STATE OF MONTANA

REQUEST NO. 63-81

FISCAL NOTE

Form BD-15

In compliance with a written request received January 9, 19 81, there is hereby submitted a Fiscal Note for House Bill 102 pursuant to Title 5, Chapter 4, Part 2 of the Montana Code Annotated (MCA).

Background information used in developing this Fiscal Note is available from the Office of Budget and Program Planning, to members of the Legislature upon request.

Description of Proposed Legislation:

An act to provide statutory authority to establish a trust account for the operation, development and maintenance of lands owned by the Department of Fish, Wildlife & Parks.

Assumptions:

Establishing and managing the trust and legacy account required in the proposed legislation could be absorbed without additional funds. The proposed legislation would not increase or decrease revenue or expenditures for the Department of Fish Wildlife & Parks. It would simply require the deposit of monies from the sale of surplus real property, leases and exploration and development fees into a trust legacy account rather than the hunting and fishing license earmarked revenue account. These monies would then be used only for operation, development, or maintenance of real property.

Fiscal Impact:

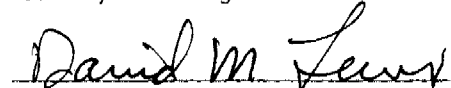

Exact future revenues to such a trust and legacy account are unknown. However, the Department of Fish, Wildlife & Parks currently has surplus lands of considerable value which may be sold during the next several years. Timber royalties as well as gas, oil and mineral leasing income may be available. Values of such surplus lands and mineral interests could range from \$100,000 to \$500,000 over the next several years, depending on the proceeds from the sale of such lands or mineral interests. Interest received would depend on current short-term interest rates available in the money markets.

Local Impact:

By providing a long-term source of funding for the operation, maintenance and development of department lands, the annual payments to counties "In lieu of taxes" on department owned lands would be assured.

Technical or Mechanical Defects or Conflicts with Existing Legislation:

The utilization of moneys from this account must be appropriated by the Legislature. Suggest such wording be included in the legislation.

Comments

It appears that the amendment will create an earmarked revenue account instead of a trust and legacy account. The amendment will allow the department to remove principle and interest for the purpose specified in the act.
