

Re: Support for Madeleine Weisz's Application for Associate Water Judge

Dear Chief Justice Swanson,

I am writing to express my support for Madeleine Weisz as Associate Water Judge. I have known Maddy since high school and even then she was known for her ability to unite people. She is fair, honest and well respected by everyone who has had the privilege of knowing her. I know Maddy has the work ethic, commitment, and passion. Her extensive background being Senior Water Master at the Montana Water Court has prepared her and I am confident Maddy would excel in this position.

I am a Montana resident, business owner and homeowner. I have built my life in Montana and it matters who we nominate for these positions. The decisions made regarding our resources directly or indirectly affect each of us. It is imperative we nominate judges with extensive background and experience regarding the law. It is equally as important we trust they will make decisions governed by the law and the best interest of our resources. I am confident that Maddy will be thorough, fair and unyielding in her commitment to the law. She has the combination of knowledge and integrity to make her the perfect candidate to serve the people and land of this amazing state. Maddy's service will ensure our resources are protected for generations of Montanas to come.
