Rule I FINANCIAL RESPONSIBILITIES. (1) Applicants applying for a commercial pesticide applicator's license shall provide, on forms approved by the department, evidence of financial responsibility, establishing ability of applicant and/or his employees, to respond to and indemnify any person or persons for all damages to their person or property arising out of the use, misuse, or attempted use of application of pesticides, within the financial limits set forth below. Provided however, that this requirement for financial responsibility has no application to, and cannot be subjected to pay for any injury or damage to the person or property of the landowner hiring the pesticide application.

The minimum financial responsibility shall be in the amount of One Thousand Five Hundred Dollars ($1,500.00) for aerial applicators, and Five Hundred Dollars ($500.00) for all other applicators.

(2) The department may require all applicators that experience or cause chemical accidents or occurrences over one or more licensing periods, to increase their financial responsiblility requirement up to and including Ten Thousand Dollars ($10,000.00).

(3) Applicators possessing insurance coverage exceeding

the requirements of this rule and it's subsections, upon documentation approved by the department, shall be considered as meeting the requirements of this section.

(4) Commercial pesticide seed treatment applicators, whether at farm sites or their own business locations, those seed treaters using fumigants, vertebrate pest control applicators using ground applied baits and public utility non-commercial and food manufacturing and processing applicators applying pesticides in or on properties managed by the public utility or food manufacturer or processor are exempt from the financial responsibilities required in rules I through Rule III. Demonstration and Research Pest Control applicators may be exempt from the financial responsibilities required in rules I through Rule III upon appropriate application for exemption approved by the department. The department will evaluate each applicant's situation as shown on the waiver application considering particularly the following factors; actual pesticide applications by the applicant, the use of co-operators, the size of plots, the hazards and drift potential of pesticides utilized. All applicators shall comply with the requirements in rules IV through VIII , inclusive.

(5) An applicator who's financial responsibility requirements had been increased, but who has, for two consecutive spray seasons, operated without any accidents or occurrences of pesticide damage, may make application to the department to be allowed to revert back to the minimum financial responsibility requirements of rule I.

RULE II TYPES AND CONDITIONS OF FINANCIAL RESPONSIBILITY.

(1) In meeting the financial responsibility requirements of rule I, applicant shall have the option to utilize and provide any one or more of the following means: (a) policy of liability insurance; or (b) a surety bond; or (c) by a deposit of cash, or certificate of deposit, or deposit of bonds or other obligations for the payment of which the full faith and credit of the United States or of this state are pledged, and which has the capability of being directly converted to legal tender by this department, and approved by this department. The said deposit shall be into an indemnity trust fund, conditioned to indemnify the people of the state of Montana for all damages to property and/or injury or death to any person or persons as set forth in rule I. After a deposit is made pursuant to (c) above, and after a license has been issued conditioned thereon, the deposit may not be withdrawn except with the prior written consent of the department and any unauthorized withdrawal or attempt to so withdraw may subject all persons involved with the withdrawal or any attempt thereof, to a charge of violating section 80-8-306 (1) MCA.

The insurance policy or surety bond options shall only be approved if issued by an insurance company or bonding

company currently qualified to do businss in the state of Montana, and which provides for chemical damage responsibility for each and every chemical or pesticide the applicator may choose to apply.

The total aggregate liability of each insurer or surety for claims shall be limited to the face amount of the liability policy or surety bond, and not exceeding the limits of each applicant under rule I in the event the face amount of the policy or bond exceeds the required limits, for the current year together with all unresolved or unpaid claims, timely filed, pending from previous calendar years coverage.

(2) The department may accept a liability insurance policy in the proper face amount that contains a deductible clause, in an amount not to exceed Five Hundred Dollars ($500.00) for aerial applicators, and Two Hundred Fifty Dollars ($250.00) for all other applicators. If the licensee has not satisfied the requirements of the deductible amount in any prior damage claim, such deductible clause in a currently submitted policy shall not be accepted by the department to satisfy the licensing requirements unless and until the applicant satisfies the prior damage claim. Insurance policies may have the pollution exclusion clause removed.

