3 (a) interest received on obligations of another state
4 or territory or county, municipality, district, or other

8 Montana income tax liability.

9 (2) Adjusted gross income does not include the

12 States government, the state of Montana, county,

21 NEW SECTION. Section 3. Method of determining amount
22 of net capital gain. (1) The provisions of the IRC relating
23 to inclusion of net capital gains in gross income apply
24 except that the value of net capital gain on assets held
25 over 1 year to be included is determined as follows:

1 (a) The purchase price of the asset is multiplied by
2 the PIR for the year in which the asset was acquired by the
3 taxpayer to determine the adjusted cost of the asset.

4 (b) The adjusted cost of the asset is subtracted from
5 the price received from the sale of the asset during the
6 taxable year in which the deduction will be taken, to
7 determine the net capital gain.

8 (2) Fifty percent of the net capital gain so
9 determined may be claimed as a deduction to gross income.

10 (3) The department shall include with each income tax
11 return form a table showing the PIR for each of the past 20
12 years.

13 (4) The department shall furnish the PIR for earlier
14 years upon request.

15 NEW SECTION. Section 4. Method of determining taxable
16 income and deductions for interest exception. (1) All the
17 provisions of the IRC relating to the inclusion of interest
18 income in gross income and the deduction of interest paid or
19 accrued within a taxable year on indebtedness apply except
20 that the amount of interest included in adjusted gross
21 income is determined as follows:

22 (a) interest income from each source is:

23 (i) multiplied by the CF shown in tables furnished by
24 the department for the rate of interest at which the income
25 was generated; and

1 (ii) included in gross income; and

2 (b) interest expense paid or accrued on each debt,
3 except debt incurred for the purchase of the taxpayer's
4 primary residence, is:

5 (i) multiplied by the CF shown on tables provided by
6 the department for the rate of interest at which the
7 interest expense was incurred or accrued; and

8 (ii) allowed as a deduction from gross income.

9 (2) When interest expense incurred on a debt was
10 calculated at more than one rate of interest, the CF for the
11 highest rate of interest charged on the debt is multiplied
12 by the interest expense for the entire debt to determine the
13 deduction allowed.

14 (3) Each year the department shall calculate the CF
15 for that year for each 1/4 of 1% of interest from 0% to 50%
16 and include a table of the values so calculated with each
17 income tax return form.

18 NEW SECTION. Section 5. Method of determining amount
19 of deduction allowed for depreciation. (1) The provisions of
20 the IRC relating to deduction of depreciation of property
21 used in a trade or business or held for the production of
22 income apply except that the amount of depreciation allowed
23 as a deduction under the IRC is:

24 (a) multiplied by the PIR for the year in which the
25 taxpayer purchased the property; and

1 (b) allowed as a deduction to gross income.

2 Section 6. Section 15-31-114, MCA, is amended to read:

3 *15-31-114. Deductions allowed in computing income. In
4 computing the net income, the following deductions shall be
5 allowed from the gross income received by such corporation
6 within the year from all sources:

7 (1) All the ordinary and necessary expenses paid or
8 incurred during the taxable year in the maintenance and
9 operation of its business and properties, including
10 reasonable allowance for salaries for personal services
11 actually rendered, subject to the limitation hereinafter
12 contained, rentals or other payments required to be made as
13 a condition to the continued use or possession of property
14 to which the corporation has not taken or is not taking
15 title or in which it has no equity. No deduction shall be
16 allowed for salaries paid upon which the recipient thereof
17 has not paid Montana state income tax; provided, however,
18 that where domestic corporations are taxed on income derived
19 from without the state, salaries of officers paid in
20 connection with securing such income shall be deductible.

21 (2) (a) All losses actually sustained and charged off
22 within the year and not compensated by insurance or
23 otherwise, including a reasonable allowance for the wear and
24 tear and obsolescence of property used in the trade or
25 business, such allowance to be determined according to the

1 provisions of ~~section 167 of the Internal Revenue Code in~~
2 ~~effect with respect to the taxable year~~ [section 7]. All
3 elections for depreciation shall be the same as the
4 elections made for federal income tax purposes. No deduction
5 shall be allowed for any amount paid out for any buildings,
6 permanent improvements, or betterments made to increase the
7 value of any property or estate, and no deduction shall be
8 made for any amount of expense of restoring property or
9 making good the exhaustion thereof for which an allowance is
10 or has been made.

11 (b) (i) There shall be allowed as a deduction for the
12 taxable period a net operating loss deduction determined
13 according to the provisions of this subsection. The net
14 operating loss deduction is the aggregate of net operating
15 loss carryovers to such taxable period plus the net
16 operating loss carrybacks to such taxable period. The term
17 "net operating loss" means the excess of the deductions
18 allowed by this section, 15-31-114, over the gross income,
19 with the modifications specified in (ii) of this subsection.
20 If for any taxable period beginning after December 31, 1970,
21 a net operating loss is sustained, such loss shall be a net
22 operating loss carryback to each of the three taxable
23 periods preceding the taxable period of such loss and shall
24 be a net operating loss carryover to each of the five
25 taxable periods following the taxable period of such loss. A

1 net operating loss for any taxable period ending after
 2 December 31, 1975, in addition to being a net operating loss
 3 carryback to each of the three preceding taxable periods,
 4 shall be a net operating loss carryover to each of the seven
 5 taxable periods following the taxable period of such loss.
 6 The portion of such loss which shall be carried to each of
 7 the other taxable years shall be the excess, if any, of the
 8 amount of such loss over the sum of the net income for each
 9 of the prior taxable periods to which such loss was carried.
 10 For purposes of the preceding sentence, the net income for
 11 such prior taxable period shall be computed with the
 12 modifications specified in (ii)(B) of this subsection and by
 13 determining the amount of the net operating loss deduction
 14 without regard to the net operating loss for the loss period
 15 or any taxable period thereafter, and the net income so
 16 computed shall not be considered to be less than zero.

