

MINUTES OF THE MEETING
HOUSE APPROPRIATIONS COMMITTEE
50TH LEGISLATIVE SESSION

The meeting of the House Appropriations Committee was called to order by Chairman Rep. Gene Donaldson on March 23, 1987 at 8:00 a.m. in Room 104 of the State Capitol.

ROLL CALL: All members were present at the meeting with Rep. Nathe arriving late. Also in attendance were Judy Rippingale, LFA and Denise Thompson, Secretary.

HB 599: (100:A:3.00)

Rep. John Mercer HD#50, described the bill to the committee which was a request for \$75,000, for the UOM Biological Station at Yellow Bay. He distributed a handout to the committee (Exhibit 1). He stated the Biological Station at Yellow Bay does research on: water quality, Lakeshore development, fishing issues, relationship with the tribes, and public access to the lake for not only Flathead Lake but many other bodies of water in Montana and the west. He felt this was a very worthwhile project.

Rep. Mercer presented an amendment to the bill regarding funding (Exhibit 2). In his proposal, some of the monies would come out of the Fish, Wildlife, and Parks revenues.

PROPONENTS:

(100:A:7.26) Mr. Jack Stanford, Director of the Biological Station project at the University of Montana supported the bill saying it is partially supported by \$150,000 per year from the University of Montana. There are 23 people on grants and contracts from out-of-state who work in research. There would be a 6 to 1 return on investment by next biennium.

Rep. Mary Ellen Connelly spoke as a proponent of the bill stating it is a very worthwhile project.

(100:A:12.10) Mr. Rich Hower from the Biological Station stated they have been capable of bringing in \$3 to \$1 return from outside Montana and feel they can bring that up to \$6 to \$1.

QUESTIONS:

(100:A:15.54) Rep. Quilici asked if their research could extend beyond Flathead Lake. Mr. Stanford replied absolutely, it is an international program.

If the funding were to be approved, there would need to be some kind of understanding with Fish, Wildlife and Parks. The station would have to work with the department in an attempt to help the department with some of their research.

Rep. Swift and Peck were asked to look into the funding issues of the bill and report back to the committee.

Dr. Stanford was asked to furnish the committee with a budget for the station.

Action was postponed on the bill.

SB 175: Sen. Halligan presented the bill to the committee saying that excess district court fees would go to the Grant and Aid Program.

Carol Perry, Clerk of the District Court presented a map of how the grant and aid program worked in the past (Exhibit 3). She stated that criminal court reimbursement program is a very important program and a self insurance program. When monies are left, they are placed in the Grant Program.

(100:A:44.30) Mr. Gordon Morris, Montana Association of Counties, stated it would provide funding from the Grant and Aid Program from those funds you appropriate for district court fees.

(100:B:0.01) There were no opponents to the bill.

QUESTIONS:

Rep. Bardanoue explained his bill to continue the fee increases that he put in the last session, is in committee. If that bill doesn't pass there will be no surplus money. Rep. Mercer is also working on a bill to revise the way these funds are paid out. If his bill doesn't pass or if Rep. Mercer's bill passes it will revamp the whole system and there may not be any surplus money anyway.

Mr. Morris said SB 200 which is in the House which also contains the funding mechanism for this program. HB 155 would also be supported by his organization. The funding mechanism which is in SB 200. There is no other commitment for the legislature to fund the program other than the revenue as derived from the Motor Vehicle Fees. They are placing their chips on the passage of SB 200.

(100:B:9.19) Mr. Newell Anderson, Administrator of the Local Government Assistance Division, Department of Commerce, was asked by Rep. Miller if there were any excess funds available now that could have or should have been distributed to the counties that were in the whole as far as district fees. He stated until the end of the year you don't know. The program distributes money monthly based upon eligible bills submitted. Last year the books appear that there was \$750,000. There was \$750,000 worth of spending authority. Whether or not there was \$750,000 worth of cash, he didn't think so.

(100:B:15.15) Mr. Morris spoke of Rep. Hannah's bill HB 890, and spoke in opposition to that bill. The concept and philosophy that is being looked at in terms of this bill, is a reflection of the interim study that was done and presented to the 1985 legislature having to do with state assumption of district court. Due to the fact that the expenses in this program are case driven, there is no other basis for making a distribution of the revenue. Rep. Hannah's bill would leave 85 percent of the money collected in the county and there is no relationship as to how much is paid versus how much is spent depending on the cases in each county.