(3) The financial responsibility requirement imposed by rule I must be maintained in full force and effect during each entire licensing period, except as provided in rule VIII. In the event of a lapse or termination in the means assuring financial responsibility, the applicator's license(s) shall automatically terminate, co-incidental in time with the lapse or termination of financial responsibility, and the licensee shall immediately cease all applications of pesticides, and without further notice shall immediately return to the department, in person or by certified mail, all licenses issued to him and/or his employees for the current calendar year; any failure to so return shall constitute a violation under rule 4.10.170. In the event a previously licensed applicator whose license(s) was terminated by the provisions of this rule desires to have his license re-issued for the balance of the calendar year, he shall file a new application, accompanied by a new filing fee, and demonstrate to the satisfaction of the department that he once again meets the financial responsibility requirements of rule I, and upon re-approval by the department his license(s) may be re-issued unless some other legal or regulatory cause exists for non-issuance.

RULE III APPROVAL, MODIFICATION, AND CANCELLATION OF FINANCIAL RESPONSIBILITY ELEMENTS.

(1) The department shall ascertain that the means establishing financial responsibility filed by the applicant fully complies with the act, and fully satisfies the rules adopted thereunder, prior to issuance of any license. The information

demonstrating financial responsibility shall be submitted on forms of the type approved by the department. License application approval shall not be granted until a complete copy of the bond, verification of the indemnity trust fund deposit, or a certificate or binder of insurance coverage is filed along with the license application. The licensee shall provide a complete copy of the insurance policy upon written request of the department. In the event the applicator options to utilize a liability insurance policy as the means of establishing financial responsibility, then and in that event, the applicator has the duty and responsibility to ascertain that the policy proposed to be submitted provides chemical damage coverage for every chemical proposed to be applied during the licensing period. In the event applicator's proposed policy of insurance contains excusions against coverage of one or more chemicals applicator proposes to apply, then and in that event the applicator may submit the proposed insurance policy to provide such coverage as it affords but the applicator must, in addition thereto, provide evidence of financial responsibility to indemnify the public against chemical damage arising out of the use, misuse or attempted use of each and every chemical proposed to be used or applied which is excluded from coverage of the proposed liability insurance policy. The amount of additional coverage shall be in the minimum amount required under rule I and the means to be utilized shall be the options provided in rule II (1) (b) or (c).

(2) The department shall be notified by registered mail ten (10) days prior to any proposed modification of the liability insurance policy or surety bond requested by the licensee. Such modification must be approved by the department before the proposed modification can become final. Ten (10) days notice by registered mail to the department is required prior to the surety or insurer cancelling the licensee's surety bond or liability insurance, and prior to settlement of claims made against licensee's bond or insurance. Modification of the indemnity trust fund, for any reason by any party, shall not be completed until the department has approved the proposed modification by written authorization to the licensee and the bank, trust or other financial official or institution.

If the financial responsibility is to be cancelled, the requirements and procedures established in rule VIII shall be followed.

RULE IV JUDGEMENT OF DAMAGES AND/OR INJURY. (1) A judgement rendered in any court of competent jurisdiction, of this state or any other state, or of the United States, against a licensee or certificate holder, upon a cause of action arising out of any pesticide use, misuse or attempted use or application, filed with the department; and a written agreement, mutually agreed upon between the licensee and the individual experiencing property damage or bodily injury, as to the fact of damages and the dollar value thereof, duly notarized and

filed with the department, are for all purposes within these rules, denominated as judgments.

(2) No licensee nor certificate holder shall permit any judgement against him for damages or injury arising out of his pesticide operation to remain unsatisified for a period of more than thirty (30) calendar days.

(3) Individuals experiencing non-crop vegetative damage may, upon mutual agreement with the licensee, reduced to writing, duly notarized, filed with the department, delay the final determination of the dollar amount of the damage, and judgement thereon, for a period of time, not to exceed one year from the date damage is first observed by the damaged party.

