MINUTES

MONTANA SENATE
51st LEGISLATURE - 1ST SPECIAL SESSION

COMMITTEE ON EDUCATION

Call to Order: By Chairman H.W. Hammond, on June 23, 1989, at 11:00 A.M., Room 402

ROLL CALL

Members Present: Chairman Hammond, Vice Chairman Nathe, Senator Blaylock, Senator Brown, Senator Pinsoneault, Senator Farrell, Senator Regan, Senator Anderson, Senator Mazurek

Members Excused: None

Members Absent: None

Staff Present: Dave Cogley, Legislative Council

Announcements/Discussion: Chairman Hammond announced that the committee would take executive action on HB 16, SB 5, and then they would discuss how to approach SB 7 and SB 20.

DISPOSITION OF HOUSE BILL 16

Discussion: Senator Nathe asked if HB 16 had to go to appropriation, as there were some appropriations contained within the bill. Chairman Hammond said it probably would.

Amendments and Votes: None

Recommendation and Vote: Senator Pinsoneault made a motion HB 16 BE CONCURRED IN. The Question Was called for. The motion Carried Unanimously. Senator Brown carried the bill on the Senate floor.

DISPOSITION OF SENATE BILL 5

Discussion: Senator Regan said the teachers were hired by contract, and their extra duty assignments may or may not be reimbursed, depending on the master contract. The section pertaining to the idea of their hourly wage, was entirely unworkable. She said she didn't think this was the manner to handle the problem.

Amendments and Votes: None

Recommendation and Vote: Senator Regan made a motion SB 5 DO NOT PASS.

Discussion: Senator Regan said she would withdraw her motion, and make a new motion. She said she felt it would probably be better to table the bill, in order to avoid a long floor discussion. Senator Hammond stated that he would accept her withdrawal.

Recommendation and Vote: Senator Regan made a motion to TABLE SB 5. The Question was called for. The motion Carried Unanimously.

DISPOSITION OF SENATE BILL 7 & SENATE BILL 20

Discussion: Senator Brown suggested they use the same method of procedure which the committee had used in the regular session. He said that Exhibit #1 presented a comparison of SB 7 and SB 20, and he thought they could follow that comparison, to beginning choosing points the committee wished to use.

Senator Regan asked to submit the comprehensive consensus points the committee had utilized during the regular session. (See Exhibit #2) Chairman Hammond said they could be presented as an extra resource, if she wished.

Senator Mazurek said he had a spreadsheet for SB 7. (See Exhibit #3) He said he would like to mention the caveat, that apparently there was some confusion of how to treat the flat tax idea, pertaining to net and gross proceeds. He said that could cause some fluctuation of numbers.

Senator Blaylock said he liked the suggestions, and proposed that the committee follow the consensus points, taking material from SB 7 and SB 20, to construct a committee bill. He said that would allow them to look at the millage factor, and the energy taxes, which were both crucial.

Senator Brown suggested they proceed, by following the points on exhibit #1, and adopt the measures they wished to use from the two bills.

Chairman Hammond said that it seemed to be the consensus of the committee to proceed in that manner.

Chairman Hammond stated that columns 2 and 3, of exhibit #1, made the comparison of the two bills they had in committee. He also stated that item number one was the mandatory county retirement levy for PERS.

Senator Pinsoneault asked if each sponsor could address what their provision called for on the items, then the committee could have a general discussion. Chairman Hammond said that was also his thought and intent.

Senator Nathe told Senator Farrell that his proposal did follow the Eudaily amendment from the conference committee, from the regular session. He said he had a spreadsheet to present for his proposal. (See Exhibit #4) He said column 11, projected the mandatory mills the school districts may have to impose. He stated that the non-levy revenue sources of money were not figured in, and this only included the levy on property. Senator Nathe also distributed a second spreadsheet. (See Exhibit #5)

Amendments and Votes: Senator Brown moved to adopt the Schye-Mazurek language in item number one, as it applied to retirement and special education.

Senator Brown withdrew his motion, and asked that the issue be set aside while additional information was prepared.

