

MINUTES

**MONTANA HOUSE OF REPRESENTATIVES
52nd LEGISLATURE - REGULAR SESSION**

SUBCOMMITTEE ON NATURAL RESOURCES

Call to Order: By CHAIRMAN, BERV KIMBERLEY, on February 21, 1991, at 8:00 A.M.

ROLL CALL

Members Present:

Rep. Berv Kimberley, Chair (D)
Sen. Esther Bengtson, Vice Chair (D)
Sen. Gerry Devlin (R)
Rep. Ed Grady (R)
Rep. Jerry Nisbet (D)
Sen. Cecil Weeding (D)

Members Excused: None

Members Absent: None

Staff Present: Roger Lloyd, Associate Fiscal Analyst (LFA)
Carl Schweitzer, Budget Analyst (OBPP)
Bill Mandeville, Budget Analyst (OBPP)
Theda Rossberg, Secretary

Please Note: These are summary minutes. Testimony and discussion are paraphrased and condensed.

Announcements/Discussion: Roger Lloyd, LFA said, when the committee reviewed the Board of Housing, they took action on all items except the MicroVax System equipment request. It was suggested, the ICS Division of Department of Administration could do similar work at a lower cost. Mr. Mandeville said, he would look into the possibility of using the state mainframe instead of purchasing the MicroVax, and report back to this committee. **EXHIBIT 1 (Board of Housing Wrap Up).**

**DEPARTMENT OF COMMERCE
BOARD OF HOUSING**

Sharon Ranstrom, Information Services Division said, in speaking with the people from the Board of Housing, I feel their request for the MicroVax System was appropriate. The equipment they are using is adequate, but they need more hardware in order to be more efficient.

SEN. BENGTSON asked, is there any way the divisions within the Department of Commerce can interchange that equipment?

HOUSE NATURAL RESOURCES SUBCOMMITTEE

February 21, 1991

Page 2 of 7

Carolyn Doering, Administer Management Services Division said, we have two divisions in the department which has different computer systems; the Board of Housing and Board of Investments. Their software is different from the other divisions.

Motion/Vote: **SEN. BENGTSON** moved to accept the Executive budget for the MicroVax System, Word Processor, and a printer for \$145,600 for FY92.

DISCUSSION:

CHAIRMAN KIMBERLEY asked, what wears out in these computers?

Ms. Ranstrom answered, computers don't wear out, but their capacity no longer serves their needs. The Board of Housing has 700 - 800 new loans, which requires additional space on the computer.

REP. GRADY said, I thought the software was where all the storage was and not the computer itself.

Ms. Ranstrom said, the storage is actually in the hardware. It is similar to a drawer in a filing cabinet. The software tells you which drawer or file the information is stored in.

SEN. DEVLIN asked, when was the last time you upgraded your computer system?

Mr. Kain, Board of Housing answered, in 1988 we updated our system. We had an agreement with the Board of Investments to use our hardware and they paid for that enhancement for about \$13,000.

Mr. Kain said, the trade-in value of the computer is about \$8,000. We paid \$60,000 for it, and it depreciates faster than a car.

CHAIRMAN KIMBERLEY said, are any of these computers sold as surplus?

Mr. Kain said, yes we do sell these as surplus property sometimes.

SEN. DEVLIN asked, when you purchase new equipment, do you have to transfer everything from the old equipment into the new computer?

Ms. Ranstrom said, the old software (files) can be copied into the new computer.

SEN. BENGTSON said, there probably will come a time when your new computers will reject the old software.

Bill Mandeville, OBPP said, basically, the upgraded computer systems will perform more functions. The Board of Housing is

HOUSE NATURAL RESOURCES SUBCOMMITTEE

February 21, 1991

Page 3 of 7

being pushed into more regulations by the federal government, and increases the workload of existing computer systems.

Motion CARRIED unanimously.

DEPARTMENT OF LIVESTOCK

John Skufka, Department of Livestock said, this is a follow-up from our discussion in the previous committee meeting. **EXHIBIT 2.**

The work sheet explains the transfer of 1 FTE from the Milk and Egg Program into the Inspection and Control Program.

EXHIBIT 3 - Mr. Lloyd clarified the additional request for this transfer to the Inspection and Control Program. The department request an additional \$669 in FY92 and \$593 in FY93 for increase in grade from grade 14 to grade 15 step 2. The department also requests \$6,000 for the biennium for an increase in operations. The department requests \$14,500 in equipment for a vehicle.

