Water Court:

1. My Water Rights which Objector Mickale Carters has agreed to speak for me.
2. I would like to Speak on the harm this compact has produced.

Others have requested to argue on other points that I agree with and so will only speak on the Harm done.

I would like to respectfully request an extension of time for our oral arguments. I would like to shoot for October 27th if possible. I will be waiting on the mail system. I will have attachments and examples for my points.