(4) Individuals experiencing crop damage may, upon mutual agreement with the licensee, reduced to writing, duly notarized, filed with the department, delay the final determination of the dollar amount of crop damage for a period of time, not to exceed (60) days following the completion of harvest on the crops and fields allegedly damaged, provided that the licensee and the individual experiencing crop damage provide an estimate to the department of the approximate dollar value of the damages, and, if necessary, that the licensee provides evidence of additional financial responsibility to fully indemnify damaged party for the estimated damages and still maintain his minimum required financial responsibility under rule I.

RULE V . INCIDENT REPORTS AND RECORDS. (1) An applicator who through his own actions or omissions, or the actions or omissions of his employees, causes or allows any pesticide to escape onto or to be deposited onto the person, lands, or property of another not the person hiring or contracting for his services, shall be required to file a written report to the department within forty-eight (48) hours of the incident, specifying the location of the incident, the name of the pesticide involved, the type of formulation, the method of application, the name and address of the person for whom the application was being made, and the name and address of the person(s) whose land, person, or property was subjected to the unintentional pesticide application. (In addition, if the pesticide is classified as either Extremely Toxic or Highly Toxic to people or animals the applicator or operator shall immediately cease his application and notify the land-owner or operator whose land, person or property was subjected to unintentional pesticide application and to the department, immediately, by the quickest available means, after applying first-aid or personal decontamination if appropriate.)

(2) A complete record of all settled and pending claims from the preceding licensing period must be filed when reapplying for an applicator's license. The record shall indicate for each and every incident the names of all parties involved, the location of the incident, the manufacturer and the technical name of the pesticide involved, the type of formulation, the method of application, the intended use,

and the target or site, specifying the animals, wildlife, plant and aquatic life, soil, or people subjected to the unintentional pesticide application(s).

(3) For settled claims, report the information required in (2) above, together with the dollar amount of the economic loss and the final settlement agreement between all parties.

Applicators failing to file the foregoing reports, or falsifying them in any fashion, shall be subject to immediate revocation of current licenses and/or shall not be issued a license until the requirements of this section are fully satisfied.

RULE VI REVOCATION OF LICENSE. (1) The department shall revoke the license of any applicator not satisfying the final judgement rendered against or agreed to by him, within thirty (30) calendar days from the date the judgement is filed with the department. The revocation shall remain in effect and no license shall be issued to the applicator unless and until the judgement is satisfied or until applicator files with the department his written direction to his financial responsibility guarantors to respond in full to the damages specified in the judgement.

(2) In the event the financial responsibility guaranteed is not adequate to satisfy the judgement when fully applied thereto, then, and in that event the applicator shall apply such additional monies or assets as may be required to fully satisfy the judgement, and the applicator's license shall not be issued until the judgement has been fully satisfied and the required financial responsibility once again brought up to the amount required of the particular applicator under rule

RULE VII PERSONAL LIABILITY FOR DAMAGES. (1) Nothing in these regulations shall be construed to relieve any person, landowner or applicator, from liability for any damage to the person, lands or property of another, caused by their use of pesticides even though such use conforms to the rules of the department.

RULE VIII LICENSING PERIOD. (1) The licensing period shall be from the date of license issuance through December 31 of that calendar year. An applicator who applies pesticides seasonally may cancel his financial responsibility (in effect, cancelling his license) sixty (60) days after the date of his last application. The sixty (60) day requirement may be waived if his means of providing financial responsibility is such that it provides effective ongoing coverage during the period of time a damage action could be maintained under statute of limitation sections 27-2-204 and/or 27-2-207 MCA.

(2) An applicator who provides an indemnity trust fund as his means of establishing financial responsibility may

cancel his fianacial responsibility sixty (60) days after the date of his last application. Cancellation of an indemnity trust fund may be accomplished by submitting a notarized statement to the department, for it's descretionary approval, declaring that there are no known claims pending or judgement unsatisfied against the applicator. An applicator who provides an indemnity trust fund shall not be allowed to cancel his financial responsibility if a claim is pending or a judgement unsatisfied.