SEN. BENGTSON said, when this FTE was in the Milk and Egg Program that amount came out of the general fund. In the Inspection and Control Program it comes out of Inspection and Control Account.

Mr. Lloyd said, we have already approved the transfer of the FTE. The operating and vehicle amounts remain to be acted upon. In previous discussion, it was my understanding the operating expense item was not needed by the division.

Mr. Skufka said, we needed operating expenses which was not included in the previous program.

SEN. BENGTSON asked, is this vehicle a replacement, or an additional vehicle?

Mr. Skufka said, this is a new vehicle for the new position.

SEN. BENGTSON asked, do you have some kind of a back-up vehicle if one should break down?

Mr. Skufka replied, we have a 1985 with \$130,000 miles and is on the second motor. We have one other vehicle we may use for back-up. The 1985 was taken to Bozeman and they almost didn't get back with it.

Mr. Lloyd said, the additional request is, \$21,169 for FY92 and \$6,593 for FY93.

Motion/Vote: **SEN. DEVLIN** moved to approve the additional increase for \$21,169 for FY92 and \$6,593 for FY93 in the Inspection and Control Program for the transfer of 1 FTE from the Milk and Egg Program. Motion CARRIED unanimously.

HOUSE NATURAL RESOURCES SUBCOMMITTEE

February 21, 1991

Page 4 of 7

DEPARTMENT OF STATE LANDS

Forestry Division: EXHIBIT 4.

Mr. Lloyd said, there was an error in the figures for the Block V modification which the committee has taken action on. The correct amounts are; \$103,279 for FY92 and \$205,511 for FY93.

The committee also, has to take action on the Capital equipment modification for \$280,500 in FY92 and FY93.

Motion/Vote: SEN. BENGTSON moved to accept the corrected amounts for Block V and Philipsburg Fire Protection District budget modification of \$103,279, 2.65 FTE in FY92 and \$105,511, 3.35 FTE in FY93. Motion CARRIED unanimously.

Motion/Vote: SEN. BENGTSON moved to reconsider the Forestry Capital Equipment budget modification, since additional information has been supplied to the committee. Motion CARRIED unanimously.

Mr. Schweitzer said Mr. Artley has some information as to the request from the committee for additional information.

Don Artley, Assistant Administrator Forestry Division said, there was a request as to the type of vehicles and how many vehicles we were proposing to replace if the modification were approved.

EXHIBIT 4 - Vehicle Replacement Schedule.

Mr. Artly reviewed the schedule with the committee.

REP. GRADY asked, if we approved the modification, would you have these vehicles by this summer.

Mr. Artly said, no, we would not be able to start purchasing these vehicles until the fall of 1992.

SEN. WEEDING asked, what is the break-down of the funding?

CHAIRMAN KIMBERLEY said, he had those figures; \$138,383 each year of general fund and \$42,000 Fire Protection.

Motion/Vote: SEN. DEVLIN moved to accept the equipment modification for \$180,500 in FY92 and \$180,500 in FY93 for forestry vehicles. Motion CARRIED 4 - 2 (CHAIRMAN KIMBERLEY & SEN. BENGTSON voting "no").

RECLAMATION DIVISION

EXHIBIT 5 - Resource Indemnity Trust Interest Accounts.

Mr. Lloyd reviewed the RIT accounts which come out of the Reclamation Division.

EXHIBIT 6 - The top half of this hand-out are current level accounts which have been approved. Below, is the accounts we

HOUSE NATURAL RESOURCES SUBCOMMITTEE

February 21, 1991

Page 5 of 7

have by-passed and will discuss today. Modified level of \$513,330 for FY92 and \$488,144 for FY93. SEN, BENGTSON asked for the percentage of appropriations. (see EXHIBIT 6) The amount estimated by the LFA available for the 1993 biennium is \$8,298,330.

EXHIBIT 7 - Mr. Schweitzer said, Item 1. Coal Bureau Workload has federal funds and R&D funds. Item 2. Hard Rock Workload is R&D funds and Item 3. Environmental Compliance, we recommend using Environmental Impact funds. Additions to Executive Budget, Item 1. Hard Rock Increase, we are recommending using Environmental Impact funds.

