STATE OF MONTANA

FISCAL NOTE

REQUEST NO. FNN 405-85

Form BD-15

In compliance with a written request received <u>February 11</u>, 19<u>85</u>, there is hereby submitted a Fiscal Note for <u>SB 361</u> pursuant to Title 5, Chapter 4, Part 2 of the Montana Code Annotated (MCA). Background information used in developing this Fiscal Note is available from the Office of Budget and Program Planning, to members of the Legislature upon request.

Description of Proposed Legislation

Senate Bill No. 361 provides for a cost-of-living increase to all PERS benefit recipients and includes criteria for calculating benefit increases.

Assumptions

Assume 61% of personnel costs for state government is funded from the General Fund. Assumed salary adjustments of 5.27%/year and annual benefit adjustments of 12.8%/year are based on the experience of the actuarial valuation as of July 1, 1984 and include both state and local personal services increases. This is an average of salary adjustments for all participants over the previous two years. The state salary increase for FY 1984 was 4% overall. Average years of service 18.39. Average monthly benefit \$317.00.

Fiscal Impact

	FY ' 86	FY '87		FY ' 86	FY '87
Employer Contributions			Annual PERS Benefits		
under current law	\$28,102,847	\$29,564,195	under current law	\$32,519,197	\$36,447,516
under proposed law	29,197,706	30,715,987	under proposed law	36,878,365	40,747,516
Estimated Increase	\$ 1 , 094,859	\$ 1,151,792		\$ 4,359,168	\$ 4,300,000

The increased costs for state and local governments (\$1,094,859 and \$1,151,792 for FY 86 and FY 87 respectively) will continue for 40 years, and will increase with each salary adjustment over that time period. The states share of the increased cost will be \$583,451 for FY 86 and \$613,790 for FY 87. Of these amounts approximately 61% will be expenditures from the General Fund or \$355,905 for FY 86 and \$374,412 for FY 87.

BUDGET DIRECTOR Office of Budget and Program Planning

Feb 16 Date:

REQUEST NO. FNN 405-85 SENATE BILL NO. 361 Page Two

Long Range Impact

Expenditures for this bill for both state and local government will continue for the next 40 years and will increase each year in direct relationship to salary increases.

Benefit increases are expected to be greater than revenue increases during the next few years after which benefits will decline while revenues will continue to increase. After 40 years, revenue collected plus investment earnings should equal benefits paid and the increase in employer contribution will no longer be necessary.
