

MINUTES

MONTANA HOUSE OF REPRESENTATIVES 52nd LEGISLATURE - REGULAR SESSION

COMMITTEE ON FISH & GAME

Call to Order: By **CHAIRMAN JIM ELLIOTT**, on January 24, 1991, at 3:00 p.m.

ROLL CALL

Members Present:

Jim Elliott, Chairman (D)
John Johnson, Vice-Chairman (D)
Beverly Barnhart (D)
Fred "Fritz" Daily (D)
Roger DeBruycker (R)
Orval Ellison (R)
Gary Forrester (D)
Bob Gilbert (R)
Marian Hanson (R)
Vernon Keller (R)
Bea McCarthy (D)
Bruce Measure (D)
John Phillips (R)
Ted Schye (D)
John Scott (D)
Wilbur Spring (R)
Bill Strizich (D)

Staff Present: Doug Sternberg, Legislative Council
Ginger Puntenney, Committee Secretary

Please Note: These are summary minutes. Testimony and discussion are paraphrased and condensed.

HEARING ON HOUSE BILL 185

Presentation and Opening Statement by Sponsor:

REP. ORVAL ELLISON, House District 81, McLeod, said HB 185 should not stand alone as there are two other bills being introduced that should be considered. HB 185 would increase the number of class B-10 nonresident big game combination licenses that may be sold in a license year from 17,000 to 18,500. The funds from these extra 1,500 licenses would revert to the Department of Fish, Wildlife, and Parks (FWP) general license account.

Proponents' Testimony: None

Opponents' Testimony:

Jo Brunner, Montana Outfitters Guide Association, said they do not oppose or support HB 185 and have submitted another bill. They would like both bills considered together.

Rich Day, Montana Wildlife Federation said FWP requested public input to review options for eliminating the funding shortfall in its license account. The majority of public input received was in opposition to any increase in the number of nonresident hunters. The Federation supports an increase in license fees, but opposes an increase in out-of-state hunters.

Bill Holdorf, Skyline Sportsman, was concerned about the impact this bill would have on resources due to additional hunters. A harvest of too many elk would have a tremendous impact on Region 3.

Larry Thomas, Anaconda Sportsmen Club, said to leave resources as they are and opposed HB 185.

Tony Schoonen, Skyline Sportsmen, opposed this bill. Hunters should look at the Fish and Game Commission's tentative big game regulations. There are more restrictions and less hunting areas. The majority of elk hunting is in Region 3, so there is a need to be concerned with resources and sportsmen's hunting opportunities.

K.L. Cool, FWP, said the Department and Commission oppose HB 185 due to public input. EXHIBIT 1

Closing by Sponsor:

REP. ELLISON said it seems the same organized groups of people appear at public hearings, and the 3 to 1 opposition that Mr. Cool stated they received from the public was from these groups who only represent approximately 10% of hunters statewide. The other 90% of hunters don't want their license fees to increase.

HEARING ON HOUSE BILL 166Presentation and Opening Statement by Sponsor:

REP. VERNON KELLER, House District 83, Fishtail, said this is not a simple bill due to the 1985 Supreme Court decision. This bill is an act to conform to the decision of the Montana Supreme Court by inserting a requirement that the violation be committed "purposely or knowingly" and by limiting the landowner's exemption to "nonhunting" activities. He requested time to work with FWP and the Livestock Departments legal staff to update this statute.

Proponents' Testimony:

Kim Enkerud, Montana Stockgrowers, supports the concept of the bill and asked that it be held until all concerns are worked out.

Marvin Barber, Agriculture Preservation Association, supports HB 166, but the bill still needs changes.

Tony Schoonen said sportsmen are in favor of this bill and hope problems can be worked out.

John Skufca, Department of Livestock, hopes the committee will allow the sponsor, FWP, and the Department of Livestock to draft a better bill.

Opponents' Testimony:

Tom Harwood said this bill prohibits him from going on adjacent land at night with a spotlight and gun to control predators. Predator control should be addressed in this bill. EXHIBIT 2

Informational Testimony:

K.L. Cool, FWP, said the Department was not prepared to provide testimony due to lawsuits and legal difficulties of drafting a good spotlighting bill. More research is needed to prepare a solid bill.

Closing by Sponsor:

REP. KELLER said FWP and Livestock need to rewrite this bill. An exemption should be included regarding predator control for landowners.

CHAIRMAN ELLIOTT asked REP. KELLER if this bill should be held until it is revised. REP. KELLER agreed.

HEARING ON HOUSE BILL 172

Presentation and Opening Statement by Sponsor:

REP. ROGER DEBRUYCKER, House District 13, Floweree, said this is a landowner-sportsman bill. This bill would require a landowner's permission before a hunter could do any type of hunting on private property and it would repeal the big game statute.