SEN. BENGTSON asked, what kind of language is in that bill that says we can use those funds.

Mr. Schweitzer said, there is language which says there is money available for special studies. The Hard Rock increase is for additional consulting fees for application questions, which the department wouldn't have the expertise to address. The applicant would have to pay for an assessment.

SEN. WEEDING asked, don't they have to pay for it now?

Gary Amestoy, Department of Reclamation said, under MEPA we are allowed to collect fees from the applicant to pay for the EIS. Because of legislation, we will be able to pay for the three Environmental Coordinators using MEPA fees.

CHAIRMAN KIMBERLEY said, there are four separate items on the hand-out; three modifications and one additional request which needs action by the committee.

(TAPE 2, SIDE 1 GARBLED)

EXECUTIVE ACTION
RECLAMATION DIVISION

Motion/Vote: SEN. DEVLIN moved to accept the Executive Budget modification on Item 3. Environmental Compliance for \$121,721 FY92 and \$98,637 for FY93 and Additions to Executive Budget for the Hard Rock Increase of \$100,000 for the biennium, using EIS funds. **Motion CARRIED** unanimously.

Motion/Vote SEN. WEEDING moved to accept the Executive Budget for budget modification, Coal Bureau Workload for \$143,134 in FY92 and \$155,365 FY93. **Motion CARRIED** unanimously.

Motion/Vote: REP. GRADY moved to accept the Executive Budget for budget modification, Hard Rock Workload for \$127,118 for FY92 and \$121,239 for FY93. **Motion CARRIED** unanimously.

HOUSE NATURAL RESOURCES SUBCOMMITTEE

February 21, 1991

Page 6 of 7

Motion/Vote: SEN. BENGTSON moved to reconsider the action on the upgrades. **Motion CARRIED** unanimously.

Motion/Vote: SEN. BENGTSON moved to approve the upgrades in the Aviation Program **Motion CARRIED 5 - 1** (REP. NISBET voting "no").

CENTRAL MANAGEMENT DIVISION

EXHIBIT 8.

Mr. Lloyd said, these are some of the items the committee has to reconsider. There are some budget modifications the committee has not taken action on. (see EXHIBIT 8)

EXHIBIT 9.

Central Management Indirect Costs.

Mr. Lloyd reviewed the comparison of indirect costs in FY90 to FY92.

There was a lengthy discussion concerning this division.

(Tapes Garbled).

CHAIRMAN KIMBERLEY asked, should we take action on these items starting with reorganization?

SEN. BENGTSON said, I don't think we should take any action until we see what happens with reorganization.

Mr. Schweitzer said, since the pay plan has been fully funded there is no reason for approval of upgrades.

Motion/Vote: moved to rescind her motion on the upgrades in the Aviation Program. **Motion CARRIED 5 - 1** (REP. NISBET voting "no").

Motion/Vote SEN. WEEDING moved to accept the budget modification for Trust Land EIS for \$300,000 for FY92 only.

Mr Casey stated, HB401 was introduced in the legislature at the request of Department of State Lands for direction from the Board of Land Commissioners. The bill authorized the Board of Land Commissioners to implement a recreational use plan and we probably would need a EIS before the plan was implemented. HB778 has come up with a plan for recreational use and if it passes, an EIS would not be necessary. However, because of past experience and government regulations an EIS is necessary and the \$300,000 in the budget is for that.

REP. GRADY said, this would have a major impact on state lands and I believe we need an EIS or we could wind up in court.

SEN. WEEDING said, I agree with Mr. Casey. He did the environment assessment and did not have enough information and I think the EIS should be done.

HOUSE NATURAL RESOURCES SUBCOMMITTEE
February 21, 1991
Page 7 of 7

ROLL CALL VOTE: Motion CARRIED 4 - 2 (SEN. BENGTSON & CHAIRMAN KIMBERLEY voting "no").

Motion/Vote: SEN. WEEDING moved to NOT ALLOW the Addition to Trust Land EIS for \$650,000. Motion CARRIED unanimously.

CONTROL VARIABLE 92710 VARIABLE NAME Vehicle Replacement
SCALE YEAR 1993 Biennium

Identify areas of impact or primary concern:
single narrative statement may impact accounting
entity, agency, FTE, program, revenues and expenditures.

