

MINUTES

MONTANA SENATE
51st LEGISLATURE - REGULAR SESSION

COMMITTEE ON FINANCE AND CLAIMS

Call to Order: By CHAIRMAN PETE STORY, on APRIL 4, 1989, at
8:00 A.M.

ROLL CALL

Members Present: Senator Gary Aklestad, Senator Loren
Jenkins, Senator Esther Bengtson, Senator Matt Himsl,
Senator Paul Boylan, Senator Tom Keating, Senator Judy
Jacobson, Senator H.W. "Swede" Hammond, Senator Pat
Regan, Senator Fred Van Valkenburg, Senator Dennis
Nathe, Senator Greg Jergeson, Senator Gerry Devlin,
Senator Richard Manning, Senator Sam Hofman, Senator
Lawrence Stimatz, Senator Ethel Harding, Senator Pete
Story

Members Excused: Senator Larry Tveit

Members Absent: None

Staff Present: Judy Ripplingale, LFA

Announcements/Discussion: None

EXECUTIVE ACTION - HB 100

Senator Regan presented an amendment that would allow the
department of SRS to develop and implement a pilot
project for medicaid recipients greater options in
obtaining personal care services (Exhibit #1). She
moved the amendment.

The question was called. The motion passed unanimously.

Senator Devlin distributed two amendments regarding the
maintenance and operation of the Canyon Ferry
Recreation area. (Exhibit #2, #3)

Mr. Hyppa, FWP, explained that the first amendment would
give spending authority and the second amendment was
the narrative that was to be inserted in the bill.

Senator Jergeson asked for an explanation of the issue.

Mr. Hyppa replied that there were two major issues that were considered. One was taking over the operation of Canyon Ferry Recreation area and the other was entrance fees. The Long Range Planning and the Natural Resources Subcommittees formed a joint subcommittee to consider policy issues within the Parks Division. The conclusion was to charge entrance fees to help support the cost of management of the area in absence of general fund. He pointed out that one major consideration for state management was the federal government was less responsive. The addition of fees to the funding of the parks program makes it possible to manage Canyon Ferry without a lot of augmentation within the budget. He said it was the departments intent to seek additional federal cost sharing in the coming two years to further support the Canyon Ferry Operation.

Senator Manning asked about the fees. Mr. Hyppa replied that camping and entrance fees had been charged before so it was not new, just an expansion.

Senator Nathe asked if the people out at the lake had a preference of who would manage the area.

Mr. Hyppa replied that it was a divided opinion. He said that 5 public hearings had been conducted over the issue.

Senator Bengtson (472) asked how much general fund and federal funds went into operation and maintenance.

Mr. Hyppa replied that \$50,000 was federal money which was not presently contained in the budget. The rest of the money was parks earned revenue money either from fees earned at Canyon Ferry or elsewhere or motorboat fuel taxes which are earmarked.

Senator Himsl asked for clarification on the contract.

Mr. Hyppa said that the present contract expires September 30. The Bureau of Reclamation is offering a four year contract to carry through the planning process so that both the federal government and the Legislature can look and see if the partnership should be carried forward.

Senator Bengtson asked if the fees that are generated from other state parks go into maintenance at Canyon Ferry or can they be separated.

Mr. Hyppa explained that the funds go into one account but that revenue can be tracked to each site. He said they intend to have a cost share formula to distribute the money equitably, however, it would not send every dollar back to site where it is earned. Does that would mean they would not be able to focus on a capital program on key high priority sites. He pointed out that with the present contract with the Bureau of Reclamation that says they must spend as much as they earn at Canyon Ferry. If there is a profit, the federal government gets the difference.

Senator Hofman asked about future plans.

