STATEMENT OF INTENT

HOUSE BILL 578

House Business and Industry Committee

A statement of intent is required for HB 578 in that it delegates rulemaking authority to the governor in Section 5.

Subsection (1) of section 5 provides that the governor has the power to direct changes in license.

administration, consistent with law. The governor may direct certain changes based on the recommendation of the small business license coordination center. The duties of the small business license coordination center are set forth in section 4 of this bill. As a point of clarity, the governor's authority to direct changes in executive agencies

already exists. It is not intended that subsection (1) of

16 section 5 delegate new authority or additional power to the 17 governor.

2. In subsection (2) of section 5, the governor is authorized to adopt rules to change the license renewal period or expiration date of any license. This authority has been delegated to the governor in order to realize the primary goal of this legislation. Presently, any one business may require more than one license that expires on different dates. The intent of this bill is to create a uniform licensing procedure if possible, to eliminate

unnecessary steps if the applicant could apply for more than
one license at one time. If the objectives of consistency
and uniformity are to be met, it is imperative that the
governor have the power to change license expiration and
renewal dates. Any rule adopted that relates to changing the
expiration of renewal date of a license shall be consistent
with the provisions of the Montana Administrative Procedure

Act.
