#### STATE OF MONTANA - FISCAL NOTE

Fiscal Note for HB0540, as introduced

#### DESCRIPTION OF PROPOSED LEGISLATION:

An act generally revising the Montana Youth Court Act.

#### ASSUMPTIONS :

#### Department of Family Services:

- 1. The bill provides a point system for minimum, mandatory placement of youthful offenders in detention and secure care facilities. The 10 point mandatory commitment to Pine Hills/Mountain View School will have a significant impact on daily populations.
- The bill demands that determinate periods of time be mandated for youth acquiring 2. point levels through youth court intervention. DFS will no longer have the flexibility to control institutional populations.
- The bill provides that current youth court language be deleted and/or modified to 3. increase accountability for youthful offenders and creates a new designation entitled "predatory youth" which results in 180 days in a correctional facility.
- The bill will impact the current capacity for county-operated detention facilities 4. and shelter care facilities. The primary administrative impact will be on county youth court procedures.
- Montana Board of Crime Control statistics reveal that 500 youth in 1994 were charged 5. with crimes that would qualify for a mandatory commitment to a state youth correctional facility. Although the intent of the bill is to provide a deterrence to youthful offenders, the impact will at least require a doubling of the current capacity of 80 youth in secure care placements at Pine Hills School. This will require the construction of at least two additional 24-bed cottages at Pine Hills School and contracting with community providers for about 32 additional secure care beds.
- The average daily cost at Pine Hills School is \$130/day and construction costs for a 6. 24-bed secure care lodge is estimated at \$2,000,000.
- 7. Total estimated costs are: \$130 X 80 X 365 = \$3,769,000/year for youth care and two cottages X 2,000,000 = \$4,000,000 construction costs in FY96.
- 8. The \$3,769,000 youth care costs would continue into future years.
- There will be no additional revenues generated and all detention/secure care costs 9. for DFS are 100% general fund.

#### Department of Corrections & Human Services:

- This bill would provide for evaluations of youths at the Montana State 10. Hospital (MSH).
- 11. MSH would need an evaluation unit for adolescents separate from the current adult treatment units.
- Staffing the adolescent treatment unit would consist of 17.40 FTE plus a child 12. psychiatrist who would be contracted with at a cost of approximately \$50,000 per year.

Fiscal Note for HB0540, third reading

#### DESCRIPTION OF PROPOSED LEGISLATION:

An act generally revising the Montana Youth Court Act.

#### ASSUMPTIONS :

- 1. The Executive Budget present law base serves as the starting point from which to calculate any fiscal impact due to this proposed legislation.
- 2. The primary objectives of the proposed legislation are to clarify parenting roles and responsibilities and to increase youth accountability for actions along an entire continuum of behaviors. The bill will be effective October 1, 1995.

Montana Board of Crime Control:

- 3. Montana Board of Crime Control statistics reveal that about 500 youth in 1994 were charged with crimes that would qualify for up to three points. Complete statistics are available only for 1993 when there were 1869 status offenses, such as truancy and false liquor identification; 8185 other offenses, such as misdemeanor theft, city ordinance violations, possession of an intoxicating substance; and 660 more serious transfer offenses.
- 4. Repealing 41-5-106, 41-5-310, 41-5-311 and 41-5-809, MCA, would legalize holding juveniles accused of status offenses or adjudicated as status offenders in adult facilities.
- 5. This legislation would allow juveniles to be held in adult facilities longer than 24 hours. It is proposed that youth would be physically separated from adults, which would be inconsistent with federal mandates 42 U.S.C. 5633 Sec. 223 State Plans, issued by the Office of Juvenile Justice Delinquency Prevention Act (OJJDP), parts (12A), (13) and (14). The "sight and sound" requirements of state law are deleted by this bill [page 21, line 12].
- 6. Montana would not maintain compliance with the OJJDP Act and would lose grant funds of \$612,500 per year, most of which are used to help local governments provide youth services.

#### Department of Family Services (DFS):

- 7. DFS plans to serve each year of the 1997 biennium approximately 109 youth in the Youth Alternatives Program and 120 boys in the Pine Hills School (PHS). The capacity at PHS is 80 boys and the average stay is anticipated to be about seven months, resulting in annual service to about 120 boys. During FY94 PHS served 191 males.
- 8. The bill provides a point system, much like a driver's license point system, wherein a misdemeanor will count as one point and a felony will count as three points. Upon accumulating six points, a youth must be placed in a secure detention facility for five days and upon accumulating nine points, a youth must be placed in a secure detention facility for ten days.
- 9. After accumulating ten points, a youth would be placed at PHS for no less than 90 days and, if a youth is designated a "predatory youth," placement could be for up to 180 days. This placement is less than the present law base budget of 210 days per youth.