Mr. Hyppa replied that the present budget at Canyon Ferry was \$175,000 for day to day operations. There is no budget for capital improvements. The new budget including this amendment, would be \$275,500. The increase would be distributed to the collecting of fees and the increased public contact, site security and visitor information in the amount of \$34,000 and then \$29,000 attributed to increased facility repair. If the amendment was passed it would go for similar maintenance like upgrading of facilities. He said if HB 777 is passed then they would commit an additional \$250,000 for major capital improvements. He said the highest priority is the Silos Recreation Area. He mentioned that the federal government would be willing to commit \$80,000 to that \$125,000, bringing it to \$330,000 for the biennium. With this combination of the operations and the capital improvements, there will be substantial difference in the states management of Canyon Ferry. This is a long term program not a one shot deal and needs to have commitment on an on-going basis to bring those facilities up to a good standard, he said.

Senator Aklestad asked about the first amendment if the money was from the new concept of entrance fees.

Mr. Hyppa replied that a good share of it was from entrance fees and the existing camping fees as well as cabin site fees, concession fees, and group use fees. The fees at Canyon Ferry would generate about \$238,000 in the coming year. This would be augmented with motorboat fuel tax or other department sources.

Senator Aklestad asked if they had confirmation to go ahead with the entrance fees.

Mr. Hyppa said that the Fish and Game Commission had been delegated the authority by the Legislature to set fees.

The Commission has adopted a fee schedule and the Legislature must give authorization to spend those revenues. (670)

Senator Devlin moved amendments #2 and #3.

The question was called. The motion passed unanimously.

Senator Stimatz (797) offered an amendment for the operating expenses necessary to implement the provisions of HB 207 for instant ticket sales. (Exhibit #4) He explained that because of the turmoil in the department with changes in personnel that the subcommittee had no meaningful figures to operate with so used the estimated amount of sales which is the \$13 million figure in the bill. That figure is entirely meaningless so the amendment strikes \$13 million and inserts \$2,941,351 for FY 90 and \$2,900,451 for FY 91. All of the lottery money is from the proprietary account and none from general fund. He said the lottery is required to run at a non-loss. Last year they turned in \$8.4 million to the state OPI to reduce the local tax burden for the teachers retirement premium. He noted that there was a new Lottery Commission. HB 207 made drastic changes in lottery procedures since they had learned from experience. He noted that the Lottery Commission would come in each biennium and go through the appropriations process for their budget rather than be locked in to a percentage that changes. He moved the amendment.

The question was called. The motion passed with one no vote.

Senator Devlin offered 7 technical amendments regarding bills that were either signed into law or in House committees for FWP (Exhibit #5).

Senator Devlin explained amendment 1 and 2 concerning profit sharing and paddlefish roe. He moved the amendments.

The question was called. The motion passed unanimously.

Senator Devlin said that amendments to adjust the land and water conservation federal special revenue to a biennial appropriation which is a technical change consistent with the intent of the department and the appropriations subcommittee. He moved amendments #3, 4, 5, and 6.

The question was called. The motion passed unanimously.

(Tape 1-B)

Senator Devlin said that #7 and #11 both refer to SB 446.

He noted that SB 446 was still in House Judiciary. He moved the amendments.

Carl Schweitzer, LFA, noted that it could be amended to say that this money would only be spent if SB 446 passes and an agreement is reached.

The question was called. The motion failed 8-10 on a roll call vote.

Senator Devlin presented #8. He said this was to match federal funds regarding the wildlife habitat improvement. He moved the amendment.

Senator Keating asked if this was part of the pheasant enhancement program.

Mr. Ron Marcoux, FWP, explained that this was a match program with the Bureau of Land Management and Forest Service and the Department of Fish, Wildlife and Parks to do wildlife enhancement projects on federal lands.
(093)

The question was called. The motion passed 13-4 on a roll call vote.

Senator Devlin moved #9. He said this was language that authorizes the department to make a permanent loan from its state special revenue fund to its federal special revenue fund to provide cash flow for federal programs that reimburse the department after expenditures are incurred and paid.

Senator Keating asked how long it took to get paid.

Dave Monica, FWP, replied that normally accounts with the federal government did not need loans. They are either on a letter of credit or a cash reimbursement system. He noted that there was one program that delays about 60 days. He said the loan in the amendment is about a quarter of a million dollars and represents about 2 months of cash outlay to the program.