The fact that an applicator obtains a cancellation of his indemnity trust fund in no way is to be construed as absolving an applicator from a suit nor claim of damages filed in a court of competent jurisdiction within the time provided by statute of limitation sections 27-2-204 and/or 27-2-207 MCA.

4. The rule changes are proposed to simplify and clarify the verbage of the rules; to provide for more liberalized and flexible rules establishing financial responsibility.

5. Interested persons may present their data, views or argument either orally or in writting, at the hearing, and persons wishing to submit their data, views or agrument in writing may do so any time up to and including the 28th day of March, 1979.

2. The proposed amendments are to change the dates for prefiled testimony in the present rule, to add a requirement for a summary to accompany written testimony, and to add clarifying language. The text of present rule 16-2.14(1)-S14041 is found in the published notice of proposed adoption at p. 1459 of the 1978 Montana Administrative Register, Issue No. 14, and the notice of adoption found at p. 36 of the 1979 Montana Administrative Register, Issue No. 2.

3. Notice of the proposed amendments, including the text, was given at p.25 of the 1979 Montana Administrative Register, Issue No.2, and is repeated here to ensure adequate public notice, since the notice of adoption of the rule to be amended appeared in the same issue of the Register as the notice of amendment.

4. The Board is proposing to amend this rule in order to give those testifying on the ambient air quality standards an additional two weeks to submit written testimony, because the publication of the draft EIS on those standards has been delayed two weeks, and the testimony will be based in part on the contents of the EIS. In addition, the requirement of a summary was considered an aid to the Board in its deliberations. The addition of the word "testimony" in paragraph 1 is not substantive and is intended only to clarify what "direct" referred to.

5. Interested persons may present their data, views, or arguments orally or in writing either at the hearing or prior to it to the hearing officer, named below.

6. C.W. Leaphart, 1 North Last Chance Gulch, Helena, Montana 59601 (phone: 442-4930) has been designated to preside over and conduct the hearing.

7. The authority of the Board to make the proposed

amendments is based on sections 75-2-111 and 75-2-202, MCA (section 69-3909, R.C.M. 1947).

(b) If a county welfare director or a division administrator disagrees with a proposal for decision, he may, within ten (10) days of its mailing, request an opportunity to file exceptions and briefs with the Board but may not present oral argument.

(c) A board of county commissioners, if it disagrees with a proposal for decision and if it was an original party in the appeal by virtue of the involvement of county funds in the benefits, may request, within ten (10) days of the mailing of the proposal for decision, an opportunity to file exceptions, present briefs and oral argument to the board.

(2) If a request for an opportunity to file exceptions and present briefs and oral argument to the board is not filed within ten (10) days of the date of mailing of the proposal for decision, the proposal for decision shall become final without further action by the board, unless a party can show that the failure to request an opportunity to file exceptions and present briefs or oral argument was for good cause.

(3) If a request is filed within the specified time period, the board shall consider the proposal for decision, the exceptions filed, briefs or oral argument presented and the record of the hearing, and shall:

(a) notify the claimant, the local office and any other party of the board's decision:

(i) within sixty (60) days from the date of the request for hearing in an appeal involving benefits received under the food stamp program; or

(ii) within ninety (90) days from the date of the request for hearing in an appeal involving benefits under a program other than the food stamp program.

(2) A final decision is binding on the Department and its units, including a County Welfare Department, and the Department or a subunit of the Department, including a County Welfare Department, may not seek judicial review of a final decision.

(3) A board of county commissioners may seek judicial review of a final decision if it was a party to the original hearing by virtue of the involvement of county funds in the benefits which were the subject of the hearing.

RULE XIII IMPLEMENTATION OF HEARING DECISIONS (1) When a hearing decision is favorable to a claimant, the Department shall promptly take the action necessary to restore lost benefits under the rules of the applicable program.

(2) When a hearing decision is adverse to a claimant and a claimant has received continued benefits pending a hearing decision, the Department shall promptly take the appropriate action to recover the value of the benefits continued pending hearing, unless the claimant seeks judicial review, in which case the Department's action to recover benefits shall be suspended pending the outcome of judicial review.

