the money is used for court cost expenditures. If the caseload exceeds their current level budget there is a contingency of \$100.000. Mr. Racicot responded by stating the Indian Tribes have ten lawyers working on legal matters where the Department of Justice has only one--the department has to totally reconstruct history in all the cases involved with the department.

SEN. STIMATZ asked if the Indians are total strangers to each other or do they all cooperate with one another with water rights, clean air acts, etc. Mr. Racicot responded that Indian Jurisdiction is getting more complicated because everything relies on Indian treaties and each tribe has its own treaties.

Vote: Motion CARRIED unanimously.

Motion/Vote: REP. ZOOK moved to accept the language and line-item Issues 1 and 2. Motion CARRIED unanimously.

Agency Legal Services

CHAIRMAN QUILICI stated attorney fees will be \$53 an hour instead of \$48 and paralegal fees will be \$30 instead of \$27.50 and are not out of proportion. Other agencies should have been notified of the increase on salaries for attorneys and paralegals so their budgets could show the increase. Mr. Schenck stated Tort Claims utilizes approximately 60% of the program services, State Fund 20% and remaining don't use as much.

Motion/Vote: REP. PETERSON moved to adopt LFA's current level budget for Agency Legal Services. Motion CARRIED unanimously.

Motion/Vote: REP. ZOOK moved to accept the Network fees. Motion CARRIED unanimously.

Gambling Control Division

Discussion: REP. PETERSON stated Mr. Reiland provided testimony regarding laboratory testing of gambling equipment in Montana being very slow in comparison to New Jersey and Nevada. Mr. Racicot stated the testing equipment Mr. Reiland referred to is new technology but he felt Montana does an adequate job of testing the equipment. It does take more time for the department to do the testing but the equipment is very complicated.

Motion/Vote: REP. PETERSON moved to accept LFA's current level budget for Gambling Control Division. Motion CARRIED unanimously.

Motion: REP. PETERSON moved to accept \$62,000 and \$63,000 for equipment for Gambling Control Division. Motion CARRIED 5 to 1 with Rep. Quilici voting no.

Modifications:

CHAIRMAN QUILICI stated that on the modifications they are asking for ten more FTEs and \$15,000 buy money. He told the following story. On Friday, he had been in Butte and stopped at a local establishment. When he entered the building the owner said "what are you guys in Helena doing?" She told him there were six ladies, all in the seventies, playing pinochle in Val's Alpine Bar in Butte. Two investigators entered the premises to arrest her because she and her friends were playing pinochle and each one had put five dollars in the pot, which was to pay for their lunch and to put a 40 cents in the pot. CHAIRMAN QUILICI stated to Mr. Robinson "don't tell me, I know it's the law and we are going to try and change the law," but if "you don't have more time than to go after six old ladies playing pinochle for 40 cents, there is something damn well wrong"! CHAIRMAN QUILICI further stated he had two witness to testify to the incident for Marc Racicot stated that was not what had happened. Bob Robinson, Administrator, Gambling Division, stated his office was contacted on Friday, by the Butte police regarding a complaint that was filed regarding a gambling game going on at the Alpine Bar--two investigators investigated, recognized the people were playing pinochle, and they do put five dollars on the table and they do have lunch and they play for pennies but it is gambling and there was no license.

CHAIRMAN QUILICI further stated these group of ladies have been playing pinochle as long as he can remember and for investigators to take time to investigate a small card game where six little old ladies were playing pinochle for 40 cents, then the investigators don't have much to do. Mr. Robinson stated they were not aware of what was going on at the Alpine Bar, but were advised by the Butte police department illegal gambling was taking place at the Alpine Bar and when the investigators investigated, they learned what the situation was they advised the owner in order to operate in a legal manner they need to have a license. An older gentleman, who was a party of the incident visited with the investigator for sometime and recognized the situation and went back and spoke to the ladies. CHAIRMAN QUILICI stated that one of the ladies was going after the investigator with her cane. Mr. Racicot stated his investigators were courteous at all times. They were called by the local authorities and they were not aware of the situation and they simply discussed the law with the people and advised them how to carry on a legal game. Those are the facts as presented to him. CHAIRMAN QUILICI stated he received the facts from four of the ladies, in fact, he almost got the cane. Mr. Racicot stated this is just one of the incidents of the gambling industry division and he stated "they are all fraud with the lack of evidence."

Bob Robinson, Administrator, Gambling Division, reviewed the schedule that was given to the Gaming Advisory Council regarding licensing equipment.

Motion: REP. ZOOK moved to adopt 15 FTEs for Gambling Control Expansion instead of 23 FTEs as requested by the agency.

Discussion: REP. ZOOK stated before the election he made a commitment to the Tavern Owners to support their request for "21" and he will do that if the department will receive the additional FTEs -- if they do not receive the additional FTEs, then he cannot support "21".