Sen. Halligan closed by saying that this is going to be used in the general fund to balance the budget, he is saying that is not the intent of the legislature and it never was. It should be dealt with in property tax relief because a county could use it for grant and aid where otherwise, they would have to go out and levy property taxes to pay for a major criminal action.

HB 877 and HB 878:

(100:B:23.10) Rep. Kelly Addy HD#94 presented HB 877 and HB 878 saying that both of these bills relate directly to the Billings statistical metropolitan sammpsa and the air shed at Billings, sulphur dioxide bills.

HB 877 addresses one part of the problem that is in Yellowstone County, the kind of air quality problems they have. They do not have the data reliable enough to represented the actual problems in that area. This legislation would appropriate \$300,000 from the general fund to present an air quality model. They currently do not have a model to tell where the violations come from.

HB 878 sets up more monitor sites where they can get a more accurate picture of the problems and the locations of the problems.

Rep. Hannah spoke in support of the bill saying there is a lack of information on what is really going on in Billings and it needs to be addressed. This would allow for industry and the state to continue working toward better air quality for the city.

(100:B:32.25) Mary Westwood representing the Montana Sulpheric Chemical Company in Billings stated they are one of the industries that would be involved in any modeling or monitoring that would take place. She noted support for both of the bills and said computer models are used to approach the emissions in the Yellowstone Valley.

Mr. Russ Brown representing the Northern Plains Resource Council support both bills as well as Claudia Massman representing the Montana Environmental Information Center also supported the bills. They believe the models are necessary to help reduce the emissions.

(100:B:38.15) Mr. Calton Grimm, Montana Power Company in Butte, Montana stated he was a proponent for HB 878 for the monitoring systems. They do their share to help with this problem.

QUESTIONS:

Rep. Bradley commented they would have to convince her how they will be able to stop this pollution, and perhaps the \$450,000 could be better spent in retrofit and help cut the pollution that way.

Rep. Addy said it would cost \$450,000 for just Exxon alone for in-stack monitors and that does not include any of the others.

(100:B:44.00) Bill Opitz, Deputy Director of the Department of Health and Environmental Sciences said HB 878 was the essential bill to approve first. These do not have to both be approved. You can monitor and then set up the model.

Rep. Quilici asked if the industries monitor their own. Montana Power does. The industry is reluctant because of the cost to put monitors on all of their stacks. Mr. Opitz stated if they could get some program together there would be more cooperation and coordination in this area.

Rep. Addy closed on the bill saying the goal is to resolve the dispute by getting better information to work with.

The hearing was closed on HB 877 and HB 878.

HB 875:

Rep. Stella Jean Hansen HB#57 said the bill is for a small appropriation each year of the biennium for a work program for the mentally ill (Exhibit 4).

Nancy Adams who runs the Montana House in Helena supported the bill stating that these jobs are very important to these people. The traditional channels for rehabilitating the mentally ill have not worked out for people. They are trying to provide the additional needs to these people to try to help the mentally ill.

There were no opponents for the bill.

QUESTIONS:

Rep. Bardanouve asked what the results of the program were. Rep. Hansen said that it give work experience and the type of training in working with other people these people need.

The hearing was closed on the bill.

SB 122: (101:A:23.05) Rep. Devlin presented the bill to the committee for Sen. Crippen. This is at the request of the Revenue Oversight Committee. It clarifies how the appeals systems works from county up to the state level. He called on Mr. Bob Raundal to address the bill.

Mr. Bob Raundal, former member of the State Tax Appeal Board said the important change at the bottom of page 4, which would give the Board the authority to hire hearing officers. This provision was also in the governor's package. The way the appeals are coming in, he sees no other way for the State Tax Appeals Board to get its work done without this hearing officer procedure. He pointed out that there was an error on the first fiscal note; it should be \$61,480 for each year of the biennium. He presented Exhibit 6 in this regard.

There were no opponents of the bill.

QUESTIONS:

Rep. Bardanouve asked if there were state level hires or county level. Mr. Raundal stated they were all at the state level.

Rep. Rehberg said in executive action he will amend to put in a sunset for two years to see how it is working.

The hearing was closed on the bill.

HB 702:

Rep. John Vincent HD#80 presented HB 702 to create an independent study commission to look at the Montana State Legislature. There were also amendments (Exhibit 6). He stated that an in depth study is vital. Private participation in a commission such as this is absolutely vital. The appropriation amount is \$15,000, the rest would be raised by private individuals. He referred to a letter by Stephen G. Lakis, which refers to an independent commission (Exhibit 7).