Proponents' Testimony:

REP. ELLISON supports this bill so a landowner would know who had hunted on his property in case of damage.

REP. WILBUR SPRING voiced his support of HB 172.

Kim Enkerud, Montana Stockgrowers, supports any bill that protects private property rights.

Lorna Frank, Farm Bureau, supports legislation which would require a sportsman to get written permission from the landowner before entering private property. Whenever he or she is on that property, this written permission is to be carried on that person. An amendment will be submitted to reflect these changes.

REP. KELLER voiced his support of HB 172.

Nels Debruycker, Chouteau County Livestock Association, presented signatures of its membership who support this bill. There were 118 in favor and 1 opposed. EXHIBIT 3

Carol Mosher, Montana Cattle Women, supports HB 172.

Opponents' Testimony:

Tom Harwood said any land that is posted should have a notice of who to contact to get permission to hunt. Are we going to need passports in order to cross another person's property? EXHIBIT 4

Valerie Horton, Montana Wildlife Federation, said present law is sufficient and hunting will become more restrictive with HB 172.

K.L. Cool, FWP, said the Department opposes HB 172. EXHIBIT 5

Larry Thomas, Anaconda Sportsmen, said this bill will confuse everyone. If this bill does pass, landowners must be sure it is their own private property they are posting and should be fined if it is not.

Bill Holdorf, Skyline Sportsmen, opposed this bill due to property rights of the sportsmen, as some landowners do not know their property boundaries.

Tony Schoonen, Skyline Sportsmen, said property is being rapidly purchased by out-of-state buyers, so landowners need to post their property so hunters can identify whose property it is.

Questions From Committee Members:

REP. GARY FORRESTER asked REP. DEBRUYCKER the definition of big game. Does any type of hunting, such as rabbit hunting, apply to this bill and would it be a criminal offense if you did not get permission from the landowner? Does the trespass law apply? REP. DEBRUYCKER said the way the law reads now, you have to obtain permission to hunt big game. If you want to keep someone off your property, you have to post it with signs and also post it for big game hunting. It should not be a problem to ask permission to hunt any type of game.

REP. JOHN PHILLIPS asked Mrs. Frank if it wasn't asking a little much to always get written permission instead of verbal. Mrs. Frank said it should not be a problem to get written permission.

Closing by Sponsor:

REP. DEBRUYCKER said he did not feel people need written permission, but that is a committee decision. Under present law hunters can quote the big game statue and say they don't need permission since the land wasn't posted. I think this bill will benefit landowners and therefore, they will not close their land to hunting.

EXECUTIVE ACTION ON HOUSE JOINT RESOLUTION 2

Motion: REP. BEA MCCARTHY MOVED HJR 2 DO PASS.

Discussion:

Doug Sternberg said amendments to this bill have been prepared.

MOTION: REP. BRUCE MEASURE moved to adopt the resolution as amended.

REP. MCCARTHY said the big concern with the amendments was changing "white-tail deer" to "wildlife". REP. DEBRUYCKER asked if this was going to open up other issues, like the spotted owl, when "wildlife" is inserted. Mr. Sternberg said white-tail deer is specific; the meaning and areas that may be studied are broadened by changing it to "wildlife".

Vote: Motion to adopt amendment failed 5 to 9. EXHIBIT 6

Vote: HJR 2 DO PASS. Motion failed 5 to 10. No further action taken on this bill.

EXECUTIVE ACTION ON HOUSE BILL 172

Motion: REP. DEBRUYCKER MOVED HB 172 DO PASS.

DISCUSSION:

REP. ELLISON said this bill does not include fishing, so landowners with water would still have a problem. REP. JOHN SCOTT asked REP. BRUCE MEASURE whether our current trespass laws affect a person with a gun in their hands or a fishing pole. REP. MEASURE said they do. The purpose of this bill is so hunters will have to get permission from the landowner. It does omit small game birds and fishing, but a person could be prosecuted for trespassing. This bill will create problems.

REP. GILBERT said he agreed that this bill creates more problems than it solves. REP. DEBRUYCKER said if this bill doesn't pass, more landowners will close their property to hunting.

CHAIRMAN ELLIOTT read the amendments that Lorna Frank, Farm Bureau, had submitted. In section 1, line 10, the word written be inserted at the end of that line. It would read "a resident or nonresident will obtain written permission". Section 1, line 12, add "written permission shall be carried by the person whenever he/she is on that property".