Discussion: Senator Brown made a motion to recess for lunch, while the information was being prepared. Chairman Hammond announced that the committee would reconvene at 1:30 p.m..

Chairman Hammond called the meeting back to order, and reiterated that they had been preparing to approach item number two, which was the allowable district levy for comprehensive insurance.

A comparison of public school equalization proposals was distributed by the Legislative Fiscal Analyst. (See Exhibit #6)

Amendments and Votes: Senator Mazurek moved that comprehensive insurance be funded at 100% of 1988 costs in the foundation program schedule base. Senator Nathe called for the question. The motion Carried Unanimously.

Chairman Hammond stated they would proceed to item number three, foundation program schedule funding not based on actual costs of operating schools. He said the two bills had dealt with the PL 874 monies differently, and

one bill was at 90 percent and the other bill proposed funding at 100 percent.

Dave Cogley explained that the 90% figure referred to the general fund amount, and the insurance amount, and the 100% referred to retirement.

Chairman Hammond explained, that was because Senator Nathe had included retirement in the general fund, and Senator Mazurek had retirement outside of the general fund.

Amendments and Votes: Senator Nathe moved that they accept the foundation program schedules for fiscal year 1991, based on 90% of the districts 1988 general fund, minus the special ed and special ed retirement, and PL 874, plus the insurance, and 100% of the retirement.

Senator Regan stated that they hadn't determined whether or not they wished to include retirement, and thought they should consider retirement and PL 874 funds as separate issues.

Senator Mazurek asked why they should exclude PL 874 funds, if this was only for the purpose of the caps? Senator Nathe said PL 874 had been kept out, because not all schools qualify for those federal impacts, and distorted many of the figures. He said he thought that by separating PL 874 monies, they were recognizing their constitutional obligation, wherein they were recognizing the culture of the native americans and their special educational requirements.

Senator Mazurek suggested that they may be able to use a lower percentage, such as 90%, if it was built into the base.

Senator Regan said that may be possible, if they used the foundation program schedules which reflected any increase granted by Legislature.

Dorie Nielson told Senator Regan that 30% of PL 874 funds could not be equalized in the future. She said that if that portion was removed, the portion which remained, would account for real expenditures. She said that when you removed PL 874 funds from the base, you took it out of the base for every school district, and would reduce the foundation program.

Judy Rippingale told Chairman Hammond that if the PL 874 funds were left in the base you raised the state's base by the approximate $18,000,000 expense portion, but you

didn't put the revenue portion in. She said the affect was that it cost the state to do this, and the PL 874 schools would still have that amount of money coming to them.

Senator Nathe Withdrew his motion.

Senator Nathe stated the present difference between the two bases being worked from, was that the retirement included in the base of SB 20, minus the PL 874 funds in SB 7 left a $36,000,000 difference.

Senator Pinsoneault suggested that the retirement issue was standing in the way of proceeding, and said he felt they needed to resolve that first.

Chairman Hammond responded, by suggesting the committee take care of the retirement issue first.

Senator Farrell presented the figures he had asked Dorie Nielson to prepare. (See Exhibit #7) Senator Farrell said he had asked to have the Eudaily amendment put in, by category, and these were the figures regarding actual costs, if a school was 10% out of line with the other schools in that category.

Dave Cogley said the Eudaily amendment was that 100% of 1988 retirement costs would be in the schedules, and distributed through the schedules per ANB, and if the district had actual retirements costs greater than 10% of its foundation schedule amount, it could have a mandatory deficiency levy to make up that difference.

Dorie Nielson explained exhibit #7, as taking retirement expenditures for 1988, to find the cost per ANB for each school district, and determine the average for each category. She said the handout showed the fluctuation within the categories. She said this showed the percent retirement was in general fund expenditures.

Senator Mazurek said he felt that if they went with the Eudaily amendment, the disparity would increase, and they would need to pick up a greater share of state funding in some other area.

Senator Farrell stated that they had to choose whether they believed in using the Eudaily amendment or not.