RULE XIV AVAILABILITY OF HEARING RECORDS All hearing decisions and records shall be available to the public for inspection and copying, except that the names and addresses and any other identifying information of claimants shall be kept confidential.

5. The purpose of the proposed rules is to clarify and update the substance and procedures in contested cases and appeals to the Board of Social and Rehabilitation Appeals. New rules will succeed and replace those rules which are proposed to be repealed.

6. Interested persons may present their data, views, or arguments, either orally or in writing, at the hearing.

7. The Office of Legal Affairs, Department of SRS, 111 Sanders, Helena, Montana has been designated to preside over and conduct the hearing.

TO: All Interested Persons:

1. On November 17, 1978 the Board of Pharmacists published a notice of a proposed amendment to ARM 40-3.78(6)-S78030, sub-section (5) relating to dangerous drugs at page 1524-1525 of the 1978 Montana Administrative Register, issue number 15.

2. On December 29, 1978 the Board amended the rule as proposed with the exception of any material, compound, mixture or preparation which contains any quantity of pentazocine, including its salts, as it had not been federally controlled at that time. The Board is now adopting that portion as it has been controlled by the federal government as of February 9, 1979.

3. No comments or testimony were received. The Board amended the rule because such additional drugs have been controlled by the Federal Government since the last changes to the Board rules and pursuant to its instructions in Section 50-32-103 MCA (54-302 R.C.M. 1947). The Board is likewise controlling the drugs by this amendment.

To: All Interested Persons:

1. On January 11, 1979, the Board of Real Estate published a notice to amend ARM 40-3.98(6)-S98040 by adding a new subsection (3) concerning out-of-state persons applying for salesman licenses at pages 2 & 3, 1979 Montana Administrative Register, issue number 1.

2. The Board has amended the rule exactly as proposed.

3. No comments or testimony were received. The Board is amending the rule because if a real estate salesperson were allowed to operate independently from his broker in another state, the sponsoring broker may not be aware of that license's real estate related activities, yet the broker is responsible for those actions. The public would have no assurance that the real estate transaction they may become involved in through the non-resident licensee would be proper as the supervising broker would not be in a position to properly supervise the transaction. In fact the supervising broker may not be aware of the transaction at all. The supervising broker must have all salesmen he has responsibility for operating from the general vicinity of his agency to give proper supervision to these salesmen in the public interest.

OPEN MEETINGS - Open Meetings Law, right of public observation, mechanical recordings of proceedings.
MONTANA CODE ANNOTATED - Section 2-3-201, et seq.
REVISED CODES OF MONTANA, 1947 - Section 82-3401, et seq.

HELD: A member of the public is authorized to make a mechanical recording of the proceedings and deliberations of an open school board meeting.

13 February 1979

James C. Nelson, Esq.
Glacier County Attorney
Glacier County Courthouse
Cut Bank, Montana 59427

Dear Mr. Nelson:

You have requested my opinion on the following question:

> May a member of the public make a mechanical recording of the proceedings and deliberations of an open school board meeting over the objections of the school board?

The Montana Open Meeting Law, section 2-3-201 et seq., MCA (82-3401 et seq., R.C.M. 1947), does not specifically address the question you raise. Section 2-3-211, MCA (82-3405, R.C.M. 1947),provides that "accredited press representatives" may not be prohibited from recording open meetings. The presiding officer, however, is empowered to assure that this activity "does not interfere with the conduct of the meeting. There is no specific reference in the law to recordings made by any other person.

Section 2-3-201, however, provides:

> The legislature finds and declares that public boards, commissions, councils, and other public agencies in this state exist to aid in the conduct of the peoples' business. It is the intent of this part that actions and deliberations of all public agencies shall be conducted openly. The people of the state do not wish to abdicate their sovereignty to the agencies which serve them.

> Toward these ends, the provisions of the part shall be liberally construed.

It is evident that while some open meetings involve brief, simple issues, others deal with complex and lengthy questions of great public concern. As a meeting increases in length and complexity, so does the difficulty of interested persons of keeping track of what is said and done. This is especially true in situations where public input or comment is solicited, and may also be true when one person is attempting to observe the meetings of several different public bodies. A simple and efficient method for these interested persons to confront these situations is to record the meeting for their own subsequent review, study and analysis.