Senator Aklestad asked what type of activity were the funds utilized for. He asked if they were trying to get a

permanent loan from the state special revenue fund or a grant to enhance federal funds. Mr. Monica replied that the money was coming from cash balances in the license account.

Carl Schweitzer (286) commented that the department was advancing some cash to make sure they have the ability to pay for these programs and the federal government will reimburse them so there is no change in appropriation authority as far as where money is going to be expended. It is just taking some hunting and fishing license money and advancing it for the federal programs.

The question was called. The motion passed unanimously.

Senator Devlin moved #10.

Carl Schweitzer clarified that throughout the department there was a line item called legislative contract authority. He said this was spending authority for either federal or private funds. It is put in the special revenue account because also they receive private grants and with SB 80 it allows them to spend private funds out of that appropriation authority but are still limited by the million dollar appropriation authority.

The question was called. The motion passed unanimously.

Senator Jenkins offered an amendment that would allow FWP more flexibility in its' collective bargaining with wardens. (Exhibit #11) (458) He moved the amendment.

Senator Jenkins explained that the subcommittee allowed \$40,000 a year of increased travel funds and the amendment gives the department more flexibility in bargaining with wardens by removing the word travel. The travel was for flexibility for 40 hours a week.

Senator Regan said the subcommittee must have felt it was important to give them some additional travel funds. If the word travel is struck, they now have \$40,000 which may be used.

Senator Jenkins explained that wardens are busy at particular times of the year. They are trying to negotiate so the wardens can be out in the field in those busy times of the year. If they successfully negotiate so the wardens are spending more than 40

hours a week during hunting season then their travel goes up during that period of time.

Ron Marcoux explained that flexibility is needed for the department in negotiating because they are dealing with potential overtime options as well as increased comp time.

Senator Hammond pointed out that this was trying to address the problems where there are no wardens on weekends when all the hunters are there.

The question was called. The motion passed with one no vote by Senator Aklestad.

Senator Jenkins offered an amendment that would remove a position dealing with designing wildlife and fisheries information for schools for a savings of \$27,874 per year of license funds. (Exhibit #12)

The question was called. The motion passed 14-3 on a roll call vote.

Senator Hofman offered 3 amendments regarding the Public Service Commission (Exhibit #13). He pointed out that the PSC will host the 1990 Western Regional Conference so the need for out-of-state travel is reduced.

John Driscoll, PSC, (745) commented that the Commission was anxious to have both items placed in the budget. The out of state travel is necessary for the Commission to respond for modern day regulatory realities. He said the staff needed training and this could not be gotten in the state. The Commission needed to intervene repeatedly in federal court when Congressional actions affect utilities that they regulate. Telecommunication, gas and electricity had to be coordinated with other states and that required more out-of-state travel. He pointed out that the Montana PSC is considered poor boys in the business. He noted that the appropriation for the consultants would revert back to the general fund if it is not used. He said they don't know ahead of time where they will need expert advise.

Senator Aklestad asked if the \$21,000 they were taking out was just a portion of the total increase above and beyond last budget as far as travel.

Carl Schweitzer replied that out-of-state travel had been

increased by \$43,766 in FY 90 and \$43,726 in FY 91.

Senator Aklestad noted that the \$21,000 was a little over half of what the increase was. They are getting an increase of a substantial amount of money even with this amendment.

Senator Story commented that what the utilities pay in their tax to support the Commission is built into their rate base as one of their tax expenses. Whatever PSC charges the utilities it jacks the rate up so it is the public that pays.

John Driscoll replied that was correct. He pointed out that there was an expense to the ratepayers but the benefits were very great.

The question was called on the first amendment. The motion passed 10-7 on a roll call vote.

Senator Hofman moved the second amendment. He said was not the year for such large increases for consultants.

Senator Nathe asked where this money would revert. Carl Schweitzer replied that if it doesn't get spent it remains in the account and is available for the next year as part of the revenue that is available for appropriation. The rate that is charged to the utilities is justified.

Senator Keating asked if the Consumer Counsel had consultant fees in their budget as well.