Chairman Hammond stated that the Eudaily amendment was trying to put greater responsibility on the district, for what their costs were going to be. He said that he

supposed that how they did that, would be through negotiations with teachers, because that was the only handle they really had.

Senator Pinsoneault asked, if the retirement benefits were set by statute, and were not negotiated, what was left to negotiate at a local level? Chairman Hammond said the only variance would be, that the longer you had a teacher, or the higher the salary was, the greater the retirement costs would be. Discussion revealed that retirement bonuses would also affect costs of the retirement program.

Amendments and Votes: Senator Pinsoneault moved to fund retirement outside of the foundation program, separate retirement fund, at full costs reimbursed by the state except discretionary retirement costs incurred by districts for termination pay or lump sum deferred compensation to be funded with district permissive levy. Senator Pinsoneault said he would like to reserve modification to the motion, if it passed, that a phase-in be considered if it was deemed appropriate by the committee. Senator Farrell called for the Question. The motion Carried, with Senator Nathe opposing the motion.

Chairman Hammond directed the committee's attention to item number three, of the spreadsheet.

Senator Mazurek asked Dorie Nielson to put the numbers he had asked her to prepare, on the blackboard, to explain the base. Dorie Nielson said she would present the rounded figures, excluding transportation, and stated she was using general fund figures, without special ed.

Amendments and Votes: Senator Mazurek moved to include the foundation program schedules for 1991, based on 100% of the districts 1988 general fund and comprehensive insurance costs, except remove the PL 874 support from the schedule base, and not include any fiscal year 1990 increase in the base. Senator Regan called for the Question. The motion Carried Unanimously.

Chairman Hammond said item number six stated that there would be no statutory expenditure limitations, except for I-105. Both Senator Mazurek and Senator Nathe agreed that there was an amendment needed. (see Exhibit #8)

Dave Cogley said there was a question as to how this should be written. He said the amendment stated that they were frozen at the level of an average of 1988 combined

expenditures. He said that if they wanted the caps to be based on the general fund insurance and teachers retirement, that decision would have to be made, before they could determine the level.

Senator Regan said retirement wasn't presently included in the foundation program schedules. She said, if they were to include retirement, for purposes of determining the cap, that would have the affect of pushing the cap upward. She asked if that didn't allow the higher spending districts greater leeway?

Senator Farrell asked why the years had been switched? Senator Nathe said it had been brought to his attention that those numbers should be changed. He said that by using 1989 and 1990, by 1991 there wouldn't be figures available, so it should be 1988 and 1989.

Senator Nathe said they should consider retirement, by either adding it for the purpose of the caps, or looking at not using expenditures, but budgets or something like that. He said that was going to place those schools which were frozen, in a tough spot.

Senator Mazurek said he agreed, and he thought they should take 1988 general fund retirement insurance, and bump it up.

Senator Nathe said he was trying to say that the dollar amount should be increased, for the benefit of the schools which were capped. He said that was what Senator Regan had been speaking to, that they were capped at a percentage of a certain amount of dollars. He said he would like to see that dollar amount, in the cap, increased, so that less schools would be frozen. He said he realized that it created a disparity, but there was a limit when there was going to be a severe impact to a large number of schools.

Dave Cogley told Senator Farrell that the amendment (exhibit #8) talked about the level at which those districts which were above the cap, were frozen, and had nothing to do with where the cap was. He said the amendment allowed the use of the average of the 1988, 1989 expenditure, to determine at what level a district was to be frozen.

Chairman Hammond said they would have to determine the caps, before they could deal with the amendment.

Amendments and Votes: Senator Mazurek moved that the expenditure cap be set at a percentage of the

foundation program, which was equivalent to 117% of 100% of the average 1988 expenditures, except districts which were above 117% of average in 1988, were frozen at the 1988 level. Senator Regan called for the Question. The motion Carried Unanimously.

Chairman Hammond asked Jim Smith to explain the amendment? Mr. Smith said the amendment asked that districts be allowed the option of using the average of 1988 and 1989, to set the ceiling.

Amendments and Votes: Senator Mazurek moved the amendment in exhibit #8. The motion Carried Unanimously.

