

**Pretrial Diversion Performance Measurement Overview**  
**Lewis and Clark County**  
**January 1, 2019 to December 31, 2021**

- **Maximize public safety by reserving detention for those offenders who pose the greatest risk to reoffend or fail to appear in court.**
- **Maximize court appearance.**
- **Maximize the appropriate use of release and detention by use of services designed to fulfill the two goals stated above.**

- 
- Data is collected using the AutoMon case management system. The data still contains “noise” and will continue to need refinement. *(Please note that percentages were rounded and may not add to 100%)*
  - The attached report captured all cases closed Lewis and Clark County between January 1, 2019, and December 31, 2021. During that time-period, 2,334 or 86% of the Public Safety Assessment-related cases were closed.
  - About 84% or 1968 defendants were released pre-trial from detention. Of those, about 77% were released on their own recognizance. The other 23% had some form of cash bail required for release.
  - Of the defendants not released pre-trial, 18% were a level 1 on the PSA, 41% were a level 2, and 41% were a level 3.
  - For defendants released pre-trial, 87% reported to their court appearances. *(\*\*Please note this reflects cases in which a warrant was issued for the failure to appear. If a defendant did not appear but a warrant was not issued, it is not counted as it doesn't exist in the database.)*
  - In the closed cases, 77% of the defendants remained law-abiding. 241 people were arrested for a new misdemeanor and 211 for new felonies. 111 of these were violent offenses.
  - The OCA does not maintain or collect county jail data. Thus, it is difficult to assess the impact on overall jail populations, which include not only pre-trial defendants, but people convicted who are awaiting a Department of Corrections placement, serving a misdemeanor sentencing, or awaiting the outcome of a probation violation. Several detention facilities also house federal inmates.
