## STATE OF MONTANA - FISCAL NOTE

Form BD-15
In compliance with a written request, there is hereby submitted a Fiscal Note for HB255, as introduced.

## DESCRIPTION OF PROPOSED LEGISLATION:

HB255 establishes a cumulative limit on the number of bingo or keno and video draw poker machines in an establishment.

## ASSUMPTIONS:

1. The Department of Comerce (DOC) is not able to provide an accurate breakdown of gross tax collected berween video poker machines and keno/bingo machines under current law.
2. The DOC is able to calculate the marginal changes in types of machines licensed under the proposed law and to project net increases and decreases to tax collected on the two types of machines based on available statistics and additional assumptions outlined below.
3. One-half of the establishments that maintain the maximum number of video poker machines under current law will add an average of three new machines under the proposed law.
4. The number of keno/bingo machines estimated to be removed under the proposed law, and the associated reduction in tax to be collected, is based on the assumption that all establishments with more than ten keno/bingo machines in play currently will remove the excess from play.
5. Local governments will continue to receive two-thirds of the gaming machine net tax collected pursuant to $23-5-610, \mathrm{MCA}$, and one-third will be deposited to the general fund.
6. Because the DOC anticipates that this bill will cause an increase in license applications and quarterly reports, 1.00 FTE grade 8 clerk and minimal equipment expenses are added to the recommended executive budget which is shown under current law. All administrative costs are funded with the license fees revenue.
