or agencies are located within a reasonable distance."

The 1982 performance audit (Office of the Legislative Auditor) urged the legislature to clarify the mission of the Liquor Merchandising Program.

The audit report stated: "The Legislature has given the Division confusing signals as to whether it should operate as a service organization or a profit-making business. We believe the Legislature needs to statutorily define the Division's role."

The audit report listed 4 questions that the Legislature needed to answer:

- Should the Division try to maximize profits to the General Fund?
- Should the state operate its own or agency stores in each community regardless of profitability?
- Should the state advertise prices?
- Should the state stock a wide variety of products in each store regardless of profitability?

The Department has taken the position that its responsibility is to maximize profit to the General Fund consistent with adequate service. This means, among other actions, reducing overhead costs in multi-store market areas.

After carefully examining the major Liquor market areas, we have concluded General Fund revenues can be significantly enhanced by closing seven state liquor stores and agencies. Two basic factors underlay this action. First, dollars sales declined by 11.5% from Fiscal 1982 to 1985, representing a reduction of \$6,375,325. During the same period, unit sales (actual number of bottles) dropped 17.6%, from 8,071,108 in Fiscal 1982 to 6,651,387 in Fiscal 1985. Clearly the marketing structure appropriate for selling 8 million units does not work for selling only 6.6 million.

Second, in our larger market areas throughout the state there are several state retail liquor outlets. The distance between them generally ranges from several blocks to a few miles. By closing one store in each market area, local customers will not be inconvenienced by having to travel a short added distance to purchase spirits or wine at the state price. Total sales in these areas are expected to shift to the remaining outlets thus increasing the market area profitability and state revenues.

The following describes the basis for restructuring our retail outlets in seven primary market areas.

Butte Market Area

The Butte market area is served by three stores: Uptown Butte #2, Harrison Avenue #116, and Walkerville Agency Store #137. The three stores sold \$2 million of liquor in FY85 earning a profit of \$245,848 or 12.18 percent of sales.

We are closing the Walkerville Agency. If this action had been taken in FY85, profits would have increased to \$288,223 annually or 14.28 percent of sales. The Table below illustrates the effect of this closure.

STORE	FY85 UNIT SALES	FY85 NET SALES	FY85 NET PROFIT	FY85 PROFIT MARGIN	FY85 TOTAL EXPENSES	FY85 EXPENSE RATIO	ESTIMATED PROFIT INCREASE
BEFORE:							
BUTTE 2	101,599	\$586,956	\$53,304	9.08%	\$118,442	20.18%

	329,333	\$2,017,904	\$288,223	14.28%	\$292,422	14.49%	\$42,375

Bozeman Market Area

The Bozeman market area is served by two stores: the downtown store #9 and the 7th Avenue store #193. The two stores sold \$1.7 million in FY85 and earned profits of \$205,633 or 12.41% of sales.

We are closing Store #193. If this action had been taken in FY85, profits would have increased to \$280,660 annually or 16.94 percent of sales.

STORE	FY85 UNIT SALES	FY85 NET SALES	FY85 NET PROFIT	FY85 PROFIT MARGIN	FY85 TOTAL EXPENSES	FY85 EXPENSE RATIO	ESTIMATED PROFIT INCREASE

Kalispell Market Area

The Kalispell market area is served by three stores: The Store #12, located in the shopping center, Store #195 located adjacent to the Outlaw Inn, and the Evergreen Agency located two miles from the number 12 store. The three stores sold \$1.7 million of liquor in FY85 earned and profits of \$206,728 or 12.1% of sales.

We are closing Store #195. If this action had been taken in FY85, profits would have increased to \$305,626 annually or 17.88 percent of sales. The table below illustrates the effect of this closure.

STORE	FY85 UNIT SALES	FY85 NET SALES	FY85 NET PROFIT	FY85 PROFIT MARGIN	FY85 TOTAL EXPENSES	FY85 EXPENSE RATIO	ESTIMATED PROFIT INCREASE

	282,410	\$1,709,113	\$305,626	17.88%	\$186,559	10.92%	\$98,898

Billings Market Area

The Billings area is served by four stores: two downtown and two in shopping centers in the western part of town. The area had liquor sales of \$5.1 million in FY85, earning profits of \$724,804 or 14.05 percent of sales.

We are closing Store #5 located in a parking facility in downtown Billings. If this action had been taken in FY85, profits would have increased to \$812,005 annually, or 15.74 percent of sales. The table below illustrates the effect of the closure.

Helena Market Area

The Helena market area is served by three stores: downtown Store #1, Northgate shopping center Store #197, and East Helena Store #83. The area sold \$2.2 million of liquor in FY85 and earned profits of \$281,695 or 12.66 percent of sales.

We are closing the East Helena store. If this action had been taken in FY85, profits would have increased to \$327,851 annually, or 14.74 percent of sales. The table below illustrates the effect of this closure.

STORE	FY85 UNIT SALES	FY85 NET SALES	FY85 NET PROFIT	FY85 PROFIT MARGIN	FY85 TOTAL EXPENSES	FY85 EXPENSE RATIO	ESTIMATED PROFIT INCREASE

Great Falls Market Area

The Great Falls market area is served by three stores: #140 downtown, #141 on the west side, and #139 on Tenth Avenue South. The area sold \$3.5 million of liquor in FY85 and earned \$499,212 in profits, or 14.25% of sales.

We are closing Store #140 downtown. If this action had been taken in FY85, profits would have increased to \$593,884 or 16.95% of sales. The table below illustrates the effect of this closure.

STORE	FY85 UNIT SALES	FY85 NET SALES	FY85 NET PROFIT	FY85 PROFIT MARGIN	FY85 TOTAL EXPENSES	FY85 EXPENSE RATIO	ESTIMATED PROFIT INCREASE