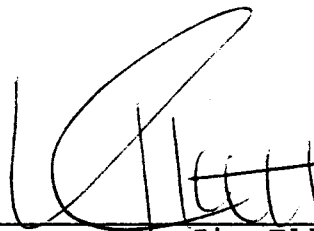

No motion on the amendments.

Motion/Vote:

REP. FRED DAILY MADE A SUBSTITUTE MOTION THAT HB 172 BE TABLED.
Motion carried 7 to 5.

HB 185
January 24, 1991

Testimony presented by K. L. Cool, Dept. of Fish, Wildlife & Parks
to the House Fish and Game Committee

HB 185 proposes to increase the number of nonresident big game combination licenses from 17,000 to 18,500. This license presently includes the opportunity to fish and hunt upland game birds, deer, elk and black bear. In 1976 the legislature established a quota of up to 17,000 on these licenses.

Our department and our commission conducted an extensive public involvement process last year to review options for eliminating the funding shortfall we have projected in our license account. One of the options we took to the public was to increase the big game combination quota to 18,000 licenses.

Based on public input and our analysis of this legislation, we wish to provide the committee the following information:

1. There is currently demand for at least 1,000 more big game combination licenses, as there were 18,198 applicants for this license in 1990.
2. From a biological perspective, we believe 1,000 additional nonresident hunters would not significantly affect the total number of deer and elk at current population levels. No increase in the number of these licenses has occurred since 1976, but numbers of animals, especially elk, have increased.
3. There would, however, be some increased competition for large buck deer and bull elk. Sale of 1,500 more licenses could increase the number of bull elk harvested by as many as 300 animals.
4. If illegal harvest of trophy big game animals is reduced as a result of our expanded covert enforcement program, these additional animals would be available to sportsmen and could make up for the increased harvest.
5. Hunter numbers on public land and block management areas would be expected to increase somewhat.
6. The potential for an increased acreage of leased lands is a concern voiced to us by many sportsmen.
7. Additional funds for block management could potentially improve hunting opportunities lost by increased leasing.
8. More nonresident hunters could benefit local economies.

1/24/91

HB 185

9. If these licenses were all issued, over \$600,000 annually could accrue to our general license account shortfall.
10. On behalf of our department and our commission, I want to thank Representative Ellison for exploring this potential for fiscal relief in our license account. However, the public comment we received on this issue was 3 to 1 in opposition to any increase in the number of nonresident hunters. Concerns primarily focused on competition for animals and access. As a result, our department and our commission concluded at a December 5 meeting to not recommend any increase in the quotas for these two combination licenses as a means to address our current license funding shortfall.

House Bill No. 172
Introduced by Representative [Signature] and [Signature]
Chairman [Signature]
Staff [Signature]
A BILL FOR AN ACT ENTITLED: "AN ACT REQUIRING A LANDOWNER'S

PERMISSION BEFORE HUNTING ON PRIVATE PROPERTY; AND REPEALING
SECTION 87-3-304, MCA."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

NEW SECTION. Section 1. Landowner's permission

required for hunting. A resident or nonresident shall obtain

permission of the landowner, the lessee, or the landowner's

or lessee's agents before hunting on private property.

NEW SECTION. Section 2. Repealer. Section 87-3-304,

MCA, is repealed.

NEW SECTION. Section 3. Codification instruction.

[Section 1] is intended to be codified as an integral part
of Title 87, chapter 3, part 1, and the provisions of Title
87, chapter 3, part 1, apply to [section 1].

HB 172
January 24, 1991

Testimony presented by K.L. Cool, Dept. of Fish, Wildlife & Parks
to the House Fish and Game Committee

The Department of Fish, Wildlife & Parks has always supported the ask-before-you-enter ethic. We promote it constantly and in every way that we can think of. There is no question that an individual should have permission from the landowner when private land is entered for any reason. Our experience also confirms that hunters and fishermen want to pursue their sport only where they are welcome.

Our concern with this legislation is that no distinction is made between a person who knowingly trespasses and one who inadvertently does so. This shortcoming is of concern to our wardens who would have to enforce this law.

Landownership patterns are complex arrangements and this is particularly true in some of the places favored by small game, upland birds and the people who seasonally hunt them. Under many real circumstances the best intentioned person cannot always know who the current owner of every tract of land is, where the exact boundary between landowners is, and where to find the people to ask. Managing this situation needs to be a cooperative effort. The hunters certainly need to do their best to learn who and where the landowners are.

In fairness, however, the landowners likewise should carry some responsibility to notice the public where their boundaries are and what their terms for entry are. It does not appear fair to have land closed without notice and simultaneously establish a certain penalty if unintentional trespass occurs.

We feel progress is being made on landowner/sportsman problems, working within the existing law, and recommend that those laws not be changed unless a posting provision is required.