(101:A:40.56) Mr. Kim Wilson, Common Cause spoke in support of the bill saying it is time for the legislature to take a good strong look at some institutional changes to make the system more efficient and accessible to the public.

Joy Bruck, League of Women Voters also supported the bill. She stressed the importance of the private sector being involved and also said that the appropriation is minimal compared to the benefit gained from the study.

Rep. Dennis Rehberg also spoke as a proponent to the bill. He stated that time is of the essence in this study and there needs to be a long hard look at it. He said he would be willing to help raise some of the funds from the private sector.

Speaker Bob Marks also supported the bill and stated he would help to raise money from the private sector.

Rep. Switzer said the leadership should sit down and mutually put down a good balance of people to serve on this committee.

There were no opponents on the bill.

(101:B:3.55) Rep. Bardanouve suggested that an additional amount be put into this bill and the balance would be reverted to the general fund on the termination rate.

EXECUTIVE ACTION: (101:B:6.27)

HB 38: Rep. Bradley moved to TABLE HB 38. Rep. Menahan called the question. There was a roll call vote. Reps. Thoft, Winslow, Bradley, Connelly, Devlin, Manuel, Poulsen, Rehberg and Switzer voted YES. Reps. Bardanouve, Menahan, Swift, Peck, and Menke and Swift voted NO. The motion CARRIED 9 to 5.

HB 702: Rep. Bardanouve moved to DO PASS HB 702 AS AMENDED. Rep. Peck called the question. The motion CARRIED unanimously.

HB 875: Rep. Menahan moved to DO PASS HB 875. Rep. Winslow made a substitute motion to TABLE 875. Rep. Winslow withdrew his motion and then restated the TABLE motion. There was a roll call vote. Reps. Thoft, Winslow, Bradley, Connelly, Devlin, Menke, Peck, Rehberg, Swift, and Switzer voted YES. Reps. Bardanouve, Manuel, Menahan and Poulsen voted NO. The motion CARRIED 10 to 4.

(101:B:19.43)

HB 878: Rep. Swift moved to DO PASS HB 878 for \$50,000 for monitors. Rep. Peck called the question. The motion CARRIED unanimously.

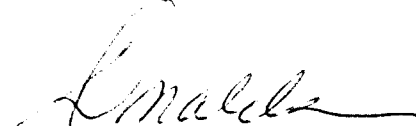

HB 877: Rep. Peck moved to TABLE HB 877. Reps. Bardanouve, Connelly, Winslow, Bradley and Rehberg voted NO. The motion CARRIED.

SB 175: Rep. Menahan moved that SB 175 BE CONCURRED IN. Rep. Switzer made a substitute motion to DO NOT PASS SB 175. Rep. Devlin called the question. There was a roll call vote. Reps. Winslow, Bardanouve, Devlin, Menke, Nathe, Rehberg, and Switzer voted YES. Reps. Thoft, Bradley, Connelly, Manuel, Menahan, Miller, Peck, Poulsen, and Swift voted NO. The motion FAILED 7 to 9.

The DO PASS motion was voted on and the roll call vote was reversed.

ADJOURNMENT:

There being no further business, the meeting was adjourned.

Rep. Gene Donaldson, Chairman

HB 875 - WORK OPPORTUNITIES FOR THE
CHRONICALLY MENTALLY ILL

The funding is sufficient to fund one program in one community which provides work opportunities for long term mentally ill clients in the community mental health system. Having a job and earning money is one of the most therapeutic things that can happen to a chronically mentally ill person. However, it requires special efforts and a subsidized program (supported employment) to provide work opportunities for this category of mentally ill persons.

Unfortunately, the existing Mental Health Center contracts with the Department of Institutions do not provide for supported employment for the Center clients. Also, there is not funding available in the department's budget to begin implementing this additional type of therapy.

We have made a great deal of progress in our treatment of the mentally ill in Montana since we deinstitutionalized Warm Springs Hospital in 1975. There are currently eleven community based day treatment programs for the mentally ill in ten cities in Montana. There are nineteen community based group living programs for the mentally ill in eight of those cities.

