STATE OF MONTANA

REQUEST NO. 135-83

FISCAL NOTE

Form BD-15

In compliance with a written request received January 17, , 19 83 , there is hereby submitted a Fiscal Note for Senate Bill 174 pursuant to Title 5, Chapter 4, Part 2 of the Montana Code Annotated (MCA).

Background information used in developing this Fiscal Note is available from the Office of Budget and Program Planning, to members of the Legislature upon request.

DESCRIPTION OF PROPOSED LEGISLATION:

Senate Bill 174 eliminates the requirement that a corporation must have a ratio of current assets to current liabilities of at least $1\frac{1}{2}$ to 1 before an investment of public funds can be made in corporate commercial paper.

COMMENTS:

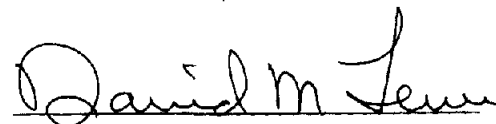

No dollar estimates are presented. The current ratios in most large corporations are being reduced due to intensive cash management programs. The Department of Administration has no data to estimate the number of corporations that do not meet the current ratio test. The maturity and net income requirements of Section 17-6-211 (c)(i) and (ii) counterbalance the test of solvency provided by the current ratio.

Fiscal year 1982 purchases of commercial paper, bankers' acceptances, and repurchase agreements for all funds are shown below. The respective revenue earned from the three types of securities (for FY '82) are listed for just the Short Term Investment Pool (STIP) fund.

	<u>Purchases for Year for all Funds</u>	<u>Revenue in STIP Fund</u>
Commercial Paper	\$ 107,600,000	\$ 370,335
Banker's Acceptances	\$ 918,225,537	2,716,973
Repurchase Agreements	\$22,243,985,000	\$ 2,250,434

A wider spectrum of potential corporations would exist through elimination of the current ratio test. A substantial increase in revenue from commercial paper would result through the increased investment opportunities. Commercial paper earns a higher yield than other short term vehicles such as bankers' acceptances and repurchase agreements. The investment revenue bankers' acceptances and repurchase agreements would respectively decrease due to increased investing in commercial paper.