Senator Devlin noted that Consumer Counsel had requested money for consultants also. Part of the reason for this money to the PSC was the issue of development of cases where the Montana Consumer Counsel is unable or declines to hire consultants. He thought this was a duplication.

Senator Jergeson pointed out that there were many decisions that will be made in Washington that will affect ratepayers in Montana adversely and the consultant money would be helpful. This consultant money would help save ratepayers money.

Senator Hammond asked how money was spent for consultants in the past biennium. Mr. Driscoll replied approximately \$12,000 over the biennium. Additionally money was spent from other funding sources.

(Tape 2-A)

Mr. Driscoll explained that the trend was more and more

things were being decided in front of the federal agencies. The magnitude of the dollars are substantial.

The question was called on the second amendment. The motion failed 9-9 on a roll call vote.

Senator Hofman explained that the third amendment was an appropriation for consultants to be line-itemed.

The question was called on the third amendment. The motion passed unanimously.

Senator Devlin presented an amendment that would reduce the consultant services program expansion (Exhibit #14). He said that \$100,000 between the PSC and the Consumer Counsel should be enough. He moved the amendment. He clarified that this was for the PSC, Page C-1, line 12.

The question was called. The motion passed 10-8 on a roll call vote.

Senator Devlin said he would hold off on the amendment reducing the expert witness fees for the Consumer Counsel until Section A was opened up and additional information was received. (Exhibit #15)

Senator Devlin offered an amendment that would eliminate the Rail Safety Inspections Program within the PSC. He said this would remove the state from the railroad track inspection business. He pointed out that the railroad have financial interest in keeping the tracks safe. He moved the amendment. (Exhibit #16)

Senator Manning said he was opposed to the amendment. He said he did not see any movement by the railroads in Montana to correct some of the problems. He said there have been a lot of serious accidents.

Mr. Bunt, PSC, felt that the track inspection program was very important to the state of Montana. He said the federal inspectors have responsibilities out side of the state. Montana inspectors have different priorities and they look at branch lines. There is no duplication and the PSC requests that the position be left.

The question was called. The motion failed 5-13 on a roll call vote.

Carl Schweitzer presented information that was requested on the Consumer Council. He said that \$100,000 has been appropriated since 1984 so it is not an additional amount that had been added to the Consumer Counsel.

Senator Devlin said he had some information that they had not used the contingency fund. He said it was put in there in 1981 and had been a contingency ever since. Their contracted services are within their budget and that usually suffices. He withdrew the amendment (Exhibit #15).

Senator Hofman presented an amendment on the Department of Agriculture. He said since the department had more federal revenue than was appropriated the amendment decreased general fund (Exhibit #17). He moved the amendment.

Ralph Peck, Department of Agriculture, said there was no problem with the amendment.

The question was called. The motion passed unanimously.

Senator Devlin presented 3 amendments regarding agriculture funding. (Exhibit #18) He said these deal with passage of bills. The first amendment deals with passage of HB 477 and the noxious weed program. He moved the first amendment. Carl Schweitzer noted that #1 and #3 went together. Senator Devlin amended his motion to include #3.

Senator Jenkins commented that most of this money was used to fight weeds and now all of a sudden this is weed coordinator money.

Senator Devlin replied that #3 was general fund for weed coordination was reduced. He said this was originally funded out of the general fund and being that HB 477 carries a pile of money with it he felt it was only right that the noxious weed funds start paying for the coordinator.

The question was called. The motion passed with Senators Jenkins, Bengtson and Regan voting no.

Senator Devlin moved the second amendment.

The question was called. The motion passed unanimously.

Senator Devlin presented amendments on Department of State Lands (Exhibit #19). He explained that these bills had been signed by the Governor and the amendments were in regards to fiscal notes and expenditures. He moved the first amendment.

The question was called. The motion passed. (848)

Senator Bengtson noted that it was difficult to cast an informed vote because the bills had not been heard.

Senator Devlin said that the second amendment had been signed by the Governor. He moved the second amendment. He said this requires small miners to reclaim disturbed land.