The supported employment program addressed in HB 875 provides for 1.5 FTE to develop and maintain "Temporary Employment Placements" (TEPs). A TEP is a job slot that a local business will set aside for mentally ill clients. The staff must train clients to do the job and make sure that clients get to work and get the job done. This number of staff would be capable of developing and maintaining six to eight TEPs on a half time basis. Eight to ten clients would be provided with paid employment in a local community business.

2.5 FTE would be able to supervise work crews doing mostly seasonal outside jobs. This number of work crew staff would be capable of providing forty clients with an average of six hours of paid employment per week. In addition to transporting and supervising work crews, the staff would have to continually develop job assignments for the client work crews.

I urge you to consider providing some of the best therapy there is; give a mentally ill person a paid job.

PLEASE NOTE: IF THIS PROPOSED LEGISLATION IS PASSED, FY87, 3/23/87
WOULD BE IMPACTED, AS HEARING OFFICERS WOULD BEGIN THEIR SH 122
WORK AS EARLY AS MARCH 1987. THEREFORE, WE WOULD ASK THAT
THIS APPROPRIATION WOULD BE AVAILABLE IN FY87, FY88 AND
FY899 AS NEEDED.

Assumptions Used in Obtaining Estimates
and Derivation of Estimates:

HIRING OF ATTORNEYS AS HEARING OFFICERS

Estimates compiled through consultation with the following sources:

Office of the Attorney General (AG)
Department of Natural Resources and Conservation (DNRC)
Department of Social and Rehabilitative Services (SRS)

The Office of the Attorney General charges \$45 an hour for the services of their staff attorneys as hearing officers for all the hours involved.

DNRC uses in-house attorneys, contracted attorneys, or in-house technical people. They pay up to \$65 per hour for contracted attorneys, and their in-house, non-attorney hearing officers are most classified as grade 15 and paid approximately \$15 per hour.

SRS uses in-house attorneys and non-attorneys. Again, all non-attorneys are basically paid at a grade 15 level.

Using attorneys as hearing officers for the more complex hearings would involve the following expenditures:

\$45 per hour attorney fee times eight hours equals \$360 per day.

\$8.50 per hour for secretarial help times eight hours equals \$68 per day for secretarial services.

Assuming one day of actual hearing of appeals, plus two days of preparation for hearing and preparation of records, including proposed findings of fact and conclusions of law, or three days times the \$360 cost per day for an attorney serving as a hearing officer equals \$1,080.

To this must be added 2 days of secretarial help (one day of hearings and one day typing record of hearing). \$68 per day times two days equals \$136.

Adding the \$1,080 for the attorney's fees plus the \$136 for secretarial help equals \$1,216.

Assuming that 10 appeals could be heard in one days' hearings, dividing the figure of \$1,216 by 10 appeals equals an approximate cost of \$120 per hearings held in Helena.

Hearings held outside of Helena would have to include mileage and meal reimbursement.

30 days of hearings by a contracted attorney, plus secretarial services, times \$1,216 equals \$36,480.

HIRING QUALIFIED NON-ATTORNEYS AS HEARING OFFICERS

Using \$100 per day as a base figure at a grade 15 salary, and assuming three and one-half days of hearing (one day for actual hearing, 2 1/2 days preparing for hearing, travelling, and preparing record.) gives \$350.

To this must be added the \$136 for two days of secretarial help for a total of \$486 (\$350 plus \$136).

Again, assuming that 10 appeals could be heard in one day of hearings and rounding the \$486 up to approximately \$500:

\$500 divided by 10 equals \$50 per hearing without per diem

50 days of hearings times \$500 equals \$25,000

250 BOYLSTON STREET
BOSTON, MASSACHUSETTS 02116
Telephone (617) 771-3821

March 17, 1987

Representative John Vincent
House Minority Leader
Montana State Legislature
Room 348 - Capitol Station
Helena, MT 59620

Dear Representative Vincent:

Pursuant to our conversation of March 6, 1987, I am writing to support your proposal to create an independent study commission on the Montana State Legislature.

In my experience with reorganizations in both the public and private sectors, successful efforts have always been founded on a high degree of independence and objectivity. This is an essential component of a plan which will reflect Montana's need for a responsive and efficient legislature. Your desire to seek private funding for this endeavor makes an independent commission even more imperative. To do otherwise would, I believe, seriously impair your credibility with private interests, and limit the effectiveness of any eventual change in structure or process.

I wish you well in your proposal.

Very truly yours,

A handwritten signature in black ink, reading "Stephen G. Lakis".
