STATEMENT OF INTENT

A statement of intent is required for this bill because it grants rulemaking authority to the board of nursing to give temporary approval and to establish requirements for temporary approval to practice in a field of advanced practice registered nursing. Because the practices of nurse practitioners, nurse-midwives, nurse anesthetists, and clinical nurse specialists are unique, the board may adopt separate requirements for each specialty as necessary and shall consult with practitioners in each field in the development of the rules.

 16 nursing to give temporary approval and to establish requirements for temporary approval to practice in a
 17 field of advanced practice registered nursing. The legislature finds that it is in the public interest to give
 18 temporary approval to practice to a person who has completed the advanced practice registered nursing
 19 education required in order for the person to apply to take a national certification examination. In order to
 20 protect the public, the board of nursing is authorized to make rules regarding the procedures for obtaining
 21 temporary approval to practice in each field of advanced practice registered nursing and for the supervision
 22 of the nurse. Because the practices of nurse practitioners, nurse-midwives, nurse anesthetists, and clinical
 23 nurse specialists are unique, the board may adopt separate requirements for each specialty as necessary
 24 and shall consult with practitioners in each field in the development of the rules.