CHAIRMAN QUILICI stated the modifications have nothing to do with "21" only to add to the investigation of the existing gambling.

SEN. TVEIT asked if the committee will be addressing the fees. CHAIRMAN QUILICI stated they would not be addressing the fees because they are contingent fees--the only items they will be addressing in this budget is the existing budgets. The fees will be standing on their own and if "21" passes then the committee will review the operations and personal services.

REP. ZOOK withdrew his motion and no action was taken.

Motor Vehicle Division

Motion/Vote: REP. PETERSON moved to accept LFA's current level budget for Motor Vehicle Division. Motion CARRIED unanimously.

REP. PETERSON asked if the committee would be voting on the department's request for driver's license express stations. CHAIRMAN QUILICI stated it depends on legislation now before the legislative assembly and in the event legislation passes, the request for funding driver's licenses express lines will be allocated.

Motion/Vote: REP. ZOOK moved to accept the increase of five cents per photo for driver licenses. Motion CARRIED unanimously.

Montana Highway Patrol

Motion/Vote: REP. PETERSON moved to adopt LFA's current level budget for the Highway Patrol Division. Motion CARRIED unanimously.

Issues

CHAIRMAN QUILICI stated he was sure there was a need for the overtime. The budget has been growing over the original base and he is very leary with the new regulations made from the appropriations that one can draw from operating costs of personnel costs but you cannot draw from personnel into operating costs. Mr. Racicot stated the Highway Patrol watches very carefully the amount of overtime because of the impact of exceeding their budget. When they exceed their budget, the officers have to receive comptime instead of overtime.

HOUSE GENERAL GOVERNMENT & HIGHWAYS SUBCOMMITTEE

January 23, 1991

Page 5 of 8

Motion/Vote: REP. FRITZ moved authorization of Issue No. 1 overtime pay for Highway Patrol. Motion CARRIED unanimously.

Discussion: REP. PETERSON referred to Issue No. 2, the LFA does not include health insurance, was that an error in their calculations. Mr. Schenck did not include health insurance for it is not paid to those individuals. It was added to the budget inadvertently. They do not pay health insurance to the training recruits because they are not fulltime employees.

Mr. Schenck gave an overview of Issue No. 3, prisoner per diem, the LFA is \$118,000 higher than the executive level. The executive level is based upon the appropriated levels for the 1991 biennium and the LFA is based upon actual expenditures due to the change of the law which allowed the cap of \$25 per day reimbursement.

Tape 2

Motion/Vote: SEN. TVEIT moved to segregate REP. PETERSON's motion and to accept modification Issue No. 1. Motion CARRIED unanimously.

Motion: REP. PETERSON moved to accept executive budget modification Issue No. 1 and Issue No. 2 for hand-held radios.

Discussion: Mr. Racicot stated they are a nationally accredited law enforcement agency. One of the standards is that you must have the ability to maintain radio contact with your officers at all times. If the department is not in contact with their officers at all times, then the department is subject to not be accredited.

Motion/Vote: SEN. FRITZ moved to accept the \$150,000 in FY92 for hand-held radios. Motion CARRIED 5 to 1 with Rep. Peterson voting no.

SEN. TVEIT asked what is the turnover rate in the number of cars each year. Mr. Racicot stated they reduced the number of cars to ninety. CHAIRMAN QUILICI stated LFA has allotted 65 vehicles in FY92 and FY93, with the price of cars they cannot purchase the amount of cars so they are requesting \$160,200 in FY92 and \$156,000 in FY93 to purchase the type of cars they need.

Mr. Schenck stated the LFA allotted 65 cars and the department has come in requesting \$100,000 and \$150,000 the second year based upon a revised estimate costs of the cars.

Motion/Vote: REP. ZOOK moved to combine the appropriations in FY93 and FY92 to be in FY92, Issue No. 3 to move \$87,843 from FY93 to FY92. Motion CARRIED unanimously.

CHAIRMAN QUILICI spoke on the cost of the airplane which is \$900,000 dollars over a five year period of time. He reviewed the Governor's request for his airplane which cost \$661,000,

HOUSE GENERAL GOVERNMENT & HIGHWAYS SUBCOMMITTEE

which was paid over a three year period. The department's airplane will cost \$1.4 million over a five year period of time which was a great concern to the Chairman.

Mr. Racicot stated that included the operating costs and the airplane was only presented to the committee for their consideration.

Law Enforcement Services Division

Motion/Vote: REP. ZOOK moved to accept the LFA's current level budget for the Law Enforcement Services Division. Motion CARRIED unanimously.

Motion/Vote: SEN. TVEIT moved to accept the pay plan exception increase for the drug chemist. Motion CARRIED unanimously.