Brief discussion revealed that the two bills were proposing the same thing in items #5, #8, #9, #12, #13, #14, and #16. Senator Regan asked if they would like a motion to adopt the items they were not changing, for the record to reveal their having been accepted? The committee concurred that as being a good idea.

Amendments and Votes: Senator Brown moved to adopt items #5, #8, #9, #12, #13, #14, and #16, as shown on exhibit #1. Senator Pinsoneault called for the Question. The motion Carried Unanimously.

Senator Nathe presented an amendment for item #10, which Representative Cobb had prepared for SB 7 and SB 20. (See Exhibit #9) He asked Dave Cogley to explain the amendment. Dave Cogley said the amendment removed the reserve limitation for those schools who were voluntarily consolidating.

Senator Mazurek stated that it also provided that they never had to drop below a $10,000 reserve level.

Senator Nathe explained that it was a two part amendment which fit both bills. He said it had originally been designed for HB 39, so the lines would have to be changed, but that did not present a problem.

Senator Regan asked for an explanation of (c), in amendment #3? Senator Mazurek said all of the bills provided that if fifty percent bonus payment was paid on consolidation, it would not be considered as part of the reserve.

Amendments and Votes: Senator Nathe moved to adopt the Cobb amendment, exhibit #9. Senator Brown called for the Question. The motion Carried Unanimously.

Senator Nathe presented an amendment to provide

implementation for appropriation in HB 16. (See Exhibit #10)

Dave Cogley state that HB 16 contained $240,000 which was reappropriated, to implement GAAP. He said that appropriation was already in HB 16, and was irrestrictive of the fiscal note. He said the amendment was speaking to the balance of the money needed, for OPI to implement the equalization plan.

Dave Cogley said he would recommend holding HB 16, pending passage of an equalization bill containing the provision needed, or coordinating the committee bill to take out those provisions, so HB 16 could go through. He said the $353,950 appropriation contained both the cost of implementing the equalization plan, and the cost of implementing GAAP.

Amendments and Votes: Senator Nathe moved adoption of a coordination instruction clause, to be inserted in the committee bill, to remove appropriation for implementation of GAAP requirements if HB 16 passed. The motion Carried Unanimously.

Chairman Hammond reminded the committee that they would need to continue with item #10, because all they had done was amendments to the issue.

Senator Mazurek stated that he thought it would be helpful if the LFA and OPI people could be available to assist with the funding issues, when the committee met the next day. He said there had been some changes in the percentages, and that could affect the amount of the mills and different options.

Chairman Hammond asked for that confirmation, from representatives who were present from those departments. He announced that the committee would meet at 11:00 a.m..

Recommendation and Vote: None

ADJOURNMENT

Adjournment At: 4:49 p.m.

JUNE 22, 1989

A SUMMARY OF

SCHOOL FUNDING EQUALIZATION PROPOSALS:

JUNE 19, 1989 - SPECIAL SESSION

Prepared for the

House Education and Cultural Resources Committee
Senate Education and Cultural Resources Committee

by

Andrea Merrill, Staff Researcher, Legislative Council
Dave Cogley, Staff Attorney, Legislative Council

Revised June 20, 1989

(BILL NUMBERS ADDED JUNE 22, 1989)

GLOSSARY OF ABBREVIATIONS USED IN CHART

ANB -- average number belonging

Bldg./debt -- district debt service, building fund, building reserve

CPI -- Consumer Price Index

Elem. -- elementary schools

FP -- Foundation Program

FY -- school fiscal year (i.e., FY 91 = school fiscal year beginning July 1, 1990)