Senator Van Valkenburg pointed out that Department of State Lands did not need all the people right now. There are some ways to get two for the price of one. There are some additional costs associated with doing some of these things but there would be delayed startup for some of it. Does there really have to be an entire person do this.

Senator Regan pointed out that there were 326 actual FTE in the department. The division had 32.5 FTE and they have been given computer upgrades and supposedly they can work more efficiently and free up people. They can do these things without extra FTE.

Senator Hammond (010) commented that both #2 and #3 added an extra person. If they are not real busy, they make themselves busy and create a lot of harassment. It would be better to be short.

Senator Keating asked how many reclamation experts were in the department now.

Mr. Williams replied that there were 8 mine specialists in the Hardrock Bureau presently.

Senator Jenkins pointed out that HB 679 went all the way through the Session with no fiscal note and then here comes one FTE with a fiscal note. He recommend that #2 be dropped.

Senator Story said there was no time to consider fiscal notes since the bill had to be completed before tomorrow at 8:00 a.m.

Senator Devlin held the amendment until the department could respond.

Senator Jergeson presented an amendment that would increase the grant to the Montana Salinity Control Association that was funded with Reclamation and Development funds. (Exhibit #20)

(Tape 2-B)

Senator Aklestad asked where the other amendment was in the budget that pertained to saline seep.

Senator Jergeson replied that the Fish and Game Department budget will provide for some of the upland game bird money to be used on specific sites that are suggested by Montana Salinity Control for vegetation planting. He said the fish and game budget does not supplant or cover the operations of Montana Salinity Control.

The question was called. The motion passed with one no vote by Senator Keating.

Senator Devlin offered an amendment regarding HB 757 to add a \$15 fee for pesticide registration. The Department of Agriculture would receive an increased general fund appropriation and to carry out its responsibilities. This would add an FTE to be phased in.

The question was called. The motion passed with 4 no votes.

Senator Jergeson offered an amendment that would reduce the Department of Commerce director's office out-of-state travel (Exhibit #22). He said the amendment would reduce one of the 6 trips to the Pacific Rim Office. He pointed out that this was a small reduction.

Mr. Letson, Commerce Department, discussed the out-of-state travel. He said the increase is about a \$400 increase because of air fare increases. The out of country travel restrictions would reduce the trips to the far east by 50%. He pointed out that it would be a detriment to him in pursuit of his occupation if the travel budget was cut in this proportion.

Matthew Cohen, from the department, addressed the foreign travel. He (298) said he administered the Pacific Rim office in the state of Montana. He explained that in dealing with the Pacific Rim, the physical presence of

people in authority is very important. He pointed out that these trips for the Director was very beneficial in what the state was trying to accomplish.

Senator Keating asked what other state officials travel on these trips to the Pacific Rim.

Mr. Letson replied that it varied with the nature of the trip. He said that sometimes the Governor went, director of Department of Agriculture, the Commerce Business Assistance director.

Senator Keating asked if their out-of-state travel budget was reviewed as well.

Evan McKinney, LFA, said this was addressed in subcommittee. He said the original budget had 8 trips to Tokyo. The subcommittee removed two of those.

Senator Story asked if the Department of Agriculture pay for its trips to Japan in their budget.

Everett Snortland, Director of Department of Agriculture, replied that the funding for any trips made by the director or any of the personnel of the department would instigated through the Growth Through Agriculture fund which came from the Department of Commerce to the Department of Agriculture this legislative session. He pointed out that it was important to open an avenue of commerce in order to achieve export of Montana agricultural products.

Mike Murphy, administrator of Growth Through Agriculture, discussed specific out-of-state travel. He said there were some funds available for foreign travel. He said there was two trips for the director (393) to Japan. Outside of that there is potential for an additional trip for the marketing program manager for marketing.

Carolyn Doring, from the department, clarified that this would cut it down to one trip per year for the director.

Senator Devlin asked for clarification whether there were two foreign trips shifted to the Governors Office.

Evan McKinney, LFA, replied that the subcommittee took them out of the budget and they were no longer in the Governor's budget.