Motion: REP. PETERSON moved for modification No. 1 for 31 FTEs for Fire Marshal Bureau Expansion.

Rep. Peterson withdrew her motion until the passage of pending legislation.

CHAIRMAN QUILICI stated that two weeks ago the Legislature had a \$90 million surplus, the surplus is now around \$75 million and the pay plan has not been addressed; SRS is requesting \$19 million.

Mr. Schenck stated there are two special investigation units within the Law Enforcement Division, known as east and west and funded by a coal fund grant. The western taskforce was funded by a federal grant through the Board of Crime Control for Drug Enforcements.

Motion/Vote: REP. PETERSON moved to accept Agency sheet no. 3 to add \$841,309 to the general fund over the biennium. Motion CARRIED unanimously.

Mr. Robinson stated at the current level the department is trying to focus on a comparison of the LFA presentation analyzing the executive budget which did not address any of the issues. The department is operating on a reduced level for FY90. He didn't know if the committee had time to address those issues which are critical to the department.

CHAIRMAN QUILICI stated he knew what Mr. Robinson was talking about but the Legislature has always had the executive and LFA budget and the agencies have worked with the Budget Office.

Motion: REP. ZOOK moved to accept Modifications No. 1, 2, and 3.

Motion: SEN. TVEIT moved to segregate REP. ZOOK's motion.

REPLACEMENT AIRCRAFT - The Attorney General is requesting authority to purchase a single-engine transport aircraft financed over five years. It would be funded in part by cost savings and part by fees and general fund (LFA Vol. 1, A-193).

OTHER ISSUES:**COMMUNICATIONS COST ALLOCATION PLAN -** The 1991 biennium general appropriations act included the following language:

"...The Department of Justice shall implement a cost allocation plan for the purpose of recovering the operational cost of regional dispatch centers from all user agencies on an equitable basis. It is intended that after fiscal 1989 the highway's state special revenue account should be reimbursed for services provided to user agencies that are not funded by the highway's state special revenue account. Revenues collected as reimbursement from user agencies for operational costs of the regional dispatch centers must be deposited in the highway's state special revenue account and must equal at least 5% of the total amount of item 6c. 6c is the amount for the Communications program of the Highway Patrol Division)

cost allocation plan has not been implemented by the department (LFA Vol. 1, A-191, 192).

FUNDING - The Highway Patrol Division is primarily funded by the highway's state special revenue account. Account expenditures are exceeding revenues by an average \$28 million per year and the account will be depleted in fiscal 94 at current expenditure and revenue levels (See discussion, LFA Vol. 1, A-219).

APPROPRIATION CONTROL - The 1991 biennium general appropriations act provided 5 separate appropriations (line items) for the Highway Patrol Division (General Operations Cadets, Communications, MCSAP, 65 MPH Squad). The budget as presented in House Bill 2 would consolidate the Highway Patrol Division into one appropriation/line item.

The agency is seeking a more permanent source of funds. Replacement with general fund the 1993 biennium would require an additional \$841,309 general fund (LFA Vol. 1, A-196).

LANGUAGE - The 1991 biennial general appropriations act included the following language:

"The work of the workers' compensation fraud investigator position must include investigations of both employee and employer fraud cases."

CURRENT LEVEL ISSUES:

CONTRACT INSTRUCTORS - The Executive Budget is higher than LFA current level for contractor fees. The Executive Budget is at the fiscal 1991 appropriated level.

BUDGET BASE DIFFERENCES - The Executive Budget is higher due to using the FY 1991 projection as a base, whereas LFA current level is based on FY 1990 actual expense. Fiscal 1990 actual costs are significantly lower because costs of operating and maintaining the Academy campus were significantly lower than anticipated when the campus was purchased July 1988. The lower operating costs are expected to continue.

CENT LEVEL ISSUES:

SERVICE FEE - LFA current level is higher than the Executive Budget for dues to the National Law Enforcement Teletype Service.

Maintenance Contracts - LFA current level reduced maintenance contracts in an amount due to the increased cost of debt service over fiscal 1990. In 1990 the agency purchased computers on a 5 year debt service, citing a reduction in maintenance contracts and the purchase.

NETWORK FEES - As determined by this committee, the Executive fixed costs for network , and deflation factor for mainframe computer processing have been adopted.

BUDGET BASE DIFFERENCES - The Executive Budget used the FY 1991 appropriation as a , whereas LFA current level is based on FY 1990 actual expense.

EQUIPMENT - The Executive includes equipment at fiscal 1991 appropriated levels. LFA current level is lower, reflecting historical average equipment purchases plus \$8,700 per for CJIN equipment to be financed by fees for new users. The fiscal 1991 equipment appropriation was artificially high for a major replacement of CJIN equipment.