- 10. According to the bill, if a youth placed for either 90 or 180 days is willing to accept treatment for mental, emotional, behavioral, substance abuse or other problems, the youth may be transferred to a residential treatment facility after servicing one-half of the imposed detention period.
- 11. DFS will no longer have as much flexibility to control institutional populations. It appears that these specific provisions in the bill will lead to increased daily populations. The increased populations are projected to be 20 males at PHS and 30 youth at the Montana Youth Alternatives Program (20 females and 10 males).
- 12. Average daily costs at PHS are \$135 for a total cost of \$985,500 (20 x 135 x 365 = \$985,500). Average daily costs for the Montana Youth Alternatives Program are projected to be \$134 for youth referred through this legislation for a specialized portion of the program, which are higher than daily costs for the total six-month program. The total alternatives annual cost will be about \$1,467,300 (30 x 134 x 365 = \$1,467,300).
- 13. PHS capacity of 80 boys cannot be increased through reopening of closed cottages because they have been condemned. Construction costs for a 24-bed secure care lodge are estimated at \$1.2 million for PHS.
- 14. Emotionally disturbed youth may not be sent to PHS under any of the options contained in the bill.
- 15. The bill will impact the current capacity for county-operated detention facilities and shelter care facilities. The primary administrative impact will be on county youth court procedures.
- 16. Funding for the additional services from DFS will be general fund. Expenditures are phased in the first year consistent with the October 1 effective date and accumulation of ten or more points.
- 17. Youth Placement Committees will provide recommendations to judges which will result in decreased foster care placements. There is no experience to project cost savings, but future savings may be anticipated.

Office of Public Instruction:

17. Neither the Pine Hills School nor the Montana School for the Deaf and Blind receives ANB payments for youth placed at the facilities. There is no provision for the education funds to follow the students.

#### Department of Corrections & Human Services:

- 18. This bill would provide for evaluations of youth at the Montana State Hospital (MSH).
- 19. MSH would need an evaluation unit for adolescents separate from the current adult treatment units.
- 20. Staffing the adolescent treatment unit would consist of 17.40 FTE, plus a child psychiatrist who would be under contract at a cost of about \$50,000 per year, and related operating expenses. Expenditures are phased in the first year consistent with the October 1 effective date. The total operating costs will be \$359,830 in FY96 and \$606,384 in FY97 and future years.

#### Department of Social and Rehabilitation Services:

21. Aid to Families with Dependent Children (AFDC) does not provide a specific amount for each child so no AFDC funding would follow the youth to pay for placement. Supplemental Security Income (SSI) and child support payments are made to the parent(s) and may not be diverted so long as the parent(s) can show the funds are being used to maintain a home for a child to return to after placement. In a few instances of long-term placements of at least five months or more, it may be possible to obtain a diversion of the SSI payment from the Social Security Administration when a home was not being maintained. The maximum SSI payment is \$446 per month, when there is no offsetting parental contribution. A \$97 state general fund match is provided in certain circumstances.

#### EFFECT ON COUNTY OR OTHER LOCAL REVENUES OR EXPENDITURES:

- 1. This bill as written will have a major impact on county government costs relative to construction of detention/shelter care beds and associated operating costs for those youth who receive six or nine points.
- 2. Youth and/or District courts could experience increased expenses due to court-ordered testing under Section 21.

#### TECHNICAL NOTES:

- 1. Although Section 24, subsection 17 (Page 36) states that "Health, education, welfare, and other agencies involved with the youth shall ensure that funding for the youth follows the youth to the location in which the youth is placed and that the funding is assigned to the appropriate agency or entity" it is the youth probation officers of the youth courts who use a financial resources checkoff. The District Court or Youth Court judge must order financial resources and these order do not affect and cannot revise AFDC, SSI, child support, school ANB or most other known resources. Treatment funding follows only if the youth is Medicaid eligible and in an approved treatment facility.
- 2. Section 24, subsection 7 (Page 34, lines 9 and 10) appears to be in conflict with Section 40 (Page 47, lines 18-20).
- 3. Because some of the terms and provisions in the bill are new and not completely defined, the DFS would require a statement of intent in the bill to enable development of rules for implementation.
- 4. Page 42, lines 15 and 16, striking the minimum 10 year term will create problems for bond counsel and local governments issuing bonds. This provision needs to be maintained.

- 5. Page 43, line 25: Deleting the preference for regional services is contrary to the policy direction established by the administration and the legislature for human services. Since the amount of federal money available is capped, deleting the regional concept will only increase the cost to counties.
- 6. Page 47, lines 5-15: Deleting emergency and consent provisions of substantive law may create problems for patients and lead to law suits. The technical problem with current law is being addressed in HB41 to provide a method of exceptions.
- 7. All or portions of Section 24, subsection 15 (Page 36, lines 3-7) and subsection 16 (Page 36, lines 17-19) may be impossible or unconstitutional to implement because, in cases where a youth requires treatment, services must be provided first, not after time is served.