Therefore, the legislative policy announced in section 2-3-201, MCA, and the mandate for liberal construction, would be furthered by allowing interested members of the public to mechanically record open meetings. The presiding officer of the meeting would still have the power to assure, in accordance with section 2-3-211, MCA, that the recording "does not interfere with the conduct of the meeting."

THEREFORE IT IS MY OPINION:

> A member of the public is authorized to make a mechanical recording of the proceedings and deliberations of an open school board meeting.

Very truly yours,

MEDICAL PRACTITIONERS - Examination and diagnosis of physical handicaps and impairments by physical therapists; PHYSICALLY HANDICAPPED - Examination and diagnosis of physical handicaps and impairments by physical therapists; PHYSICAL THERAPISTS - Examination and diagnosis of physical handicaps and impairments by physical therapists.
MONTANA CODE ANNOTATED - Sections 37-3-102(a), 37-11-101(1), and 37-11-321(9);
REVISED CODES OF MONTANA, 1947 - Sections 66-1012(a), 66-2501, 66-2509.

HELD: A physical therapist may not act as a consultant in evaluating and diagnosing physical handicaps of any person unless acting at the request and direction of a licensed physician.

16 February 1979

Ed Carney, Administrator
Department of Professional and
Occupational Licensing
42 1/2 North Last Chance Gulch
LaLonde Building
Helena, Montana 59601

Dear Mr. Carney:

You have requested my opinion concerning the following question:

> May physical therapists act as independent consultants in evaluating physical handicaps of school children when requested to do so by school districts or educators?

Your request specifically relates to the permissibility of a physical therapist giving evaluations and consultations while working independently of a licensed physician.

Physical therapists are subject to the Physical Therapists Practice Act which defines the practice of physical therapy and requires a license for such practice. Title 37, chapter 11, MCA (§66-2501, et seq., R.C.M. 1947). Subsection 9 of section 37-11-321, MCA (§66-2509, R.C.M. 1947), provides that the Montana State Board of Medical Examiners may refuse to license as a physical therapist anyone who,

> (9) has undertaken to practice physical therapy independent of prescription from a person who holds an unlimited license to practice medicine and surgery in Montana and other states and territories. (Emphasis added.)

Since the Act permits the board to deny a license to any person practicing physical therapy independent of the prescription of a licensed physician, it follows that the practice of physical therapy independent of such prescription is prohibited. This limitation must be read in conjunction with the definition of physical therapy. Section 37-11-101(1), MCA (§66-2501(1), R.C.M.), provides in relevant part:

> (1) "Physical therapy" means the treatment of a bodily or mental condition of a person by the use of the physical, chemical, and other properties of heat, light, water, electricity, massage, and therapeutic exercise including physical rehabilitation procedures. (Emphasis added.)

This section refers only to treatment. It makes no mention of diagnosis or evaluation of conditions for which treatment might be appropriate and there is no provision of the Act which authorizes physical therapists to independently conduct physical examinations and give advice or consultations concerning treatment.

In requiring a physician's prescription as a prerequisite to physical therapy and defining physical therapy as "treatment", the Physical Therapists Act contemplates that the examination and diagnosis of physical handicaps be done by licensed physicians. Such diagnosis of physical ailments and handicaps, as well as prescriptions for treatment, are expressly contemplated as part of the practice of medicine. See section 37-3-102(a), MCA (§66-1012(a), R.C.M. 1947).

This opinion should not be construed as prohibiting a physician from requesting the assistance and advice of a physical therapist in examining and diagnosing physical handicaps or prescribing a course of treatment. However, a physical therapist may not examine, evaluate and diagnose physical disabilities independent of the direction of a physician.

THEREFORE, IT IS MY OPINION:

A physical therapist may not act as a consultant in evaluating and diagnosing physical handicaps of any person unless acting at the request and direction of a licensed physician.

Very truly yours,

MIKE GREELY