Senator Aklestad commented that the Pacific Rim holds a brighter future for the state of Montana in developing

more foreign trade. The potential is to make money for the state of Montana and would in turn generate more money for the state.

The question was called. The motion failed 5-13 on a roll call vote.

Senator Hofman offered an amendment that would divert a portion of the coal severance tax local impact grants from the coal board to the general fund. (Exhibit #23) He pointed out that the coal board had been carried a cash balance of more than \$300,000 which could be used to respond to a worthy new project within the coming biennium. He moved the amendment.

Senator Nathe asked if this would do away with impact funds for the highway in Big Horn County.

Newell Anderson replied that it would.

Senator Keating asked if the amendment failed and the money remains in the coal board local impact fund, what would the chances be for building of that highway.

Newell Anderson replied that the Hanson bill was intended to provide some coordinating language between that bill and HB 100. He said that highway projects in the coal counties were a high priority but he did not know what the coal board would do.

Senator Regan asked if the bill could be held til afternoon until more information could be supplied about impact.

Senator Hofman held the bill.

Senator Jacobson presented an amendment that would appropriate money to the Board of Dentistry to conduct a study of accreditation standards of dental hygiene training. (Exhibit #24) (094) She pointed out that Carroll College had the only dental hygiene program in the state of Montana and they are phasing that program out. She noted that there was a great deal of concern among the Board of Dentistry and dentists in the state to try to find a program. She said this appropriation was from their Board from their fees that they collect from dentists. She mentioned that they were going to look at either putting a two or four year program into one of the state schools.

Senator Regan asked if there were national standards for

dental hygienists.

Roger Tippy, (161) explained that there were two sets of standards for accreditation in the program. A consultant is needed to study the standards.

(Tape 3-A)

The question was called. The motion passed with two no votes.

Senator Devlin re-presented the amendments on Department of State Lands (Exhibit #19) He moved amendment #2 and #3 combined.

Gary Amostoy, Administrator of the Reclamation Bureau, said a fiscal note was not prepared on HB 679. He said they felt another person was needed to bring the program up to speed.

Senator Aklestad made a substitute motion (256) in item #3, delete item #2 and give them the funding level of #3 and one FTE. They would have the authority to institute the program and incorporate the FTE and funding in #3.

Senator Story clarified that this would give them one man to administer both programs with the funding level of #3.

The question was called on the substitute motion. The motion passed 11-7 on a roll call vote.

Senator Devlin moved item #5 of the amendment (Exhibit #19). He said this had to do with leased cabin and home sites.

Senator Van Valkenburg commented that this would be an appropriate area for contracted services but not for building an FTE into the base for selling cabin sites.

John Northy said that SB 91 permits the department to unload undesirable property and it was a new idea.

Senator Keating commented that this would be spending \$100,000 and that property may not sell anyway.

The question was called. The motion failed (536).

ADJOURNMENT

Insert: "3,935,127 3,995,116"

These amendments allow the Department of Fish, Wildlife and Parks to implement HB289, which permits donations of paddlefish roe to a non-profit corporation with one-half of the net profits earmarked for the department. Because the amount of profit-sharing which may be realized is uncertain, this amendment utilizes license fees and federal funds to meet department responsibilities for the 1991 biennium.

No. 1 increases the fisheries budget in FY90 by \$4,662 license fees and \$13,986 federal funds for a total of \$18,648 and in FY91 by \$5,932 license fees and \$17,798 federal funds for a total of \$23,730.

No. 2 increases the enforcement budget by \$9,500 of license fees each year. (Reference fiscal note.)

ex. #5
4-4-89

Reservation on management of fish and wildlife resources, is to add \$12,100 in FY90 and \$10,700 in FY91. Operating expenses of the department increase by \$3,000 each year for costs of the state-tribal cooperative board and by \$2,000 in FY90 for four (4) public meetings. The balance of the increase is authority required to transfer fines and restitution to the Tribal Council. (Reference fiscal note and Amendment No. 11 below for contingency language.)