GAAP -- Generally accepted accounting principles

GF -- school district general fund for operation and maintenance

G.T.B. -- Guaranteed tax base

H.S. -- high schools

I.T. -- income tax

M -- Million

PERS - Public Employees' Retirement System

SS -- Social Security

Spec. ed. -- special education

Transp. -- transportation

TRS -- Teachers' Retirement System

UI -- unemployment insurance

Exhibit # 1
6/23/89 SB 7 & 20

	CURRENT	KADAS/ RAMIREZ HB 39	HB 28, SCHYE SB 7, MAZUREK	SB 20 NATHE	HB 45 (GOVERNOR'S) HANNAH
1.	Mandatory county retirement levy for TRS, PERS, SS, UI; using lottery for equalization (25-mill ave.)	No change from current law except mill value guaranteed for levy in low wealth counties. Spec. ed. retirement funded from retirement levy. Lottery diverted to state equalization aid	Separate fund. Eliminate levy. State aid to fund district's actual costs. Spec. ed. retirement as allowable cost	Retirement in GF, funded through FP schedule with deficiency levy for districts with retirement costs greater than 10% of FP schedule. Spec. ed. retirement as allowable cost	Retirement in GF, funded through FP schedule with deficiency levy for districts with retirement costs greater than 10% of FP schedule. Spec. ed. retirement not allowable cost
2.	Allowable district levy for comprehensive insurance (5-mill ave.)	Eliminate levy. Insurance in GF.	Eliminate levy. Insurance in GF. 100% of 1988 costs in FP schedule base	Eliminate levy. Insurance in GF. 90% of '88 costs in FP schedule base	Insurance in GF. Eliminate levy
3.	FP schedule funding not based on actual costs of operating school. % increases by legislature (1% since FY 86)	FP schedule increased by % shown in #11. Additional equalization aid provided for retirement, transp., and GF costs not supported by FP by subsidizing mill value per ANB in low wealth districts up to statewide mill value per ANB	FP schedules for FY 91 based on 100% of districts' 1988 GF and insurance, plus any % increase for FY 90. Include 70% of PL 874 in base	FP schedules for FY 91 based on: 90% of districts' 1988 GF (minus spec. ed. & PL 874) and insurance (minus PL 874) and 100% of retirement	FP schedules based on desire to equalize funding for 80% of FY 91 projected costs for GF, insurance, and retirement

Exhibit # 1
6/23/89 SB 7 & 20

	CURRENT	KADAS/ RAMIREZ HB 39	HB 28, SCHYE SB 7, MAZUREK	SB 20 NATHE	HB 45 (GOVERNOR'S) HANNAH
4.	Mandatory 45-mill levy, collected at county (28 mills elem., 17 mills h.s.)	No change in county levy. Collect 50 state mills. Effective FY 91.	Collect 47 elem. & 28 h.s. mills at county. Collect 45 state mills. Effective FY 91	Collect 46.67 elem. mills & 28.33 mills at county. Effective FY 91	Collect 53 elem. mills & 32 mills at county. Effective FY 91
5.	Permissive levies for elem. (6 mills) & H.S. (4 mills) to fund 20% of schedules	Replace current permissive levy with overschedule permissive levy up to 25% of schedule amount (for total schedule and permissive amount of approx. 90% of ave. '88 expenditure)	Eliminate permissive levy. Effective FY 91	Eliminate permissive levy. Effective FY 91	Eliminate permissive levy. Effective FY 91
6.	No statutory expenditure limitations (except for I-105)	No GF budget limit, but recapture of 2% of budget over 166% of FP schedule amount for each 1% by which budget exceeds 166%	Maximum GF budget limited to 117% of schedules, spec. ed, & retirement. Districts with FY 88 GF, retirement, & insurance over 117% of FY 91 FP are frozen. PL 874 $ excluded from cap. Exempt from I-105	Maximum GF budget limited to 130% of FP (schedule amount plus spec. ed). Districts with FY88 GF, retirement, & insurance budget over 130% of FY 91 FP are frozen; PL 874 $ excluded from cap. Exempt from I-105	Maximum GF budget limited to either 104% of previous year budgets for GF, retirement, & insurance or 125% of FP schedule amount. PL 874 $ excluded from cap. Exempt from I-105

Exhibit # 1

EXHIBIT NO. 2
DATE 6/23
SB 7. SB 20

Education Community Consensus Points

1. A comprehensive solution to the Supreme Court decision would not be implemented in FY90. There would be a five year phase-in period. For FY90, the foundation schedule would be increased to equal the Consumer Price Index (July to July). For FY90 and beyond, special education would be fully funded at the allowable cost level.