<input type="checkbox"/>	Accounting	<input type="checkbox"/>	Agency	<input type="checkbox"/>	FTE
<input type="checkbox"/>	Entity	<input type="checkbox"/>	Program	<input type="checkbox"/>	Revenue
<input checked="" type="checkbox"/>	X	<input type="checkbox"/>	Expenditures	<input type="checkbox"/>	

Over the past several bienniums our capital equipment budget has been considerably less than we requested, and has been insufficient to annually replace equipment which is obsolete or beyond economical repair. In recognition of this problem, our 1989 Appropriations Subcommittee asked us to prepare a vehicle replacement schedule for submission during the 1991 session. Over the past year we have surveyed other State agencies as well as other state forestry agencies. Based on that information plus an analysis of our current 282-vehicle fleet, we developed seven classes of vehicles with a replacement schedule for each based on either age or mileage. To fully implement the schedule we would need an increase of \$360,913 per year over our base budget for equipment. However, because this is such a large increase, we are requesting only $\frac{1}{2}$ of the total amount for the first biennium in order to phase into the full replacement schedule. This amounts to \$180,500 per year.

We face a situation where our equipment is aging beyond its reliable life faster than we are able to replace it. This is particularly critical with our vehicle fleet. By the beginning of the FY92-93 biennium, the average forestry program vehicle will be over 9 years old and have been driven over 100,000 miles, most of which were off-highway. An aging vehicle fleet is costly, unsafe and inefficient. A vehicle replacement schedule will allow us to plan for systematic, regular replacement of our vehicles. It will take us 7 to 10 years (even with the full increase of \$360,913 per year) to establish a balanced distribution of age classes. However, it is critical that we begin to make progress toward reducing the average age of our fleet. For example, by 1991, 65% of our pickup trucks and 43% of our wildland fire engines will exceed our recommended replacement age.

RECLAMATION AND DEVELOPMENT ACCOUNT
DEPARTMENT OF STATE LANDS

R.I.T. June 1

The committee has approved the following Department of State Lands' appropriations from the reclamation and development account:

	<u>Fiscal 1992</u>	<u>Fiscal 1993</u>
Current Level	\$642,792	\$644,430
Modified Level	\$ 38,335	\$ 38,335

The committee has pending the following Department of State Lands' requests for appropriations from the reclamation and development account:

	<u>Fiscal 1992</u>	<u>Fiscal 1993</u>
Current Level	\$ 0	\$ 0
Modified Level	\$513,330	\$488,144

The committee requested the LFA to research past appropriations from the reclamation and development account to determine previous allocation percentages. A law enacted by the 1987 legislature established the reclamation and development account and became effective July 1, 1987. Therefore, the only previous appropriations from this account were made by the 1989 legislature for the 1991 biennium. Based on biennial totals, the following appropriation percentages were allocated as follows:

1. DNRC	35.9 %
2. Reserved Water Rights	6.8 %
3. State Lands	16.5 %
4. Grants Approved	39.6 %
5. Pay Plan	.2 %
	100.0%

The estimated available amount for the 1991 biennium was \$6,766,159. The amount estimated by the LFA available for the 1993 biennium is \$8,298,330.

Weed, den ADDITIONS TO EXECUTIVE BUDGET

1. Addition to Trust Land EIS (General Fund) \$650,000 \$ 0

FUNDING

1. With executive action to date, Central Management is funded as follows:

<u>Account</u>	<u>Fiscal 1992</u>	<u>Fiscal 1993</u>
General Fund	\$1,330,927	\$1,298,788
Federal Indirect	\$ 125,200	\$ 125,213

The committee directed the LFA to meet with the agency and OBPP to review the federal indirect funding of this program. This review indicated that the amount of federal indirect funding for this program will decrease from previous levels and that the amount anticipated available when the budgets were prepared is high. The percentage rate applied to portions of certain

Nesbit sent to G.S. - Union

grants has declined from 13.9% in fiscal 1990 to 8.3% in fiscal 1992. As a result, available revenues from this source have from \$129,436 in fiscal 1990 to \$77,290 in fiscal 1992. Therefore, federal indirect funding in this program should be reduced \$47,910 in fiscal 1992 and \$47,923 to more accurately reflect funds available.

*Bennet
reviewed*

2. Executive action approved *Change - 5-1 Nestle No!* upgrades for positions #29 and #130 in the Aviation Program:

	<u>Fiscal 1992</u>	<u>Fiscal 1993</u>