8. Page C-10, line 5.

Strike: "306,004 294,354"
Insert: "356,004 369,354"

The department is authorized in HB100 for wildlife habitat improvement \$50,000 in FY90 and \$75,000 in FY91 to match with federal Sikes Act funds. Because the department may manage the projects, this amendment adds a like amount of federal authority for the matching federal revenue.

9. Page C-13, following line 24.

Insert: "The department is authorized to make a permanent loan from its state special revenue fund to its federal special revenue fund to provide adequate cash flow for federal programs that reimburse the department after expenditures are incurred and paid."

Because some federal programs operate on a cash reimbursement basis, the department is required to temporarily provide cash for these programs until reimbursement is forthcoming. This amendment would allow a permanent transfer of cash during the 1991 biennium for such programs, with the loaned funds to be returned to accounts from which the loan originated if a federal program were terminated. This item, which is to comply with legislation adopted during the 1983 session, was overlooked earlier this session. It is the intent of the executive branch to recommend a statutory change in departmental legislation during the 1991 session, rather than continuing to handle this matter in the general appropriations act.

10. Page C-13, following line 24.

Insert: "If the department receives private funds for the costs of the fisheries, wildlife, parks or conservation education divisions, it may increase its state special revenue appropriation and decrease its federal revenue appropriation by like amounts to implement the provisions of SB80."

This amendment will enable the department to comply with the change in the state fund structure in the event SB80 is passed.

11. Page C-13, following line 13.

Insert: "Item 8a contains \$12,100 in fiscal 1991 and \$10,700 in fiscal 1991 which is to be spent only if SB446 is passed and an agreement is reached with the Confederated Salish and Kootenai Tribes of the Flathead Reservation.."

This is contingency language for Amendment No. 7 above.

Insert:	"162,254	125,462	166,494	127,162"

Passage of HB477, which increases the Noxious Weed Control Program state special revenue by \$760,000 each year of the 1991 biennium, reduces the general fund in centralized services by \$19,000 each year and increases state special revenue by a like amount. The indirect costs are assessed at 2.5% of program grants.

2. Page C-3, line 13.

Strike:	"487,718	499,867"
Insert:	"497,968	510,117"

The fiscal impact of HB360, which establishes a Montana Mint Committee under the administration of the Department of Agriculture, would increase the state special revenue and the program costs of the Plant Industry Division by \$10,250 each year of the 1991 biennium. (Reference fiscal note.)

3. Page C-3, line 15.

Strike:	"251,688	1,041,914	247,387	993,608"
Insert:	"213,099	1,782,914	208,425	1,734,608"

The fiscal impact of HB477, which adds \$1.00 to the weed control annual fee on motor vehicles subject to registration, is to increase the Noxious Weed Control Program state special revenue and expenditures by \$760,000 each year of the 1991 biennium. This amendment increases state special revenue by \$741,000 each year because \$19,000 of the increase was added in Amendment No. 1 above. (Reference fiscal note.) In addition, general fund for weed coordination is reduced by \$38,589 in FY90 and by \$38,962 in FY91 as a result of the increased state special revenue available for the program.

Insert:	"486,504 495,718	474,458	514,867"

The fiscal impact of HB757, which establishes an agricultural groundwater protection program, adds a \$15 fee for pesticide registration, generating \$74,835 per year to be deposited to the general fund pursuant to 80-8-201(4), MCA. Consistent with the fiscal note, the Department of Agriculture is to receive an increased general fund appropriation of \$44,901 each year of the 1991 biennium to carry out its responsibilities. In addition, there is increased Department of Agriculture state special revenue authority for workshop fees in the amount of \$8,000 in FY90 and \$15,000 in FY91. The Department of Agriculture will add a laboratory technician, grade 10, to be phased-in at 0.24 FTE in FY90 and at 1.00 FTE in FY91 and future years. The Department of Agriculture will cooperatively prioritize collection of necessary data on selected aquifers with the Montana Bureau of Mines and Geology (MBMG) by utilizing a portion of the above appropriation to contract with MBMG.