2. The state would fund most of the present budgeted funds under a general fund category, including the present general fund, comprehensive insurance, tuition, and adult education.

3. For the present, capital outlay and transportation funds would not be combined or equalized. They would be set aside for further study and be separate from the general fund. Non-budgeted enterprise funds need not be included in equalization.

4. The school employee retirement would be a separate fund, and would be fully funded and equalized.

5. Comprehensive insurance would be fully funded as part of the foundation program and would be equalized.

6. In-state tuition would no longer be charged. Students would be counted in the school attended.

7. If there is to be a cap on school district expenditures, it should be calculated on all budgeted funds except capital outlay. Initiative 105 and SB 71 would be repealed.

8. The foundation program would be funded at 100% of current statewide expenditures. If there is to be a cap on expenditures, the cap would be phased in over a period of five years.

9. The local permissive levy would be eliminated.

10. State revenue sources for the foundation program would remain.

11. PL 874 funds would not be included in the funds available for equalization. The issue would be studied by OPI during the interim and a recommendation made to the next legislature. Options to be considered would be leaving the funds out of the resources for equalization and/or a weighted ANB for Native American students.

12. Foundation program would be distributed in 12 equal payments.

13. Reserves would be limited to 20%, assuming the state distributed school funds monthly in 12 equal payments. The Superintendent of Public Instruction would be authorized to grant appeals on the reserve limitation to prevent a school from being penalized due to an unusual circumstance outside a school's control.

14. No change would be made to current structure of the foundation program schedules. The amounts would be adjusted according to the consensus proposals.

15. Funding for the school year would be based on 180 days PI, with 7 additional days for PIR.

16. Foundation program payments would continue to be based on ANB.

17. Special education would remain a separate appropriation and would be fully funded at the allowable cost level.

18. School district consolidation is not to be included as part of the equalization issue discussion.

19. Non-property tax revenues received at the local level would be equalized through the foundation program.

20. State mandated equalized property tax would be collected and distributed through the ANB schedule in a manner that would not jeopardize PL 874 funds.

BILL NO. SB7-SB20

Office of the Legislative Fiscal Analyst
COMPARISON OF PUBLIC SCHOOL EQUALIZATION PROPOSALS
June 23, 1989
1:00 p.m.

This comparison sheet offers legislators with a comparison of public school equalization bills as introduced, including House Bill 39 (Kadas), House Bill 45 (Hannah), Senate Bill 7 (Mazurek), and Senate Bill 20 (Nathe). This analysis includes a discussion of the level of fiscal 1988 expenditures covered by each proposal, the degree of equalized and unequalized revenues provided to schools, and the revenue sources to fund each proposal. Table 1 compares fiscal 1988 expenditures for general fund, retirement, comprehensive insurance and transportation with the state funding available in these proposals. Fiscal 1988 expenditures include expenditures funded by federal impact aid (Public Law 874 funds) and special education expenditures. Therefore, the funding shown for each proposal includes special education in the general fund category.

Equalized revenues are those revenues that are guaranteed by the state and are available to all districts at an equal level of tax effort. Under the present system, equalized revenues include foundation and permissive program revenues, the state share of transportation payments, the county portion of elementary transportation costs, and that portion of each district's levies that would be generated if its mills were taken against the tax base per pupil available to the poorest district in the state. Unequalized revenues are all other revenues raised through local property tax levies or district non-tax revenue sources.

Table 2 compares the percent of the equalized funding for general fund, retirement, comprehensive insurance, and transportation in fiscal 1988 with the equalized funding provided in the equalization proposals. The analysis for House Bill 39 includes local equalized funding because it represents a significant portion of total equalized revenue under the guaranteed tax base proposal. The level of local equalized funding has not been calculated for the remaining proposals but is projected to be less than 1 percent of total school funding.

Table 3 shows the revenue sources used to fund each of the equalization proposals and the general fund appropriation required.