17 (ii) The modifications referred to in (i) of this
 18 subsection shall be as follows:

19 (A) No net operating loss deduction shall be allowed.

20 (B) The deduction for depletion shall not exceed the
 21 amount which would be allowable if computed under the cost
 22 method.

23 (iii) A net operating loss deduction shall be allowed
 24 only with regard to losses attributable to the business
 25 carried on within the state of Montana.

1 (iv) In the case of a merger of corporations, the
 2 surviving corporation shall not be allowed a net operating
 3 loss deduction for net operating losses sustained by the
 4 merged corporations prior to the date of merger. In the case
 5 of a consolidation of corporations, the new corporate entity
 6 shall not be allowed a deduction for net operating losses
 7 sustained by the consolidated corporations prior to the date
 8 of consolidation.

9 (v) Notwithstanding the provisions of 15-31-531,
 10 interest shall not be paid with respect to a refund of tax
 11 resulting from a net operating loss carryback or carryover.

12 (vi) The net operating loss deduction shall not be
 13 allowed with respect to taxable periods which ended on or
 14 before December 31, 1970, but shall be allowed only with
 15 respect to taxable periods beginning on or after January 1,
 16 1971.

17 (3) In the case of mines, other natural deposits, oil
 18 and gas wells, and timber, a reasonable allowance for
 19 depletion and for depreciation of improvements; such
 20 reasonable allowance to be determined according to the
 21 provisions of the Internal Revenue Code in effect for the
 22 taxable year. All elections made under the Internal Revenue
 23 Code with respect to capitalizing or expensing exploration
 24 and development costs and intangible drilling expenses for
 25 corporation license tax purposes shall be the same as the

1 elections made for federal income tax purposes.

2 (4) The amount of interest paid within the year on its
3 indebtedness incurred in the operation of the business from
4 which its income is derived; but no interest shall be
5 allowed as a deduction if paid on an indebtedness created
6 for the purchase, maintenance, or improvement of property or
7 for the conduct of business unless the income from such
8 property or business would be taxable under this part.

9 (5) Interest income from obligations of the state or
10 any political subdivision or municipality of the state.

11 (6) (a) Taxes paid within the year except the
12 following:

13 (i) Taxes imposed by this part.

14 (ii) Taxes assessed against local benefits of a kind
15 tending to increase the value of the property assessed.

16 (iii) Taxes on or according to or measured by net
17 income or profits imposed by authority of the government of
18 the United States.

19 (iv) Taxes imposed by any other state or country upon
20 or measured by net income or profits.

21 (b) Taxes deductible under this part shall be
22 construed to include taxes imposed by any county, school
23 district, or municipality of this state.

24 (7) That portion of an energy-related investment
25 allowed as a deduction under 15-32-103."

1 NEW SECTION. Section 7. Method of determining
2 allowance for depreciation. (1) The allowance for
3 depreciation is determined according to the provisions of
4 section 167 of the IRC in effect for the taxable year except
5 that the amount of depreciation allowed under these
6 provisions is multiplied by the PIR for the year in which
7 the property was purchased.

8 (2) The department shall provide a table showing the
9 PIR for each of the previous 20 years to each corporation
10 required to file a return.

11 (3) The department shall furnish the PIR for earlier
12 years upon request.

13 Section 8. Date of applicability. This act applies to
14 taxable years beginning after December 31, 1979.

HB 309

STATE OF MONTANA

Request No. 85-79

FISCAL NOTE

Form BD-15

In compliance with a written request received January 25, 1979, there is hereby submitted a Fiscal Note for House Bill 309 pursuant to Chapter 53, Laws of Montana, 1965 - Thirty-Ninth Legislative Assembly. Background information used in developing this Fiscal Note is available from the Office of Budget and Program Planning, to members of the Legislature upon request.

DESCRIPTION

This bill provides for the adjustment of capital gains, interest income and expenditure, and depreciation for inflation and calculating individual income tax liability; provides for the adjustment for inflation of the depreciation allowance taken in determining corporation license tax; and provides an applicability date.

FISCAL IMPACT

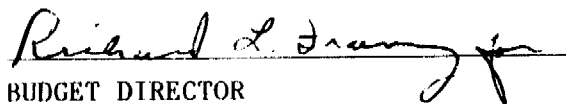

The Department of Revenue does not have data pertaining to capital gains, interest income, or depreciation readily available. Therefore, it is not possible to accurately determine the extent of the loss in revenue which would accompany the adoption of the proposed law. However, it is believed that this bill would have a significant effect upon individual and corporation tax receipts.

TECHNICAL NOTE

- (a) The apparent intent of this bill is to exempt from taxation any increase in certain property income which may be attributable to inflation, and to inflate the depreciation deduction so as to compensate for general increases in the price level.

The definition for "PIR" in subsection (13) of Section 1 (page 3, lines 22-24) should be amended to read: "PIR" means a price index ratio, determined for each year prior to the year for which the return is filed, by dividing the CPI of the year for which the return is filed by the CPI for the prior year, where CPI is as defined in subsection (1)."

- (b) The Consumer Price Index defined in subsection (1) of Section 1 is not well-defined. The Bureau of Labor Statistics currently published two such indices (U.S. City avg., all items, 1967:100), one for all urban consumers, and the other for urban wage earners and clerical workers.
